# HPD Program Goals and Statement from Committee

- Provide public benefit for Californians and the state while protecting consumer privacy.
- Increase transparency about health care costs, utilization, quality, and equity.
- Inform policy decisions on topics including the provision of quality health care, improving public health, reducing disparities, advancing health coverage, reducing health care costs, and oversight of the health care system and health care companies.
- Support the development of approaches, services and programs that deliver health care that is cost effective, responsive to the needs of enrollees, and recognizes the diversity of California and the impacts of social determinants of health.
- Improve data transparency to achieve a sustainable health care system and more equitable access to affordable and quality health care for all.
- Learn about and seek to improve public health, population health, social determinants of health, and the health care system, not about individual patients.
