Overview of Onpoint CDM (Claims Data Manager)

Nicole Jakubowski, *Onpoint Operations Analyst*

Using Onpoint CDM – Functionality & Features

- Access provided to registered submitters
- Submit data
- Review quality and completeness
- Request variances
- Keep record of submission schedule
- Update your contacts
- Get 24x7 support / documentation

Gaining Onpoint CDM Access & Submitting Files

- To gain access to Onpoint CDM and submit files, the following items are required
 - Completed and approved submitter registration(s)
 - Submitter code(s) received and incorporated into submissions
 - Successful sign-in to Onpoint CDM
 - Public PGP key sent to Onpoint for data encryption
 - If submitter will be sending data via SFTP:
 - » Public SSH key sent to Onpoint for SFTP connectivity
 - » Confirmation from Onpoint of SFTP account creation

Data Submission Best Practices

Nicole Jakubowski, *Onpoint Operations Analyst*

1. Test PGP Encryption Early

- Reminder: Test files are due September 1, 2025
- Test early to avoid file transfer obstacles later in the implementation

4.2 Testing

After registering under Section 4.1 of this DSG, registered submitters must:

- By September 1, 2025, submit at least one test file through the data portal for each historical NCP Data File type they will submit.
 - For example, if a registered submitter will submit historical Annual Payment Files and historical Capitation Files, it must submit at least one test Annual Payments File and one test Capitation File by September 1, 2025.

2. Submit Production Data for “Test” Submissions

- After submitters confirm successful PGP encryption, Onpoint recommends submitters use real, complete production data to verify submission mappings, which provide the following benefits:
 - Variances can be applied only to real, complete production data (not test environment or dummy data)
 - Submitters will gain full understanding of how their data set performs against Onpoint CDM’s automated data quality validations
 - Once a file with real, complete production data passes Onpoint CDM’s data quality validations, that file can be incorporated into the larger historical data set required by the submitter during implementation

3. Monitor Submission Progress

- Track your submission progress...
 - In Onpoint CDM
 - Through review of automated emails detailing submission status
- Review your data's formatting, completeness, and validation results
- Remediate mapping issues
- Reach out to hpd-support@onpointhealthdata.org for help reviewing your file

4. Consult Additional NCP Resources

- [NCP Data Layout™ Version 1.0](#)
- [HPD Submitter Webpage](#)
 - Submitter Group presentation and training materials
 - HPD Data Submission Guide Version 3.0
 - HPD Reporting Manual Version 3.0 (expected June 2025)
- [HCAI Primary Care definition](#)
- HCAI Behavioral Health definition (expected August 2025)
- NCP Data Layout™ – Submission Scenarios (expected June 2025)

5. Reach Out for Support ... We're Here to Help!

- For questions on validation failures
- For questions on data element specifications
- For questions on Onpoint CDM functionality
