Gender Affirming Care Medication for Children and Youth

PROVIDER ATTESTATION

This Provider Attestation must be included with each prescription completed by a prescribing provider to request the Department of Health Care Access and Information (HCAI) fund gender affirming care medications for eligible youth through a prescription dispensed by Pucci's Pharmacy. The Provider Attestation may only be used to request payment for clinically appropriate gender affirming care medications for youth under age 18 and currently enrolled in Medi-Cal or under age 19 and currently enrolled in Children's Health Insurance Program (CHIP) administered by the California Department of Health Care Services (DHCS) who are no longer eligible for Medicaid and CHIP funding for the medication as of October 13, 2026.

The Provider Attestation may not be used to request hormone therapy medication billable to DHCS during the six-month transition period after October 13, 2026. Providers may submit requests on behalf of eligible youth for hormone therapy medication not covered by another health care payer, including Medi-Cal or CHIP during the six-month transition period after October 13, 2026.

One Provider Attestation must be completed per patient, inclusive of refills. This form cannot be used to request medications for multiple patients.
