Hospital Supplier Diversity Reporting

Background Information: [Health and Safety Code Section 1339.85-1339.87](#) requires the Department of Health Care Access and Information (HCAI) to develop and administer a Hospital Supplier Diversity Reporting program to collect and post hospital supplier diversity plans explaining the hospital's supplier diversity statement and procurement efforts regarding certified minority, women, lesbian, gay, bisexual, transgender (LGBT), and disabled veteran business enterprises.

Hospitals, with operating expenses over \$50M or \$25M if part of a hospital system, are required to annually submit a plan to HCAI on their minority, women, LGBT, and disabled veteran business enterprise procurement efforts. HCAI is required to maintain a link on the [HCAI website](#) that provides access to the content of hospital supplier diversity plans to the public. The annual submission of supplier diversity plans are due by July 1st of each year.

What are the Reporting Regulations?

The regulations are available to view in full on the [California Code of Regulations website](#).

Supplier Certification

Do you require suppliers to be certified? [Yes/No]

*****Please Note: the next question will only populate if you answer yes to this question*****

Do you accept self-certification? [Yes/No]

Diverse Procurement Spending – Minorities

For the reporting period, enter the whole dollar amounts procured by your hospital from those business enterprises that employ the majority of their workforce in California. If \$0 were spent on procurement for a category enter \$0. If the data is not accessible, please leave the category blank. Tier I procurement means the procurement by direct contract between a hospital and a supplier directly to provide goods and services that support the operations of your hospital. Tier II procurement means procurement by any agreement or arrangement between a contractor and any third party.

*****Please Note: you will be unable to enter anything but rounded whole numbers in the following table.*****

Business Ownership	Tier I Procurement	Tier II Procurement	Total Procurement
African American			Will auto-populate
Hispanic American			Will auto-populate
Native American			Will auto-populate
Asian Pacific American			Will auto-populate
Unknown			Will auto-populate
TOTAL	Total will auto-populate	Total will auto-populate	Total will auto-populate

Diverse Procurement Spending – Other

For the reporting period, enter the whole dollar amounts procured by your hospital from those business enterprises that employ the majority of their workforce in California. If details are not accessible, enter Total Procurement amounts only. If the same amounts are included in multiple categories, enter those dollars in the Duplicate Amount fields.

When a supplier qualifies for more than one diverse category, their procurement total is reported in each category. To prevent the procurement from being counted multiple times in the combined total, the less duplicate amount should be reported in the less duplicate amount row. Please see example below.

Business Ownership	Tier I Procurement	Tier II Procurement	Total Procurement
Minority	(Total from previous table)	(Total from previous table)	(Total from previous table)
Women			Will auto-populate
LGBT			Will auto-populate
Disabled Veteran			Will auto-populate
Less Duplicate Amount (-)			Will auto-populate
Combined Total	Total will auto-populate	Total will auto-populate	Total will auto-populate

Example: For a Disabled Veteran and Women-owned business that your facility procured \$200 worth of supplies from, you would enter the \$200 in each corresponding category (Disabled Veteran and women, respectively) and then enter \$200 in the Less Duplicate Amount category to prevent duplicative dollar amounts being counted towards the combined total.

Total Procurement

What is your hospital's total procurement? Total procurement includes all procurement from diverse and non-diverse suppliers by the hospital. Diverse procurement shall not exceed the hospital's total procurement.

Total Procurement means the purchase or lease of supplies, services, equipment, and capital expenditures related to buildings and fixed equipment during the previous calendar year. Procurement does not include items such as employee salaries and wages, fixed asset depreciation, amortization, or taxes.

*****Please Note: you may use this template to assist you in gathering the information for submission. Please provide the following information to the extent that the data is available. All plans are required to be submitted in the Hospital Disclosures and Compliance System. All information provided on this plan will be available for viewing by the public, including numerical and written responses*****

General Information

Reporting Organization: [If a plan is being completed by someone other than the facility, please enter the name of the reporting organization.]

System/Regional Network Description:

Report Period Start Date: [1/1/XXXX]

Report Period End Date: [12/31/XXXX]

*****Please Note: the reporting period will be for the previous year. For example if you are submitting a plan on July 1, 2022 the reporting period would be for 1/1/2021-12/31/2021.*****

Supplier Certification

Do you require suppliers to be certified? [Yes/No]

*****Please Note: the next question will only populate if you answer yes to this question*****

Do you accept self-certification? [Yes/No]

Diverse Procurement Spending – Minorities

For the reporting period, enter the whole dollar amounts procured by your hospital from those business enterprises that employ the majority of their workforce in California. If \$0 were spent on procurement for a category enter \$0. If the data is not accessible, please leave the category blank.

Tier I procurement means the procurement by direct contract between a hospital and a supplier directly to provide goods and services that support the operations of your hospital. Tier II procurement means procurement by any agreement or arrangement between a contractor and any third party.

*****Please Note: you will be unable to enter anything but rounded whole numbers in the following table.*****

Business Ownership	Tier I Procurement	Tier II Procurement	Total Procurement
African American			Will auto-populate
Hispanic American			Will auto-populate
Native American			Will auto-populate
Asian Pacific American			Will auto-populate
Unknown			Will auto-populate
TOTAL	Total will auto-populate	Total will auto-populate	Total will auto-populate

Diverse Procurement Spending – Other

For the reporting period, enter the whole dollar amounts procured by your hospital from those business enterprises that employ the majority of their workforce in California. If \$0 were spent on procurement for a category enter \$0. If the data is not accessible, please leave the category blank. When a supplier qualifies for more than one diverse category, their procurement total is reported in each category. To prevent the procurement from being counted multiple times in the combined total, the less duplicate amount should be reported in the less duplicate amount row.

Business Ownership	Tier I Procurement	Tier II Procurement	Total Procurement
Minority	(Total from previous table)	(Total from previous table)	(Total from previous table)
Women			Will auto-populate
LGBT			Will auto-populate
Disabled Veteran			Will auto-populate
Less Duplicate Amount (-)			Will auto-populate
Combined Total	Total will auto-populate	Total will auto-populate	Total will auto-populate

Example: For a Disabled Veteran and Women-owned business that your facility procured \$200 worth of supplies from, you would enter the \$200 in each corresponding category (Disabled Veteran and Women, respectively) and then enter \$200 in the Less Duplicate Amount category to prevent duplicative dollar amounts being counted towards the combined total.

Total Procurement

How much your hospital system/regional network has spent on procurement in total during the reporting period (prior calendar year)? Total procurement includes all procurement from diverse and non-diverse suppliers by the hospital system/regional network. Diverse procurement shall not exceed the hospital system/regional network’s total procurement.

Total Procurement means the purchase or lease of supplies, services, equipment, and capital expenditures related to buildings and fixed equipment during the previous calendar year. Procurement does not include items such as employee salaries and wages, fixed asset depreciation, amortization, or taxes.

[Enter a whole dollar amount, no decimal point]
