

Gender Affirming Care Prescriber Ordering Guide

HCAI has partnered with Pucci's Pharmacy to provide certain gender affirming care medications for minors to your Medi-Cal and CHIP patients through a state-funded program.

Before sending any prescriptions, fax the GAC Provider Attestation to Pucci's. Pucci's cannot fill any orders without it.

Follow these steps to send your eligible prescriptions to Pucci's.

1. Step One: Send the Provider Attestation Form

Complete the GAC Provider Attestation provided to you by HCAI. It certifies that the patient meets the eligibility criteria for the program. Fax the completed form to 916.442.4432. If fax is unavailable, send the form by secure email to clint@puccirx.com.

2. Step Two: Send the prescription to Pucci's Pharmacy

In your eRx pharmacy system, select Pucci's Pharmacy. You can search by name, NPI, or NCPDP. Confirm these details:

- Pharmacy: Pucci's Pharmacy
- Address: 3257 Folsom Blvd, Sacramento, CA 95816
- Phone: 916.442.5891
- Fax: 916.442.4432
- NPI: 1487121422
- NCPDP: 0503258

For any orders which cannot be sent via eRx, or during eRx downtime, orders may be phoned in or faxed to the numbers above. Send the orders to **Pucci's Pharmacy**, not Pucci's LTC Pharmacy. Both may appear in your eRx system.

3. Step Three: Add the program note and patient details

In the "Notes to Pharmacy" field (or a similar field in your eRx system), include this phrase:

HCAI GAC Program

This tells the pharmacy staff to bill the program. If faxing or calling in your prescription, please note verbally or in the fax that this is part of the HCAI GAC Program. Please also note any preferred names and pronouns to assist the pharmacy staff when they talk with the patient and/or their family members. This information may also go into the "Notes to Pharmacy" field.

4. Optional: Order medical supplies

To request medical supplies, use your eRx system or the Gender Affirming Care Supply Order Form located at <https://www.puccirx.com/gac>. Pucci's Pharmacy will fulfill requests for necessary medical supplies, which are also covered by HCAI's program.
