

Fire Resistance Rated Assemblies

Thursday, May 5, 2022
10:00 – 11:30 a.m., Pacific Time

There are several types of fire resistance rated assemblies. The code definitions and sections will be reviewed and examples of the assembly types and where they are used will be discussed. Participants will gain understanding of the different assembly types and the ability to evaluate where a type is needed. A second class, at a later date will include greater information, such as more detailed information on opening protection.

AGENDA

- Fire Resistance Rating
- Building Element
- Fire Protection Rating
