

# DRC Considerations for Application Review Worksheet

This document is provided as an optional tool for committee members to organize their thoughts. Should members choose to utilize it, submission to HCAI may be necessary to fulfill the requirements of the Public Records Act.

## Statutory and Regulatory Considerations

1. How does the data use contribute to achieving HPD Program Goals?

A large, empty rectangular box with a thin black border, intended for the user to write their response to the question above. The box is currently blank.

2. How does the proposed use of the data provide greater transparency regarding health care costs, utilization, quality, or equity?

A large, empty rectangular box with a thin black border, intended for the user to provide a detailed answer to the question above.

3. How will the information be used to inform policy decisions regarding the provision of quality health care, improving public health, reducing health disparities, advancing health coverage, or reducing health care costs?

A large, empty rectangular box with a thin black border, intended for the user to provide a detailed answer to the question above.

## Additional DRC Considerations

These considerations are optional and not detailed in statute or the regulations, considerations not listed may also be applied.

### Privacy

1. What are the reasons or justifications provided for all confidential or sensitive data elements requested? These include direct identifiers, indirect identifiers (dates, 5-digit ZIP), and sensitive diagnoses and procedures.

2. How does the request meet minimum data necessary standards?

3. How does the requestor demonstrate their ability to balance the possible anticompetitive and/or commercial risks; and for requests that include direct personal identifiers?

#### Results and Information Products

1. What are the objectives, methodologies, and potential limitations of the request?

2. What are the expected findings/outputs?

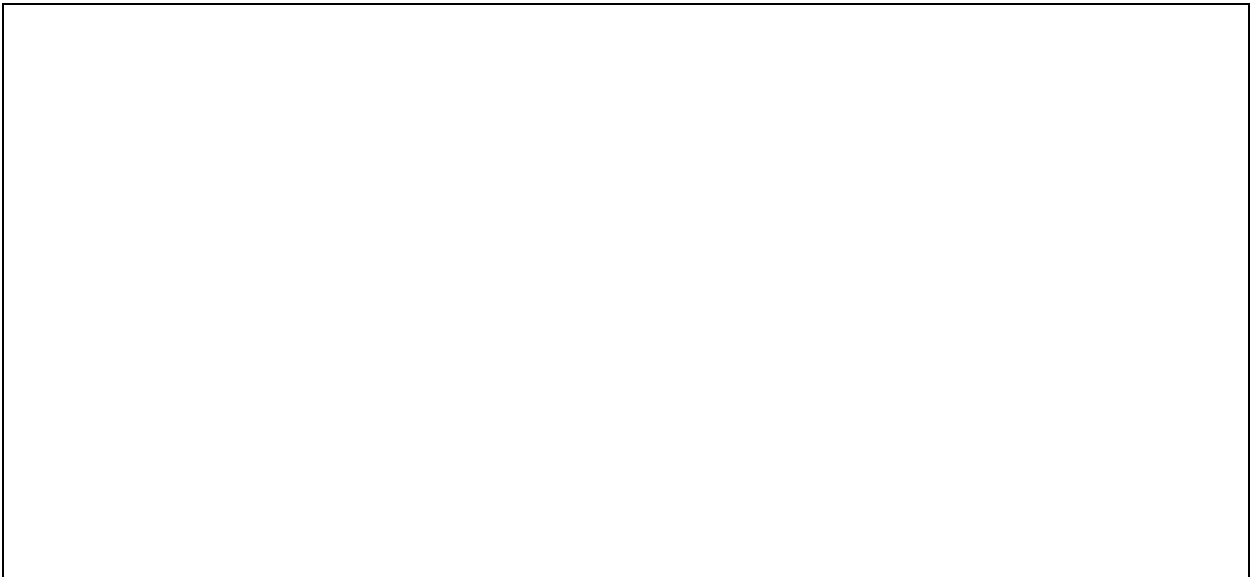

3. How will the results be made available to policymakers or the public?

4. What level of aggregation will be applied to reports, presentations, and other information products intended for public dissemination?

5. How does the proposed project generate a public benefit for California?

## Anticompetitive Use & Commercialization of HPD Data

1. Is there potential for the data to be used in an anticompetitive manner?

2. What are the risks for commercialization or marketing created by this request?

3. Is this work being conducted on behalf of the state, and if so, what is the extent of the state's involvement?

4. Other considerations

## Recommendation:

- Recommended
- Conditional
- Tabled
- Not Recommended

Justification:
