Description of Transaction

(A) The goals of the transaction:

As explained in the request for expedited review submitted by Seller simultaneously herewith, on January 11, 2025, Prospect Medical Holdings, Inc., together with its debtor affiliates (“Prospect”), commenced a voluntary Chapter 11 bankruptcy filing in the Northern District of Texas due to an immediate and significant liquidity crisis that put Prospect at risk of immediate business failure. The bankruptcy process provided Prospect with temporary liquidity to stabilize business operations, maintain its hospital operations, provide safe and continued access to critical health care for its patients and pursue the sale of its hospitals on an expedited timeline. Prospect fully exhausted its original debtor-in-possession financing and obtained additional financing to maintain stability for its operations. At this time, an expedited sale of Southern California Hospital at Culver City, Southern California Hospital at Hollywood, Southern California Hospital at Van Nuys, Los Angeles Community Hospital, Los Angeles Community Hospital at Norwalk, and Los Angeles Community Hospital at Bellflower (collectively, the “Subject Hospitals”), along with the related assets and operations, is required to preserve this stability and provide quality health care for the community over the long term.

The proposed transaction (the “Proposed Transaction”) contemplated pursuant to the terms and conditions of the Amended and Restated Asset Purchase Agreement (the “Purchase Agreement”), dated as of September [2], 2025 and effective as of August 3, 2025, by and among (i) NOR Healthcare Systems Corp, a Nevada corporation (“Purchaser”) and (ii)(a) Prospect Medical Holdings, Inc., a Delaware corporation, (b) Alta Hospitals System, LLC, a California limited liability company, (c) Southern California Healthcare System, Inc., a California corporation, d/b/a Southern California Hospital at Hollywood, Southern California Hospital at Van Nuys and Southern California Hospital at Culver City, and (d) Alta Los Angeles Hospitals, Inc., a California corporation, d/b/a Los Angeles Community Hospital, Los Angeles Community Hospital at Norwalk and Los Angeles Community Hospital at Bellflower (collectively, “Seller”) is being undertaken to ensure that the Subject Hospitals are able to maintain operations and continue serving their local communities.

Purchaser is an affiliate of Healthcare Systems of America (“HSA”), a network of healthcare facilities across Florida, Louisiana, and Texas, and American Healthcare Systems (“AHS”), a network of healthcare facilities in North Carolina, Illinois, and Texas, all with an express mission of (i) ensuring that all Americans – whether in rural areas or bustling metropolitan cities – have access to uncompromising, high-quality healthcare, and (ii) breathing new life into struggling hospitals and protecting the future of healthcare in America by investing in technology, operational excellence, and employee engagement. Therefore, the common goal of the Proposed Transaction for both parties is to enable the Subject Hospitals to remain in business, thereby increasing consumer choice and access to critical healthcare services in their respective communities.

(B) A summary of terms of the transaction:

The Proposed Transaction, as summarized herein, is qualified in its entirety by the terms and conditions of the Purchase Agreement and the Sale Order. The Proposed Transaction contemplates the sale by Seller to Purchaser of substantially all of the assets used in connection with the operation of Seller’s business at the facilities identified in the Purchase Agreement (the “Transferred Assets”). Included in the Transferred Assets are inventory and supplies, transferrable permits, assumed contracts (including collective bargaining agreements and certain transition services agreements), patient, medical, personnel, business, and other records (subject to exclusions and retentions pursuant to law), equipment and other tangible property, including furniture and fixtures, computers, networking equipment and supplies, licenses, permits, and intellectual property. Additionally, concurrent with the closing of the Proposed Transaction, Purchaser will enter into a lease with the lessors of the real properties used in connection with the Transferred Assets.

The consideration for the Proposed Transaction is set forth in detail in the Purchase Agreement and will consist of (i) cash proceeds in the amount of Eight Million Five Hundred Thousand Dollars (\$8,500,000), plus (ii) the assumption of certain liabilities, plus (iii) either (x) an amount in cash equal to the borrowing base (the “eCapital Borrowing Base”) under Alta Hospital System, LLC’s line of credit with eCapital Healthcare Corp., a Delaware corporation (the “eCapital Line of Credit”) or (y) if Purchaser enters into a new arrangement with eCapital Healthcare Corp. or otherwise assumes the existing eCapital Line of Credit and provides a payoff letter, release, assignment and assumption, or similar instrument (the “eCapital Payoff or Assumption Instrument”) to Seller at the closing of the Proposed Transaction, then an amount in cash equal to the positive difference between (1) the eCapital Borrowing Base and (2) any remaining liability or amount due under the eCapital Line of Credit after application of the eCapital Payoff or Assumption Instrument.

(C) A statement of why the transaction is desirable:

The Proposed Transaction is desirable because it is the only means of ensuring the uninterrupted provision of critical healthcare services to the communities served by the Subject Hospitals. If the Proposed Transaction is not consummated in an expeditious manner, there is a material risk that the Subject Hospitals will be forced to close (notwithstanding their long-term viability). Consummation of the Proposed Transaction will allow a new operator to stabilize operations without the administrative burden of Prospect’s bankruptcy cases and enable the Subject Hospitals to provide high-quality care to the community for the long term.

(D) General public impact or benefits of the transaction, including quality and equity measures and impacts

See responses above and below. The Subject Hospitals are safety net hospitals providing critical access to members of the community. Ensuring their stability is an urgent public health imperative, and the Proposed Transaction therefore serves an important public benefit.

(E) Narrative description of the expected competitive impacts of the transaction

The Proposed Transaction would serve to promote competition and patient choice in the relevant markets. As explained above, the Proposed Transaction is critical to ensuring that the Subject Hospitals continue to provide uninterrupted healthcare services to the communities they serve. If the Subject Hospitals were to close, each remaining hospital in the Subject Hospitals’ local markets would increase their relative market share, as the closure of the Subject Hospitals would result in fewer facilities for the public to choose from in their respective geographies. Here, Purchaser does not currently have a presence in California, and thus its acquisition of the Subject Hospitals would not result in increased consolidation or market dominance. The net impact of the Proposed Transaction is therefore pro-competitive, as it would prevent hospital closures that would by their very natures reduce competition, and it would not grant broader market power to Purchaser.

(F) Description of any actions or activities to mitigate any potential adverse impacts of the transaction on the public:

The parties do not anticipate any potential adverse impacts of the Proposed Transaction on the public. As noted above, the parties anticipate that the Proposed Transaction will be beneficial to the public by enabling the Subject Hospitals to remain open, thereby preserving patient choice, promoting competition, and providing additional high quality health care resources in communities that need them.

Note to Attachment: The below filings are anticipated in connection with the proposed transaction, and the timeframes are estimates based on current information and the structure of this transaction.

- Notices of the transaction with the Federal Trade Commission and U.S. Department of Justice, Antitrust Division, pursuant to 16 C.F.R. Part 803 (the “HSR Filing”) are anticipated to be filed in September 2025 and will be included as a supplement to this filing when filed.
- Change of Ownership application with respect to General Acute Care Hospital License for Los Angeles Community Hospital, Los Angeles Community Hospital at Bellflower, and Los Angeles Community Hospital at Norwalk with the California Department of Public Health. [To be filed 30 days before the Closing.]
- Applications with respect to Los Angeles Community Hospital, Los Angeles Community Hospital at Bellflower, and Los Angeles Community Hospital at Norwalk’s Hospital Pharmacy Licenses and Sterile Compounding Pharmacy Licenses with the California Board of Pharmacy. [To be filed 30 days before the Closing.]
- Notice of transaction to be submitted to the Drug Enforcement Agency, applications with respect to the Controlled Substance Registrations with the Drug Enforcement Agency Division Office and new registrations to follow after issuance of licenses by the California Board of Pharmacy, and Drug Enforcement Agency Power of Attorney for use of current Drug Enforcement Agency registrations for the Controlled Substance Registrations held by Los Angeles Community Hospital and Los Angeles Community Hospital at Norwalk. [Notice of transaction to be submitted at least 14 days before the Closing, applications to be submitted with filing date to be determined, and power of attorney to be entered into after applications have been submitted.]
- Notice of transaction to The Joint Commission with an update to the electronic application with respect to the Hospital, Laboratory, Nursing Care Center accreditation held by Los Angeles Community Hospital, Los Angeles Community Hospital at Bellflower, and Los Angeles Community Hospital at Norwalk. [Notice of transaction to be submitted before the Closing and application to be updated within 30 days after the Closing.]
