¹ **Mortality** includes all deaths that occurred in the hospital regardless of length of stay or patient status (i.e., inpatient or outpatient)

² **Post-PCI Stroke** includes all strokes that occurred after the PCI and did not resolve in 24 hours

³ **Emergency CABG** surgery includes all emergency or salvage CABG surgeries that occurred after the PCI (Note: data not available for statewide comparisons, therefore risk-adjusted rates could not be calculated)

* Rates for Statewide and Elective PCI Certified Hospitals are observed rates, not risk-adjusted rates
