FOR SUBMISSION OF

HOSPITAL EQUITY MEASURES REPORTS

Version 1.0

April 15, 2024

FORMAT AND FILE SPECIFICATIONS
FOR SUBMISSION OF
HOSPITAL EQUITY MEASURE REPORTS
GENERAL INFORMATION

This document specifies requirements for electronic files submitted to the Department of Health Care Access and Information (HCAI) in accordance with California Code of Regulations, Title 22, Section 95308. If a hospital chooses to submit the reports specified in Section 95308 by uploading comma separated value (.csv) files, the files must meet the following technical format and file specifications.

General Acute Care Hospital section displays all data elements required for general acute care hospitals, including specifications and formatting for data elements for general acute care hospitals.

Children's Hospital section displays all variables required for children's hospitals, including specifications and formatting for data elements for children's hospitals.

Acute Psychiatric Hospital section displays all variables required for acute psychiatric hospitals, including specifications and formatting for data elements for acute psychiatric hospitals.

Dates shall be formatted as: month (2 digits), day (2 digits), year (4 digits) separated by slashes ("/"). For example, 03/12/2009 (also commonly referred to as "mm/dd/yyyy" format).

Percents shall be formatted as 5 digits: 3 digits, 1 decimal point, 1 digit. For example, XXX.X

Rates shall be formatted as 6 digits: 4 digits, 1 decimal point, 1 digit. For example, XXXX.X

Whole numbers shall be formatted as 9 digits with no decimal point. For example, XXXXXXXXX

Yes/ No responses shall be formatted as 1 character value: Y or N

The Department may reject any report that does not comply with these specifications.

FORMAT AND FILE SPECIFICATIONSFOR SUBMISSION OF

HOSPITAL EQUITY MEASURE REPORTS

STANDARD RECORD FORMAT

General Acute Care Hospital

Label	Data Element	Data Description	Required	Format	Size
Hospital_Name	Hospital Name	Name of the hospital	Yes	Character	60
HCAI_ID	Hospital HCAI ID	A unique nine-digit identifier assigned to each facility by HCAI. The first digit indicates the facility's license type. The second and third digits indicate the State of the licensed facility (California). The fourth and fifth digits identify the county in which the facility is located. The last four digits are unique within each county for each type of data (i.e., IP, ED and AS).	Yes	Character	9
Reporting_Organization	Reporting Organization	Name of the organization creating and submitting the Hospital Equity Measures Report	Yes	Character	60
Report_Period_Start_Date	Report Period Start Date	Start date for the reporting period covered in the Hospital Equity Measures Report (MM/DD/YYYY)	Yes	Date	10
Report_Period_End_Date	Report Period End Date	End date for the reporting period covered in the Hospital Equity Measures Report (MM/DD/YYYY)	Yes	Date	10
Clean_Water_Air	Hospital Location with Clean Water and Air	Response to whether the hospitals is located in an area with access to clean water and air (Y/N)	Yes	Character	1
Report_Web_Address	Hospital Web Address for Equity Report	Web address for the location of the Hospital Equity Report on the hospital's website	Yes	Character	60
JCA_1_Leadship	Joint Commission	Designate an individual to lead hospital health equity activities (Y/N)	Yes	Character	1

Label	Data Element	Data Description	Required	Format	Size
	Accreditation question 1				
JCA_2_Docume nt	Joint Commission Accreditation question 2	Provide documentation of policy prohibiting discrimination (Y/N)	Yes	Character	1
JCA_3_Denomi nator	Joint Commission Accreditation Language Denominator	Number of patients that were asked their preferred language	Yes	Numeric	9
JCA_3_ASL_Nu m	Joint Commission Accreditation American Sign Language Numerator	Number of patients that reported their preferred language is American Sign Language	Yes	Numeric	9
JCA_3_ASL_Pe rcent	Joint Commission Accreditation American Sign Language Percent	Percent of patients that reported their perferred language is American Sign Language	Yes	Decimal	3,1
JCA_3_English _Num	Joint Commission Accreditation English Language Numerator	Number of patients that reported their preferred language is English	Yes	Numeric	9
JCA_3_English _Percent	Joint Commission Accreditation	Percent of patients that reported their perferred language is English	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	English Language Percent				
JCA_3_API_Num	Joint Commission Accreditation Asian Pacific Islander Languages Numerator	Number of patients that reported their preferred language is an Asian/Pacific Islander Language	Yes	Numeric	9
JCA_3_API_Percent	Joint Commission Accreditation Asian Pacific Islander Languages Percent	Percent of patients that reported their perferred language is Asian/Pacific Islander Languages	Yes	Decimal	3,1
JCA_3_ME_Num	Joint Commission Accreditation Middle Eastern Languages Numerator	Number of patients that reported their preferred language is an Asian/Pacific Islander Language	Yes	Numeric	9
JCA_3_ME_Percent	Joint Commission Accreditation Middle Eastern Languages	Percent of patients that reported their perferred language is Middle Eastern Languages	Yes	Decimal	3,1
JCA_3_Spanish_Num	Joint Commission Accreditation Spanish	Number of patients that reported their preferred language is Spanish	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	Language Numerator				
JCA_3_Spanish _Percent	Joint Commission Accreditation Spanish Language Percent	Percent of patients that reported their perferred language is Spanish	Yes	Decimal	3,1
JCA_3_other_N um	Joint Commission Accreditation Other Languages Numerator	Number of patients that reported their preferred language is another language not specified	Yes	Numeric	9
JCA_3_other_P ercent	Joint Commission Accreditation Other Languages	Percent of patients that reported their perferred language is another language not specified	Yes	Decimal	3,1
CMS_HCHE_1_ Pop	Centers for Medicare & Medicaid Services (CMS) Hospital Commitment to Health Equity Structural (HCHE) Measure attestation 1	Our hospital strategic plan identifies priority populations who currently experience health disparities (Y/N)	Yes	Character	1
CMS_HCHE_2_ Goal	CMS HCHE Measure attestation 2	Our hospital strategic plan identifies healthcare equity goals and discrete action steps to achieve these goals (Y/N)	Yes	Character	1

Label	Data Element	Data Description	Required	Format	Size
CMS_HCHE_3_ Resource	CMS HCHE Measure attestation 3	Our hospital strategic plan outlines specific resources that have been dedicated to achieving our equity goals (Y/N)	Yes	Character	1
CMS_HCHE_4_ Approach	CMS HCHE Measure attestation 4	Our hospital strategic plan describes our approach for engaging key stakeholders, such as community-based organizations (Y/N)	Yes	Character	1
CMS_HCHE_5_ Demographic	CMS HCHE Measure attestation 5	Our hospital collects demographic information, including self-reported race and ethnicity, and/or social determinant of health information on the majority of our patients (Y/N)	Yes	Character	1
CMS_HCHE_6_ Culture	CMS HCHE Measure attestation 6	Our hospital has training for staff in culturally sensitive collection of demographics and/or social determinant of health information (Y/N)	Yes	Character	1
CMS_HCHE_7_ EHR	CMS HCHE Measure attestation 7	Our hospital inputs demographic and/or social determinant of health information collected from patients into structured, interoperable data elements using a certified EHR technology (Y/N)	Yes	Character	1
CMS_HCHE_8_ KPI	CMS HCHE Measure attestation 8	Our hospital stratifies key performance indicators by demographic and/or social determinants of health variables to identify equity gaps and includes this information in hospital performance dashboards. (Y/N)	Yes	Character	1
CMS_HCHE_9_ QI	CMS HCHE Measure attestation 9	Our hospital participates in local, regional or national quality improvement activities focused on reducing health disparities (Y/N)	Yes	Character	1
CMS_HCHE_10 _Rev_Plan	CMS HCHE Measure attestation 10	Our hospital senior leadership, including chief executives and the entire hospital board of trustees, annually reviews our strategic plan for achieving health equity (Y/N)	Yes	Character	1
CMS_HCHE_11 _Rev_KPI	CMS HCHE Measure attestation 11	Our hospital senior leadership, including chief executives and the entire hospital board of trustees, annually reviews key performance indicators stratified by demographic and/or social factors (Y/N)	Yes	Character	1

Label	Data Element	Data Description	Required	Format	Size
SDoH_screen_num	CMS SDOH Screened numerator	Number of patients admitted to an inpatient hospital stay who are 18 years or older on the date of admission and are screened for all of the five HRSN	Yes	Numeric	9
SDoH_den	CMS SDOH denominator	Number of patients who are admitted to a hospital inpatient stay and who are 18 years or older on the date of admission	Yes	Numeric	9
SDOH_Screen_Rate	CMS SDOH screen rate	The percent of patients admitted for an inpatient hospital stay who are 18 years or older on the date of admission, were screened for an HSRN, and who screen positive for one or more of the following five HRSNs: Food insecurity, housing instability, transportation problems, utility difficulties, or interpersonal safety	Yes	Decimal	3,1
SDOH_Food_Positive	CMS Screening for Social Drivers of Health (SDOH) Food Insecurity numerator	Number of patients screened positive for food insecurity	Yes	Numeric	9
SDOH_Food_Positive_Rate	CMS SDOH Food Positive Rate	SDOH_Food_Positive divided by SDOH_screen_num multiplied by 100	Yes	Decimal	3,1
SDOH_Food_Intervention	CMS SDOH Food Insecurity Intervention	Number of interventions provided for Food Insecurity	Yes	Numeric	9
SDOH_Food_Intervention_Rate	CMS SDOH Food Insecurity Intervention Rate	SDOH_Food_Intervention divided by SDOH_screen_num multiplied by 100	Yes	Decimal	3,1
SDOH_Housing_Positive	CMS SDOH Housing Instability numerator	Number of patients screened positive for housing instability		Numeric	9

Label	Data Element	Data Description	Required	Format	Size
SDOH_Housing _Positive_Rate	CMS SDOH Housing Positive Rate	SDOH_Housing_Positive divided by SDOH_screen_num multiplied by 100	Yes	Decimal	3,1
SDOH_Housing _Intervention	CMS SDOH Housing Intervention	Number of interventions provided for housing instability	Yes	Numeric	9
SDOH_Housing _Intervention_R ate	CMS SDOH Housing Intervention Rate	SDOH_Housing_Intervention divided by SDOH_screen_num multiplied by 100	Yes	Decimal	3,1
SDOH_Trans_P ositive	CMS SDOH Transportation Problems numerator	Number of patients screened positive for transportation problems	Yes	Numeric	9
SDOH_Trans_P ositive_Rate	CMS SDOH Transportation Problems Positive Rate	SDOH_Trans_Positive divided by SDOH_screen_num multiplied by 100	Yes	Decimal	3,1
SDOH_Trans_I ntervention	CMS SDOH Transportation Problems Intervention	Number of interventions provided for transportation problems	Yes	Numeric	9
SDOH_Trans_I ntervention_Rat e	CMS SDOH Transportation Problems Intervention Rate	SDOH_Trans_Intervention divided by SDOH_screen_num multiplied by 100	Yes	Decimal	3,1
SDOH_Utility_P ositive	CMS SDOH Utility Difficulties numerator	Number of patients screened positive for utility difficulties	Yes	Numeric	9
SDOH_Utility_P ositive_Rate	CMS SDOH Utility Difficulties Positive Rate	SDOH_Utility_Positive divided by SDOH_screen_num multiplied by 100	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
SDOH_Utility_Intervention	CMS SDOH Utility Difficulties Intervention	Number of interventions provided for utility difficulties	Yes	Numeric	9
SDOH_Utility_Intervention_Rate	CMS SDOH Utility Difficulties Intervention Rate	SDOH_Utility_Intervention divided by SDOH_screen_num multiplied by 100	Yes	Decimal	3,1
SDOH_Safety_Positive	CMS SDOH Interpersonal Safety numerator	Number of patients screened positive for interpersonal safety	Yes	Numeric	9
SDOH_Safety_Positive_Rate	CMS SDOH Interpersonal Safety Positive Rate	SDOH_Safety_Positive divided by SDOH_screen_num multiplied by 100	Yes	Decimal	3,1
SDOH_Safety_Intervention	CMS SDOH Interpersonal Safety Intervention	Number of interventions provided for interpersonal safety	Yes	Numeric	9
SDOH_Safety_Intervention_Rate	CMS SDOH Interpersonal Safety Intervention Rate	SDOH_Safety_Intervention divided by SDOH_screen_num multiplied by 100	Yes	Decimal	3,1
HCAHPS_Recom_19_Y	HCAHPS question 19 "Yes" responses	Total number of respondents who replied probably yes or definitely yes to HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Numeric	9
HCAHPS_Recom_19_total	HCAHPS question 19 total responses	Total number of respondents to HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Numeric	9
HCAHPS_Recom_19_Percent	HCAHPS question 19 percent of "Yes" responses	The percent of respondents who responded "probably yes" or "definitely yes" to the HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
HCAHPS_Recom_19_totalsurveyed	HCAHPS question 19 total number of people surveyed	The total number of people surveyed on the HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Numeric	9
HCAHPS_Recom_19_response rate	HCAHPS question 19 response rate for people surveyed	The percent of people who responded to the HCAHPS survey, "Would you recommend this hospital to your friends and family? "	Yes	Decimal	3,1
HCAHPS_Recom_19_Y_Race_AIAN	HCAHPS question 19 "Yes" responses where race and/or ethnicity is American Indian or Alaskan Native	Total number of respondents whose race and/or ethnicity is American Indian or Alaskan Native and replied probably yes or definitely yes to HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Numeric	9
HCAHPS_Recom_19_total_Race_AIAN	HCAHPS question 19 total responses where race and/or ethnicity is American Indian or Alaskan Native	Total number of respondents to HCAHPS question, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is American Indian or Alaskan Native	Yes	Numeric	9
HCAHPS_Recom_19_Percent_Race_AIAN	HCAHPS question 19 percent of "Yes" responses where race and/or ethnicity is American Indian	The percent of respondents whose race and/or ethnicity is American Indian or Alaskan Native who responded "probably yes" or "definitely yes" to the HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	or Alaskan Native				
HCAHPS_Recom_19_totalsurveyed_Race_AIAN	HCAHPS question 19 total number of people surveyed where race and/or ethnicity is American Indian or Alaskan Native	The total number of people surveyed on the HCAHPS question, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is American Indian or Alaskan Native	Yes	Numeric	9
HCAHPS_Recom_19_responserate_Race_AIAN	HCAHPS question 19 response rate for people surveyed where race and/or ethnicity is American Indian or Alaskan Native	The percent of people who responded to the HCAHPS survey, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is American Indian or Alaskan Native	Yes	Decimal	3,1
HCAHPS_Recom_19_Y_Race_Asian	HCAHPS question 19 "Yes" responses where race and/or ethnicity is Asian	Total number of respondents whose race and/or ethnicity is Asian and replied probably yes or definitely yes to HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Numeric	9
HCAHPS_Recom_19_total_Race_Asian	HCAHPS question 19 total responses where race and/or ethnicity is Asian	Total number of respondents to HCAHPS question, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Asian	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
HCAHPS_Recom_19_Percent_Race_Asian	HCAHPS question 19 percent of "Yes" responses where race and/or ethnicity is Asian	The percent of respondents whose race and/or ethnicity is Asian who responded "probably yes" or "definitely yes" to the HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Decimal	3,1
HCAHPS_Recom_19_totalsurveyed_Race_Asian	HCAHPS question 19 total number of people surveyed where race and/or ethnicity is Asian	The total number of people surveyed on the HCAHPS question, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Asian	Yes	Numeric	9
HCAHPS_Recom_19_responserate_Race_Asian	HCAHPS question 19 response rate for people surveyed where race and/or ethnicity is Asian	The percent of people who responded to the HCAHPS survey, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Asian	Yes	Decimal	3,1
HCAHPS_Recom_19_Y_Race_Blk	HCAHPS question 19 "Yes" responses where race and/or ethnicity is Black or African American	Total number of respondents whose race and/or ethnicity is Black or African American and replied probably yes or definitely yes to HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Numeric	9
HCAHPS_Recom_19_total_Race_Blk	HCAHPS question 19 total responses where race and/or ethnicity is Black	Total number of respondents to HCAHPS question, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Black or African American	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	or African American				
HCAHPS_Recom_19_Percent_Race_Blk	HCAHPS question 19 percent of "Yes" responses where race and/or ethnicity is Black or African American	The percent of respondents whose race and/or ethnicity is Black or African American who responded "probably yes" or "definitely yes" to the HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Decimal	3,1
HCAHPS_Recom_19_totalsurveyed_Race_Blk	HCAHPS question 19 total number of people surveyed where race and/or ethnicity is Black or African American	The total number of people surveyed on the HCAHPS question, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Black or African American	Yes	Numeric	9
HCAHPS_Recom_19_responserate_Race_Blk	HCAHPS question 19 response rate for people surveyed where race and/or ethnicity is Black or African American	The percent of people who responded to the HCAHPS survey, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Black or African American	Yes	Decimal	3,1
HCAHPS_Recom_19_Y_Race_Hisp	HCAHPS question 19 "Yes" responses where race and/or ethnicity	Total number of respondents whose race and/or ethnicity is Hispanic or Latino and replied probably yes or definitely yes to HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	is Hispanic or Latino				
HCAHPS_Recom_19_total_Race_Hisp	HCAHPS question 19 total responses where race and/or ethnicity is Hispanic or Latino	Total number of respondents to HCAHPS question, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Hispanic or Latino	Yes	Numeric	9
HCAHPS_Recom_19_Percent_Race_Hisp	HCAHPS question 19 percent of "Yes" responses where race and/or ethnicity is Hispanic or Latino	The percent of respondents whose race and/or ethnicity is Hispanic or Latino who responded "probably yes" or "definitely yes" to the HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Decimal	3,1
HCAHPS_Recom_19_totalsurveyed_Race_Hisp	HCAHPS question 19 total number of people surveyed where race and/or ethnicity is Hispanic or Latino	The total number of people surveyed on the HCAHPS question, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Hispanic or Latino	Yes	Numeric	9
HCAHPS_Recom_19_response rate_Race_Hisp	HCAHPS question 19 response rate for people surveyed where race and/or ethnicity	The percent of people who responded to the HCAHPS survey, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Hispanic or Latino	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	is Hispanic or Latino				
HCAHPS_Recom_19_Y_Race_MENA	HCAHPS question 19 "Yes" responses where race and/or ethnicity is Middle Eastern or North African	Total number of respondents whose race and/or ethnicity is Middle Eastern or North African and replied probably yes or definitely yes to HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Numeric	9
HCAHPS_Recom_19_total_Race_MENA	HCAHPS question 19 total responses where race and/or ethnicity is Middle Eastern or North African	Total number of respondents to HCAHPS question, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Middle Eastern or North African	Yes	Numeric	9
HCAHPS_Recom_19_Percent_Race_MENA	HCAHPS question 19 percent of "Yes" responses where race and/or ethnicity is Middle Eastern or North African	The percent of respondents whose race and/or ethnicity is Middle Eastern or North African who responded "probably yes" or "definitely yes" to the HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Decimal	3,1
HCAHPS_Recom_19_totalsurveyed_Race_MENA	HCAHPS question 19 total number of people surveyed where race and/or ethnicity is Middle Eastern or North African	The total number of people surveyed on the HCAHPS question, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Middle Eastern or North African	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
HCAHPS_Recom_19_response rate_Race_MENA	HCAHPS question 19 response rate for people surveyed where race and/or ethnicity is Middle Eastern or North African	The percent of people who responded to the HCAHPS survey, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Middle Eastern or North African	Yes	Decimal	3,1
HCAHPS_Recom_19_Y_Race_NHPI	HCAHPS question 19 "Yes" responses where race and/or ethnicity is Native Hawaiian or Other Pacific Islander	Total number of respondents whose race and/or ethnicity is Native Hawaiian or Other Pacific Islander and replied probably yes or definitely yes to HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Numeric	9
HCAHPS_Recom_19_total_Race_NHPI	HCAHPS question 19 total responses where race and/or ethnicity is Native Hawaiian or Other Pacific Islander	Total number of respondents to HCAHPS question, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Native Hawaiian or Other Pacific Islander	Yes	Numeric	9
HCAHPS_Recom_19_Percent_Race_NHPI	HCAHPS question 19 percent of "Yes" responses where race and/or ethnicity is Native Hawaiian	The percent of respondents whose race and/or ethnicity is Native Hawaiian or Other Pacific Islander who responded "probably yes" or "definitely yes" to the HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	or Other Pacific Islander				
HCAHPS_Recom_19_totalsurveyed_Race_NHPI	HCAHPS question 19 total number of people surveyed where race and/or ethnicity is Native Hawaiian or Other Pacific Islander	The total number of people surveyed on the HCAHPS question, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Native Hawaiian or Other Pacific Islander	Yes	Numeric	9
HCAHPS_Recom_19_responserate_Race_NHPI	HCAHPS question 19 response rate for people surveyed where race and/or ethnicity is Native Hawaiian or Other Pacific Islander	The percent of people who responded to the HCAHPS survey, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Native Hawaiian or Other Pacific Islander	Yes	Decimal	3,1
HCAHPS_Recom_19_Y_Race_Multi	HCAHPS question 19 "Yes" responses where race and/or ethnicity is Multi-racial	Total number of respondents whose race and/or ethnicity is Multi-racial and replied probably yes or definitely yes to HCAHPS question, "Would you recommend this hospital to your friends and family? "	Yes	Numeric	9
HCAHPS_Recom_19_total_Race_Multi	HCAHPS question 19 total responses where race and/or	Total number of respondents to HCAHPS question, "Would you recommend this hospital to your friends and family? " whose race and/or ethnicity is Multi-racial	Yes	Numeric	9

	language is Spanish	pneumonia present on admission where the preferred language is Spanish			
AHRQ_Pneumonia_num_Lang_Oth	AHRQ pneumonia numerator where preferred language is Other/Unknown	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the preferred language is Other/Unknown	Yes	Numeric	9
AHRQ_Pneumonia_denom_Lang_Oth	AHRQ pneumonia denominator where preferred language is Other/Unknown	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the preferred language is Other/Unknown	Yes	Numeric	9
AHRQ_Pneumonia_rate_Lang_Oth	AHRQ pneumonia rate where preferred language is Other/Unknown	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the preferred language is Other/Unknown	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Disability_none	AHRQ pneumonia numerator where disability status is: does not have a disability	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: does not have a disability	Yes	Numeric	9
AHRQ_Pneumonia_denom_Disability_none	AHRQ pneumonia denominator where disability status is: does not have a disability	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: does not have a disability	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_rate_Disability_none	AHRQ pneumonia rate where disability status is: does not have a disability	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: does not have a disability	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Disability_Mobile	AHRQ pneumonia numerator where disability status is: has a mobility disability	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has a mobility disability	Yes	Numeric	9
AHRQ_Pneumonia_denom_Disability_Mobile	AHRQ pneumonia denominator where disability status is: has a mobility disability	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has a mobility disability	Yes	Numeric	9
AHRQ_Pneumonia_rate_Disability_Mobile	AHRQ pneumonia rate where disability status is: has a mobility disability	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has a mobility disability	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Disability_Cog	AHRQ pneumonia numerator where disability status is: has a cognition disability	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has a cognition disability	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_denom_Disability_Cog	AHRQ pneumonia denominator where disability status is: has a cognition disability	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has a cognition disability	Yes	Numeric	9
AHRQ_Pneumonia_rate_Disability_Cog	AHRQ pneumonia rate where disability status is: has a cognition disability	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has a cognition disability	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Disability_Hear	AHRQ pneumonia numerator where disability status is: has a hearing disability	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has a hearing disability	Yes	Numeric	9
AHRQ_Pneumonia_denom_Disability_Hear	AHRQ pneumonia denominator where disability status is: has a hearing disability	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has a hearing disability	Yes	Numeric	9
AHRQ_Pneumonia_rate_Disability_Hear	AHRQ pneumonia rate where disability status is: has a hearing disability	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has a hearing disability	Yes	Decimal	4,1

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_num_Disability_Vis	AHRQ pneumonia numerator where disability status is: has a vision disability	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has a vision disability	Yes	Numeric	9
AHRQ_Pneumonia_denom_Disability_Vis	AHRQ pneumonia denominator where disability status is: has a vision disability	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has a vision disability	Yes	Numeric	9
AHRQ_Pneumonia_rate_Disability_Vis	AHRQ pneumonia rate where disability status is: has a vision disability	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has a vision disability	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Disability_Self	AHRQ pneumonia numerator where disability status is: has a self-care disability	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has a self-care disability	Yes	Numeric	9
AHRQ_Pneumonia_denom_Disability_Self	AHRQ pneumonia denominator where disability status is: has a self-care disability	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has a self-care disability	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_rate_Disability_Self	AHRQ pneumonia rate where disability status is: has a self-care disability	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has a self-care disability	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Disability_Ind	AHRQ pneumonia numerator where disability status is: has an independent living disability	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has an independent living disability	Yes	Numeric	9
AHRQ_Pneumonia_denom_Disability_Ind	AHRQ pneumonia denominator where disability status is: has an independent living disability	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has an independent living disability	Yes	Numeric	9
AHRQ_Pneumonia_rate_Disability_Ind	AHRQ pneumonia rate where disability status is: has an independent living disability	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the disability status is: has an independent living disability	Yes	Decimal	4,1
AHRQ_Pneumonia_num_SO_SameSex	AHRQ pneumonia numerator where sexual orientation is	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is lesbian, gay or homosexual	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	lesbian, gay or homosexual				
AHRQ_Pneumonia_denom_SO_SameSex	AHRQ pneumonia denominator where sexual orientation is lesbian, gay or homosexual	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is lesbian, gay or homosexual	Yes	Numeric	9
AHRQ_Pneumonia_rate_SO_SameSex	AHRQ pneumonia rate where sexual orientation is lesbian, gay or homosexual	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is lesbian, gay or homosexual	Yes	Decimal	4,1
AHRQ_Pneumonia_num_SO_Hetero	AHRQ pneumonia numerator where sexual orientation is straight or heterosexual	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is straight or heterosexual	Yes	Numeric	9
AHRQ_Pneumonia_denom_SO_Hetero	AHRQ pneumonia denominator where sexual orientation is straight or heterosexual	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is straight or heterosexual	Yes	Numeric	9
AHRQ_Pneumonia_rate_SO_Hetero	AHRQ pneumonia rate where sexual	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of	Yes	Decimal	4,1

Label	Data Element	Data Description	Required	Format	Size
	orientation is straight or heterosexual	pneumonia present on admission where the sexual orientation is straight or heterosexual			
AHRQ_Pneumonia_num_SO_Bi	AHRQ pneumonia numerator where sexual orientation is bisexual	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is bisexual	Yes	Numeric	9
AHRQ_Pneumonia_denom_SO_Bi	AHRQ pneumonia denominator where sexual orientation is bisexual	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is bisexual	Yes	Numeric	9
AHRQ_Pneumonia_rate_SO_Bi	AHRQ pneumonia rate where sexual orientation is bisexual	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is bisexual	Yes	Decimal	4,1
AHRQ_Pneumonia_num_SO_Else	AHRQ pneumonia numerator where sexual orientation is something else	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is something else	Yes	Numeric	9
AHRQ_Pneumonia_denom_SO_Else	AHRQ pneumonia denominator where sexual orientation is something else	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is something else	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_rate_SO_Else	AHRQ pneumonia rate where sexual orientation is something else	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is something else	Yes	Decimal	4,1
AHRQ_Pneumonia_num_SO_DK	AHRQ pneumonia numerator where sexual orientation is don't know	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is don't know	Yes	Numeric	9
AHRQ_Pneumonia_denom_SO_DK	AHRQ pneumonia denominator where sexual orientation is don't know	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is don't know	Yes	Numeric	9
AHRQ_Pneumonia_rate_SO_DK	AHRQ pneumonia rate where sexual orientation is don't know	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is don't know	Yes	Decimal	4,1
AHRQ_Pneumonia_num_SO_NotDisc	AHRQ pneumonia numerator where sexual orientation is not disclosed	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is not disclosed	Yes	Numeric	9
AHRQ_Pneumonia_denom_SO_NotDisc	AHRQ pneumonia denominator where sexual	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	orientation is not disclosed	present on admission where the sexual orientation is not disclosed			
AHRQ_Pneumonia_rate_SO_NotDisc	AHRQ pneumonia rate where sexual orientation is not disclosed	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is not disclosed	Yes	Decimal	4,1
AHRQ_Pneumonia_num_GI_F	AHRQ pneumonia numerator where gender identity is female	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is female	Yes	Numeric	9
AHRQ_Pneumonia_denom_GI_F	AHRQ pneumonia denominator where gender identity is female	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is female	Yes	Numeric	9
AHRQ_Pneumonia_rate_GI_F	AHRQ pneumonia rate where gender identity is female	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is female	Yes	Decimal	4,1
AHRQ_Pneumonia_num_GI_F2M	AHRQ pneumonia numerator where gender identity is female-to-male (FTM)/transgender male/trans man	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is female-to-male (FTM)/transgender male/trans man	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_denom_GI_F2M	AHRQ pneumonia denominator where gender identity is female-to-male (FTM)/transgender male/trans man	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is female-to-male (FTM)/transgender male/trans man	Yes	Numeric	9
AHRQ_Pneumonia_rate_GI_F2M	AHRQ pneumonia rate where gender identity is female-to-male (FTM)/transgender male/trans man	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is female-to-male (FTM)/transgender male/trans man	Yes	Decimal	4,1
AHRQ_Pneumonia_num_GI_M	AHRQ pneumonia numerator where gender identity is male	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is male	Yes	Numeric	9
AHRQ_Pneumonia_denom_GI_M	AHRQ pneumonia denominator where gender identity is male	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is male	Yes	Numeric	9
AHRQ_Pneumonia_rate_GI_M	AHRQ pneumonia rate where gender identity is male	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is male	Yes	Decimal	4,1

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_num_GI_M2F	AHRQ pneumonia numerator where gender identity is male-to-female (MTF)/transgender female/trans woman	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is male-to-female (MTF)/transgender female/trans woman	Yes	Numeric	9
AHRQ_Pneumonia_denom_GI_M2F	AHRQ pneumonia denominator where gender identity is male-to-female (MTF)/transgender female/trans woman	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is male-to-female (MTF)/transgender female/trans woman	Yes	Numeric	9
AHRQ_Pneumonia_rate_GI_M2F	AHRQ pneumonia rate where gender identity is male-to-female (MTF)/transgender female/trans woman	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is male-to-female (MTF)/transgender female/trans woman	Yes	Decimal	4,1
AHRQ_Pneumonia_num_GI_Nonconf	AHRQ pneumonia numerator where gender identity is identifies as non-conforming gender	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is identifies as non-conforming gender	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_denom_GI_Nonconf	AHRQ pneumonia denominator where gender identity is identifies as non-conforming gender	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is identifies as non-conforming gender	Yes	Numeric	9
AHRQ_Pneumonia_rate_GI_Nonconf	AHRQ pneumonia rate where gender identity is identifies as non-conforming gender	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is identifies as non-conforming gender	Yes	Decimal	4,1
AHRQ_Pneumonia_num_GI_Oth	AHRQ pneumonia numerator where gender identity is additional gender category or other	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is additional gender category or other	Yes	Numeric	9
AHRQ_Pneumonia_denom_GI_Oth	AHRQ pneumonia denominator where gender identity is additional gender category or other	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is additional gender category or other	Yes	Numeric	9
AHRQ_Pneumonia_rate_GI_Oth	AHRQ pneumonia rate where gender identity is	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of	Yes	Decimal	4,1

Label	Data Element	Data Description	Required	Format	Size
	additional gender category or other	pneumonia present on admission where the gender identity is additional gender category or other			
AHRQ_Pneumonia_num_GI_NotDisc	AHRQ pneumonia numerator where gender identity is not disclosed	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is not disclosed	Yes	Numeric	9
AHRQ_Pneumonia_denom_GI_NotDisc	AHRQ pneumonia denominator where gender identity is not disclosed	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is not disclosed	Yes	Numeric	9
AHRQ_Pneumonia_rate_GI_NotDisc	AHRQ pneumonia rate where gender identity is not disclosed	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is not disclosed	Yes	Decimal	4,1
AHRQ_PSI_Death_num	AHRQ Patient Safety Indicator Death Rate among Surgical Inpatients with Serious Treatable Complications numerator	Number of in-hospital deaths among patients ages 18 through 89 years or obstetric patients, with serious treatable complications	Yes	Numeric	9

	and/or ethnicity is Multi-racial				
Readmission_rate_Race_Multi	Readmission rate where race and/or ethnicity is Multi-racial	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose race and/or ethnicity is Multi-racial	Yes	Decimal	3,1
Readmission_num_Race_Wht	Readmission numerator where race and/or ethnicity is White	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the race and/or ethnicity of the patient is White	Yes	Numeric	9
Readmission_den_Race_Wht	Readmission denominator where race and/or ethnicity is White	The total number of patients whose race and/or ethnicity is White who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Race_Wht	Readmission rate where race and/or ethnicity is White	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose race and/or ethnicity is White	Yes	Decimal	3,1
Readmission_num_Age_18_34	Readmission numerator where age is 18 to 34 years old	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the age of the patient is 18 to 34 years old	Yes	Numeric	9
Readmission_den_Age_18_34	Readmission denominator where age is 18 to 34 years old	The total number of patients whose age is 18 to 34 years old who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Age_18_34	Readmission rate where age is 18 to 34 years old	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose age is 18 to 34 years old	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
Readmission_num_Age_35_49	Readmission numerator where age is 35 to 49 years old	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the age of the patient is 35 to 49 years old	Yes	Numeric	9
Readmission_den_Age_35_49	Readmission denominator where age is 35 to 49 years old	The total number of patients whose age is 35 to 49 years old who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Age_35_49	Readmission rate where age is 35 to 49 years old	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose age is 35 to 49 years old	Yes	Decimal	3,1
Readmission_num_Age_50_64	Readmission numerator where age is 50 to 64 years old	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the age of the patient is 50 to 64 years old	Yes	Numeric	9
Readmission_den_Age_50_64	Readmission denominator where age is 50 to 64 years old	The total number of patients whose age is 50 to 64 years old who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Age_50_64	Readmission rate where age is 50 to 64 years old	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose age is 50 to 64 years old	Yes	Decimal	3,1
Readmission_num_Age_>65	Readmission numerator where age is 65 years or older	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the age of the patient is 65 years or older	Yes	Numeric	9
Readmission_den_Age_>65	Readmission denominator where age is 65 years or older	The total number of patients whose age is 65 years or older who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Readmission_rate_Age_>65	Readmission rate where age is 65 years or older	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose age is 65 years or older	Yes	Decimal	3,1
Readmission_num_Sex_F	Readmission numerator where sex assigned at birth is Female	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the sex assigned at birth of the patient is Female	Yes	Numeric	9
Readmission_den_Sex_F	Readmission denominator where sex assigned at birth is Female	The total number of patients whose sex assigned at birth is Female who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Sex_F	Readmission rate where sex assigned at birth is Female	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose sex assigned at birth is Female	Yes	Decimal	3,1
Readmission_num_Sex_M	Readmission numerator where sex assigned at birth is Male	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the sex assigned at birth of the patient is Male	Yes	Numeric	9
Readmission_den_Sex_M	Readmission denominator where sex assigned at birth is Male	The total number of patients whose sex assigned at birth is Male who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Sex_M	Readmission rate where sex assigned at birth is Male	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose sex assigned at birth is Male	Yes	Decimal	3,1
Readmission_num_Sex_Unk	Readmission numerator where	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	sex assigned at birth is Unknown	of an eligible index admission where the sex assigned at birth of the patient is Unknown			
Readmission_den_Sex_Unk	Readmission denominator where sex assigned at birth is Unknown	The total number of patients whose sex assigned at birth is Unknown who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Sex_Unk	Readmission rate where sex assigned at birth is Unknown	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose sex assigned at birth is Unknown	Yes	Decimal	3,1
Readmission_num_Payer_Medicare	Readmission numerator where payer type is Medicare	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the payer type for the patient is Medicare	Yes	Numeric	9
Readmission_den_Payer_Medicare	Readmission denominator where payer type is Medicare	The total number of patients whose payer type is Medicare who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Payer_Medicare	Readmission rate where payer type is Medicare	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose payer type is Medicare	Yes	Decimal	3,1
Readmission_num_Payer_Medicaid	Readmission numerator where payer type is Medicaid	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the payer type for the patient is Medicaid	Yes	Numeric	9
Readmission_den_Payer_Medicaid	Readmission denominator where payer type is Medicaid	The total number of patients whose payer type is Medicaid who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Readmission_rate_Payer_Medicaid	Readmission rate where payer type is Medicaid	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose payer type is Medicaid	Yes	Decimal	3,1
Readmission_num_Payer_Private	Readmission numerator where payer type is Private	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the payer type for the patient is Private	Yes	Numeric	9
Readmission_den_Payer_Private	Readmission denominator where payer type is Private	The total number of patients whose payer type is Private who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Payer_Private	Readmission rate where payer type is Private	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose payer type is Private	Yes	Decimal	3,1
Readmission_num_Payer_Self	Readmission numerator where payer type is Self Pay/Uninsured	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the payer type for the patient is Self Pay/Uninsured	Yes	Numeric	9
Readmission_den_Payer_Self	Readmission denominator where payer type is Self Pay/Uninsured	The total number of patients whose payer type is Self Pay/Uninsured who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Payer_Self	Readmission rate where payer type is Self Pay/Uninsured	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose payer type is Self Pay/Uninsured	Yes	Decimal	3,1
Readmission_num_Payer_Oth	Readmission numerator where	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the payer type for the patient is Other/Unknown	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	payer type is Other/Unknown				
Readmission_den_Payer_Oth	Readmission denominator where payer type is Other/Unknown	The total number of patients whose payer type is Other/Unknown who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Payer_Oth	Readmission rate where payer type is Other/Unknown	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose payer type is Other/Unknown	Yes	Decimal	3,1
Readmission_num_Lang_ASL	Readmission numerator where preferred language is American Sign Language	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the preferred language of the patient is American Sign Language	Yes	Numeric	9
Readmission_den_Lang_ASL	Readmission denominator where preferred language is American Sign Language	The total number of patients whose preferred language is American Sign Language who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Lang_ASL	Readmission rate where preferred language is American Sign Language	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose preferred language is American Sign Language	Yes	Decimal	3,1
Readmission_num_Lang_Eng	Readmission numerator where preferred	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the preferred language of the patient is English	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	language is English				
Readmission_den_Lang_Eng	Readmission denominator where preferred language is English	The total number of patients whose preferred language is English who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Lang_Eng	Readmission rate where preferred language is English	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose preferred language is English	Yes	Decimal	3,1
Readmission_num_Lang_API	Readmission numerator where preferred language is Asian/Pacific Islander languages	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the preferred language of the patient is an Asian/Pacific Islander language	Yes	Numeric	9
Readmission_den_Lang_API	Readmission denominator where preferred language is Asian/Pacific Islander languages	The total number of patients whose preferred language is an Asian/Pacific Islander language who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Lang_API	Readmission rate where preferred language is Asian/Pacific	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose preferred language is an Asian/Pacific Islander language	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	Islander languages				
Readmission_num_Lang_ME	Readmission numerator where preferred language is Middle Eastern languages	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the preferred language of the patient is Middle Eastern languages	Yes	Numeric	9
Readmission_den_Lang_ME	Readmission denominator where preferred language is Middle Eastern languages	The total number of patients whose preferred language is Middle Eastern languages who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Lang_ME	Readmission rate where preferred language is Middle Eastern languages	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older and whose preferred language is Middle Eastern languages	Yes	Decimal	3,1
Readmission_num_Lang_Span	Readmission numerator where preferred language is Spanish	The number of inpatient admissions to any acute care hospitals which occurs within 30 days of the discharge date of an eligible index admission where the preferred language of the patient is Spanish	Yes	Numeric	9
Readmission_den_Lang_Span	Readmission denominator where preferred language is Spanish	The total number of patients whose preferred language is Spanish who were admitted to an acute care hospital and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_rate_Lang_Span	Readmission rate where	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size

Readmin_den_ Payer_Private	Readmission denominator where payer type is Private	The total number of patients where the payer type for the patient is Private who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ Payer_Private	Readmission rate where payer type is Private	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals where the payer type for the patient is Private	Yes	Decimal	3,1
Readmin_num_ Payer_Self	Readmission numerator where payer type is Self Pay/Uninsured	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the payer type for the patient is Self Pay/Uninsured	Yes	Numeric	9
Readmin_den_ Payer_Self	Readmission denominator where payer type is Self Pay/Uninsured	The total number of patients where the payer type for the patient is Self Pay/Uninsured who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ Payer_Self	Readmission rate where payer type is Self Pay/Uninsured	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals where the payer type for the patient is Self Pay/Uninsured	Yes	Decimal	3,1
Readmin_num_ Payer_Oth	Readmission numerator where	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	payer type is Other/Unknown	date of an eligible index admission where the payer type for the patient is Other/Unknown			
Readmin_den_Payer_Oth	Readmission denominator where payer type is Other/Unknown	The total number of patients where the payer type for the patient is Other/Unknown who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_Payer_Oth	Readmission rate where payer type is Other/Unknown	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals where the payer type for the patient is Other/Unknown	Yes	Decimal	3,1
Readmin_num_Lang_ASL	Readmission numerator where preferred language is American Sign Language	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the preferred language of the patient is American Sign Language	Yes	Numeric	9
Readmin_den_Lang_ASL	Readmission denominator where preferred language is American Sign Language	The total number of patients whose preferred language is American Sign Language who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_Lang_ASL	Readmission rate where preferred language is American Sign Language	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose preferred language is American Sign Language	Yes	Decimal	3,1
Readmin_num_Lang_Eng	Readmission numerator where	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	preferred language is English	date of an eligible index admission where the preferred language of the patient is English			
Readmin_den_Lang_Eng	Readmission denominator where preferred language is English	The total number of patients whose preferred language is English who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_Lang_Eng	Readmission rate where preferred language is English	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose preferred language is English	Yes	Decimal	3,1
Readmin_num_Lang_API	Readmission numerator where preferred language is Asian/Pacific Islander languages	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the preferred language of the patient is an Asian/Pacific Islander language	Yes	Numeric	9
Readmin_den_Lang_API	Readmission denominator where preferred language is Asian/Pacific Islander languages	The total number of patients whose preferred language is an Asian/Pacific Islander language who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_Lang_API	Readmission rate where preferred language is an Asian/Pacific	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	Islander language	whose preferred language is an Asian/Pacific Islander language			
Readmin_num_Lang_ME	Readmission numerator where preferred language is Middle Eastern languages	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the preferred language of the patient is Middle Eastern languages	Yes	Numeric	9
Readmin_den_Lang_ME	Readmission denominator where preferred language is Middle Eastern languages	The total number of patients whose preferred language is Middle Eastern languages who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_Lang_ME	Readmission rate where preferred language is Middle Eastern languages	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose preferred language is Middle Eastern languages	Yes	Decimal	3,1
Readmin_num_Lang_Span	Readmission numerator where preferred language is Spanish	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the preferred language of the patient is Spanish	Yes	Numeric	9
Readmin_den_Lang_Span	Readmission denominator where preferred language is Spanish	The total number of patients whose preferred language is Spanish who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_Lang_Span	Readmission rate where	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	preferred language is Spanish	any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose preferred language is Spanish			
Readmin_num_Lang_Oth	Readmission numerator where preferred language is Other/Unknown	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the preferred language of the patient is Other/Unknown	Yes	Numeric	9
Readmin_den_Lang_Oth	Readmission denominator where preferred language is Other/Unknown	The total number of patients whose preferred language is Other/Unknown who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_Lang_Oth	Readmission rate where preferred language is Other/Unknown	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose preferred language is Other/Unknown	Yes	Decimal	3,1
Readmin_num_Disability_none	Readmission numerator where disability status is: does not have a disability	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the disability status of the patient is: does not have a disability	Yes	Numeric	9
Readmin_den_Disability_none	Readmission denominator where disability status is: does not have a disability	The total number of patients whose disability status is: does not have a disability who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_Disability_none	Readmission rate where disability status	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	is: does not have a disability	discharge for patients of all ages at children's hospitals whose disability status is: does not have a disability			
Readmin_num_ Disability_Mobil e	Readmission numerator where disability status is: has a mobility disability	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the disability status of the patient is: has a mobility disability	Yes	Numeric	9
Readmin_den_ Disability_Mobil e	Readmission denominator where disability status is: has a mobility disability	The total number of patients whose disability status is: has a mobility disability who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ Disability_Mobil e	Readmission rate where disability status is: has a mobility disability	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose disability status is: has a mobility disability	Yes	Decimal	3,1
Readmin_num_ Disability_Cog	Readmission numerator where disability status is: has a cognition disability	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the disability status of the patient is: has a cognition disability	Yes	Numeric	9
Readmin_den_ Disability_Cog	Readmission denominator where disability status is: has a cognition disability	The total number of patients whose disability status is: has a cognition disability who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ Disability_Cog	Readmission rate where	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	disability status is: has a cognition disability	any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose disability status is: has a cognition disability			
Readmin_num_ Disability_Hear	Readmission numerator where disability status is: has a hearing disability	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the disability status of the patient is: has a hearing disability	Yes	Numeric	9
Readmin_den_ Disability_Hear	Readmission denominator where disability status is: has a hearing disability	The total number of patients whose disability status is: has a hearing disability who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ Disability_Hear	Readmission rate where disability status is: has a hearing disability	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose disability status is: has a hearing disability	Yes	Decimal	3,1
Readmin_num_ Disability_Vis	Readmission numerator where disability status is: has a vision disability	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the disability status of the patient is: has a vision disability	Yes	Numeric	9
Readmin_den_ Disability_Vis	Readmission denominator where disability status is: has a vision disability	The total number of patients whose disability status is: has a vision disability who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ Disability_Vis	Readmission rate where	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	disability status is: has a vision disability	any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose disability status is: has a vision disability			
Readmin_num_ Disability_Self	Readmission numerator where disability status is: has a self-care disability	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the disability status of the patient is: has a self-care disability	Yes	Numeric	9
Readmin_den_ Disability_Self	Readmission denominator where disability status is: has a self-care disability	The total number of patients whose disability status is: has a self-care disability who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ Disability_Self	Readmission rate where disability status is: has a self-care disability	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose disability status is: has a self-care disability	Yes	Decimal	3,1
Readmin_num_ Disability_Ind	Readmission numerator where disability status is: has an independent living disability	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the disability status of the patient is: has an independent living disability	Yes	Numeric	9
Readmin_den_ Disability_Ind	Readmission denominator where disability status is: has an independent living disability	The total number of patients whose disability status is: has an independent living disability who were admitted to a children's hospital	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Readmin_rate_ Disability_Ind	Readmission rate where disability status is: has an independent living disability	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose disability status is: has an independent living disability	Yes	Decimal	3,1
Readmin_num_ SO_SameSex	Readmission numerator where sexual orientation is lesbian, gay or homosexual	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the sexual orientation of the patient is lesbian, gay or homosexual	Yes	Numeric	9
Readmin_den_ SO_SameSex	Readmission denominator where sexual orientation is lesbian, gay or homosexual	The total number of patients whose sexual orientation is lesbian, gay or homosexual who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ SO_SameSex	Readmission rate where sexual orientation is lesbian, gay or homosexual	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose sexual orientation is lesbian, gay or homosexual	Yes	Decimal	3,1
Readmin_num_ SO_Hetero	Readmission numerator where sexual orientation is straight or heterosexual	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the sexual orientation of the patient is straight or heterosexual	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Readmin_den_ SO_Hetero	Readmission denominator where sexual orientation is straight or heterosexual	The total number of patients whose sexual orientation is straight or heterosexual who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ SO_Hetero	Readmission rate where sexual orientation is straight or heterosexual	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose sexual orientation is straight or heterosexual	Yes	Decimal	3,1
Readmin_num_ SO_Bi	Readmission numerator where sexual orientation is bisexual	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the sexual orientation of the patient is bisexual	Yes	Numeric	9
Readmin_den_ SO_Bi	Readmission denominator where sexual orientation is bisexual	The total number of patients whose sexual orientation is bisexual who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ SO_Bi	Readmission rate where sexual orientation is bisexual	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose sexual orientation is bisexual	Yes	Decimal	3,1
Readmin_num_ SO_Else	Readmission numerator where sexual orientation is something else	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the sexual orientation of the patient is something else	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Readmin_den_ SO_Else	Readmission denominator where sexual orientation is something else	The total number of patients whose sexual orientation is something else who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ SO_Else	Readmission rate where sexual orientation is something else	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose sexual orientation is something else	Yes	Decimal	3,1
Readmin_num_ SO_DK	Readmission numerator where sexual orientation is don't know	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the sexual orientation of the patient is don't know	Yes	Numeric	9
Readmin_den_ SO_DK	Readmission denominator where sexual orientation is don't know	The total number of patients whose sexual orientation is don't know who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ SO_DK	Readmission rate where sexual orientation is don't know	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose sexual orientation is don't know	Yes	Decimal	3,1
Readmin_num_ SO_NotDisc	Readmission numerator where sexual orientation is not disclosed	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the sexual orientation of the patient is not disclosed	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Readmin_den_SO_NotDisc	Readmission denominator where sexual orientation is not disclosed	The total number of patients whose sexual orientation is not disclosed who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_SO_NotDisc	Readmission rate where sexual orientation is not disclosed	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose sexual orientation is not disclosed	Yes	Decimal	3,1
Readmin_num_GI_F	Readmission numerator where gender identity is female	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the gender identity of the patient is female	Yes	Numeric	9
Readmin_den_GI_F	Readmission denominator where gender identity is female	The total number of patients whose gender identity is female who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_GI_F	Readmission rate where gender identity is female	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose gender identity is female	Yes	Decimal	3,1
Readmin_num_GI_F2M	Readmission numerator where gender identity is female-to-male (FTM)/transgender male/trans man	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the gender identity of the patient is female-to-male (FTM)/transgender male/trans man	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Readmin_den_ GI_F2M	Readmission denominator where gender identity is female-to-male (FTM)/transgend er male/trans man	The total number of patients whose gender identity is female-to-male (FTM)/transgender male/trans man who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ GI_F2M	Readmission rate where gender identity is female-to-male (FTM)/transgend er male/trans man	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose gender identity is female-to-male (FTM)/transgender male/trans man	Yes	Decimal	3,1
Readmin_num_ GI_M	Readmission numerator where gender identity is male	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the gender identity of the patient is male	Yes	Numeric	9
Readmin_den_ GI_M	Readmission denominator where gender identity is male	The total number of patients whose gender identity is male who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ GI_M	Readmission rate where gender identity is male	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose gender identity is male	Yes	Decimal	3,1
Readmin_num_ GI_M2F	Readmission numerator where gender identity is male-to-female	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the gender	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	(MTF)/transgender female/trans woman	identity of the patient is male-to-female (MTF)/transgender female/trans woman			
Readmin_den_ GI_M2F	Readmission denominator where gender identity is male-to-female (MTF)/transgender female/trans woman	The total number of patients whose gender identity is male-to-female (MTF)/transgender female/trans woman who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ GI_M2F	Readmission rate where gender identity is male-to-female (MTF)/transgender female/trans woman	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose gender identity is male-to-female (MTF)/transgender female/trans woman	Yes	Decimal	3,1
Readmin_num_ GI_Nonconf	Readmission numerator where gender identity is identifies as non-conforming gender	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the gender identity of the patient is identifies as non-conforming gender	Yes	Numeric	9
Readmin_den_ GI_Nonconf	Readmission denominator where gender identity is identifies as non-conforming gender	The total number of patients whose gender identity is identifies as non-conforming gender who were admitted to a children's hospital	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Readmin_rate_ GI_Nonconf	Readmission rate where gender identity is identifies as non-conforming gender	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose gender identity is identifies as non-conforming gender	Yes	Decimal	3,1
Readmin_num_ GI_Oth	Readmission numerator where gender identity is additional gender category or other	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the gender identity of the patient is additional gender category or other	Yes	Numeric	9
Readmin_den_ GI_Oth	Readmission denominator where gender identity is additional gender category or other	The total number of patients whose gender identity is additional gender category or other who were admitted to a children's hospital	Yes	Numeric	9
Readmin_rate_ GI_Oth	Readmission rate where gender identity is additional gender category or other	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose gender identity is additional gender category or other	Yes	Decimal	3,1
Readmin_num_ GI_NotDisc	Readmission numerator where gender identity is not disclosed	The number of inpatient admissions to any children's hospitals which occurs within 30 days of the discharge date of an eligible index admission where the gender identity of the patient is not disclosed	Yes	Numeric	9
Readmin_den_ GI_NotDisc	Readmission denominator where gender identity is not disclosed	The total number of patients whose gender identity is not disclosed who were admitted to a children's hospital	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Readmin_rate_ GI_NotDisc	Readmission rate where gender identity is not disclosed	The percent (rate per 100) of the hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients of all ages at children's hospitals whose gender identity is not disclosed	Yes	Decimal	3,1
Top_10_Disparit ies	The top ten disparities identified in the data	The top ten disparities identified in the data by the relative difference between a stratification group and the reference group for each measure, consistent with the requirements included in the Measures Submission Guide	Yes	Character	5000
Equity_Plan	Plan to address disparities identified in the data	A plan to address the disparities identified in the data including population impact, measurable objectives, and specific timeframe	Yes	Character	5000
Performance_Pr iority_Person_C enter	Performance in the priority area of person-centered care	Description of performance in the priority area of person-centered care	Yes	Character	5000
Performance_Pr iority_Patient_S afety	Performance in the priority area of patient safety	Description of performance in the priority area of patient safety	Yes	Character	5000
Performance_Pr iority_SDOH	Performance in the priority area of addressing patient social determinants of health	Description of performance in the priority area of addressing patient social determinants of health	Yes	Character	5000
Performance_Pr iority_Treatment	Performance in the priority area of effective treatment	Description of performance in the priority area of effective treatment	Yes	Character	5000

Label	Data Element	Data Description	Required	Format	Size
Performance_Priority_Care_Coordinate	Performance in the priority area of care coordination	Description of performance in the priority area of care coordination	Yes	Character	5000
Performance_Priority_Care_Access	Performance in the priority area of access to care	Description of performance in the priority area of access to care	Yes	Character	5000
Methodology_Guidelines	Did the hospital follow the methodology in the Measures Submission guide? (Y/N)	Whether hospital used the methodology as outlined in the Measures Submission Guide	Yes	Character	1
Methodology_Explanation	Explanation of the methodology used	Explanation of the methodology used if the hospital did not follow the methodology in the Measures Submission guide	Yes	Character	5000

Acute Psychiatric Hospitals

Label	Data Element	Data Description	Required	Format	Size
Hospital_Name	Hospital Name	Name of the hospital	Yes	Character	60
HCAI_ID	Hospital HCAI ID	A unique nine-digit identifier assigned to each facility by HCAI. The first digit indicates the facility's license type. The second and third digits indicate the State of the licensed facility (California). The fourth and fifth digits identify the county in which the facility is located. The last four digits are unique within each county for each type of data	Yes	Numeric	9
Reporting_Organization	Reporting Organization	Name of the organization creating and submitting the Hospital Equity Measures Report	Yes	Character	60
Report_Period_Start_Date	Report Period Start Date	Start date for the reporting period covered in the Hospital Equity Measures Report (MM/DD/YYYY)	Yes	Date	10
Report_Period_End_Date	Report Period End Date	End date for the reporting period covered in the Hospital Equity Measures Report (MM/DD/YYYY)	Yes	Date	10
Clean_Water_Air	Hospital Location with Clean Water and Air	Response to whether the hospitals is located in an area with access to clean water and air (Y/N)	Yes	Character	1
Report_Web_Address	Hospital Web Address for Equity Report	Web address for the location of the Hospital Equity Report on the hospital's website	Yes	Character	60
JCA_1_Leadship	Joint Commission Accreditation question 1	Designate an individual to lead hospital health equity activities (Y/N)	Yes	Character	1
JCA_2_Document	Joint Commission Accreditation question 2	Provide documentation of policy prohibiting discrimination (Y/N)	Yes	Character	1

Label	Data Element	Data Description	Required	Format	Size
JCA_3_Denominator	Joint Commission Accreditation Language Denominator	Number of patients that were asked their preferred language	Yes	Numeric	9
JCA_3_ASL_Num	Joint Commission Accreditation American Sign Language Language Numerator	Number of patients that reported their preferred language is American Sign Language	Yes	Numeric	9
JCA_3_ASL_Percent	Joint Commission Accreditation American Sign Language Language Percent	Percent of patients that reported their perferred language is American Sign Language	Yes	Decimal	3,1
JCA_3_English_Num	Joint Commission Accreditation English Language Numerator	Number of patients that reported their preferred language is English	Yes	Numeric	9
JCA_3_English_Percent	Joint Commission Accreditation English Language Percent	Percent of patients that reported their perferred language is English	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
JCA_3_API_Num	Joint Commission Accreditation Asian Pacific Islander Languages Numerator	Number of patients that reported their preferred language is an Asian/Pacific Islander Language	Yes	Numeric	9
JCA_3_API_Percent	Joint Commission Accreditation Asian Pacific Islander Languages Percent	Percent of patients that reported their perferred language is Asian/Pacific Islander Languages	Yes	Decimal	3,1
JCA_3_ME_Num	Joint Commission Accreditation Middle Eastern Languages Numerator	Number of patients that reported their preferred language is an Asian/Pacific Islander Language	Yes	Numeric	9
JCA_3_ME_Percent	Joint Commission Accreditation Middle Eastern Languages	Percent of patients that reported their perferred language is Middle Eastern Languages	Yes	Decimal	3,1
JCA_3_Spanish_Num	Joint Commission Accreditation Spanish Language Numerator	Number of patients that reported their preferred language is Spanish	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
JCA_3_Spanish _Percent	Joint Commission Accreditation Spanish Language Percent	Percent of patients that reported their perferred language is Spanish	Yes	Decimal	3,1
JCA_3_other_Num	Joint Commission Accreditation Other Languages Numerator	Number of patients that reported their preferred language is another language not specified	Yes	Numeric	9
JCA_3_other_Percent	Joint Commission Accreditation Other Languages	Percent of patients that reported their perferred language is another language not specified	Yes	Decimal	3,1
CMS_HCHE_1_ Pop	Centers for Medicare & Medicaid Services (CMS) Hospital Commitment to Health Equity Structural (HCHE) Measure attestation 1	Our hospital strategic plan identifies priority populations who currently experience health disparities (Y/N)	Yes	Character	1
CMS_HCHE_2_ Goal	CMS HCHE Measure attestation 2	Our hospital strategic plan identifies healthcare equity goals and discrete action steps to achieve these goals (Y/N)	Yes	Character	1

Label	Data Element	Data Description	Required	Format	Size
CMS_HCHE_3_ Resource	CMS HCHE Measure attestation 3	Our hospital strategic plan outlines specific resources that have been dedicated to achieving our equity goals (Y/N)	Yes	Character	1
CMS_HCHE_4_ Approach	CMS HCHE Measure attestation 4	Our hospital strategic plan describes our approach for engaging key stakeholders, such as community-based organizations (Y/N)	Yes	Character	1
CMS_HCHE_5_ Demographic	CMS HCHE Measure attestation 5	Our hospital collects demographic information, including self-reported race and ethnicity, and/or social determinant of health information on the majority of our patients (Y/N)	Yes	Character	1
CMS_HCHE_6_ Culture	CMS HCHE Measure attestation 6	Our hospital has training for staff in culturally sensitive collection of demographics and/or social determinant of health information (Y/N)	Yes	Character	1
CMS_HCHE_7_ EHR	CMS HCHE Measure attestation 7	Our hospital inputs demographic and/or social determinant of health information collected from patients into structured, interoperable data elements using a certified EHR technology (Y/N)	Yes	Character	1
CMS_HCHE_8_ KPI	CMS HCHE Measure attestation 8	Our hospital stratifies key performance indicators by demographic and/or social determinants of health variables to identify equity gaps and includes this information in hospital performance dashboards. (Y/N)	Yes	Character	1
CMS_HCHE_9_ QI	CMS HCHE Measure attestation 9	Our hospital participates in local, regional or national quality improvement activities focused on reducing health disparities (Y/N)	Yes	Character	1
CMS_HCHE_10 _Rev_Plan	CMS HCHE Measure attestation 10	Our hospital senior leadership, including chief executives and the entire hospital board of trustees, annually reviews our strategic plan for achieving health equity (Y/N)	Yes	Character	1
CMS_HCHE_11 _Rev_KPI	CMS HCHE Measure attestation 11	Our hospital senior leadership, including chief executives and the entire hospital board of trustees, annually reviews key performance indicators stratified by demographic and/or social factors (Y/N)	Yes	Character	1

Label	Data Element	Data Description	Required	Format	Size
SDoH_screen_num	CMS SDOH Screened numerator	Number of patients admitted to an inpatient hospital stay who are 18 years or older on the date of admission and are screened for all of the five HRSN	Yes	Numeric	9
SDoH_den	CMS SDOH denominator	Number of patients who are admitted to a hospital inpatient stay and who are 18 years or older on the date of admission	Yes	Numeric	9
SDOH_Screen_Rate	CMS SDOH screen rate	The percent of patients admitted for an inpatient hospital stay who are 18 years or older on the date of admission, were screened for an HSRN, and who screen positive for one or more of the following five HRSNs: Food insecurity, housing instability, transportation problems, utility difficulties, or interpersonal safety	Yes	Decimal	3,1
SDOH_Food_Positive	CMS Screening for Social Drivers of Health (SDOH) Food Insecurity numerator	Number of patients screened positive for food insecurity	Yes	Numeric	9
SDOH_Food_Positive_Rate	CMS SDOH Food Positive Rate	SDOH_Food_Positive divided by SDOH_screen_num multiplied by 100	Yes	Decimal	3,1
SDOH_Food_Intervention	CMS SDOH Food Insecurity Intervention	Number of interventions provided for Food Insecurity	Yes	Numeric	9
SDOH_Food_Intervention_Rate	CMS SDOH Food Insecurity Intervention Rate	SDOH_Food_Intervention divided by SDOH_screen_num multiplied by 100	Yes	Decimal	3,1
SDOH_Housing_Positive	CMS SDOH Housing Instability numerator	Number of patients screened positive for housing instability		Numeric	9

AHRQ_Pneumonia_denom	AHRQ pneumonia denominator	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission	Yes	Numeric	9
AHRQ_Pneumonia_rate	AHRQ pneumonia rate	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Race_AIAN	AHRQ pneumonia numerator where race and/or ethnicity is American Indian or Alaskan Native	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is American Indian or Alaskan Native	Yes	Numeric	9
AHRQ_Pneumonia_denom_Race_AIAN	AHRQ pneumonia denominator where race and/or ethnicity is American Indian or Alaskan Native	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is American Indian or Alaskan Native	Yes	Numeric	9
AHRQ_Pneumonia_rate_Race_AIAN	AHRQ pneumonia rate where race and/or ethnicity is American Indian or Alaskan Native	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is American Indian or Alaskan Native	Yes	Decimal	4,1

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_num_Race_Asian	AHRQ pneumonia numerator where race and/or ethnicity is Asian	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Asian	Yes	Numeric	9
AHRQ_Pneumonia_denom_Race_Asian	AHRQ pneumonia denominator where race and/or ethnicity is Asian	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Asian	Yes	Numeric	9
AHRQ_Pneumonia_rate_Race_Asian	AHRQ pneumonia rate where race and/or ethnicity is Asian	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Asian	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Race_Blk	AHRQ pneumonia numerator where race and/or ethnicity is Black or African American	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Black or African American	Yes	Numeric	9
AHRQ_Pneumonia_denom_Race_Blk	AHRQ pneumonia denominator where race and/or ethnicity is Black or African American	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Black or African American	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_rate_Race_Blk	AHRQ pneumonia rate where race and/or ethnicity is Black or African American	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Black or African American	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Race_Hisp	AHRQ pneumonia numerator where race and/or ethnicity is Hispanic or Latino	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Hispanic or Latino	Yes	Numeric	9
AHRQ_Pneumonia_denom_Race_Hisp	AHRQ pneumonia denominator where race and/or ethnicity is Hispanic or Latino	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Hispanic or Latino	Yes	Numeric	9
AHRQ_Pneumonia_rate_Race_Hisp	AHRQ pneumonia rate where race and/or ethnicity is Hispanic or Latino	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Hispanic or Latino	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Race_MENA	AHRQ pneumonia numerator where race and/or ethnicity is	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Middle Eastern or North African	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	Middle Eastern or North African				
AHRQ_Pneumonia_denom_Race_MENA	AHRQ pneumonia denominator where race and/or ethnicity is Middle Eastern or North African	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Middle Eastern or North African	Yes	Numeric	9
AHRQ_Pneumonia_rate_Race_MENA	AHRQ pneumonia rate where race and/or ethnicity is Middle Eastern or North African	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Middle Eastern or North African	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Race_NHPI	AHRQ pneumonia numerator where race and/or ethnicity is Native Hawaiian or Other Pacific Islander	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Native Hawaiian or Other Pacific Islander	Yes	Numeric	9
AHRQ_Pneumonia_denom_Race_NHPI	AHRQ pneumonia denominator where race and/or ethnicity is Native Hawaiian or	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Native Hawaiian or Other Pacific Islander	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	Other Pacific Islander				
AHRQ_Pneumonia_rate_Race_NHPI	AHRQ pneumonia rate where race and/or ethnicity is Native Hawaiian or Other Pacific Islander	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Native Hawaiian or Other Pacific Islander	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Race_Multi	AHRQ pneumonia numerator where race and/or ethnicity is Multi-racial	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Multi-racial	Yes	Numeric	9
AHRQ_Pneumonia_denom_Race_Multi	AHRQ pneumonia denominator where race and/or ethnicity is Multi-racial	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Multi-racial	Yes	Numeric	9
AHRQ_Pneumonia_rate_Race_Multi	AHRQ pneumonia rate where race and/or ethnicity is Multi-racial	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is Multi-racial	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Race_Wht	AHRQ pneumonia numerator where race and/or ethnicity is White	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is White	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_denom_Race_Wht	AHRQ pneumonia denominator where race and/or ethnicity is White	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is White	Yes	Numeric	9
AHRQ_Pneumonia_rate_Race_Wht	AHRQ pneumonia rate where race and/or ethnicity is White	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the race and/or ethnicity is White	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Age_<18	AHRQ pneumonia numerator where age is younger than 18 years	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the age is younger than 18 years	Yes	Numeric	9
AHRQ_Pneumonia_denom_Age_<18	AHRQ pneumonia denominator where age is younger than 18 years	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the age is younger than 18 years	Yes	Numeric	9
AHRQ_Pneumonia_rate_Age_<18	AHRQ pneumonia rate where age is younger than 18 years	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the age is younger than 18 years	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Age_18_34	AHRQ pneumonia numerator where age is 18 to 34 years old	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the age is 18 to 34 years old	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_denom_Age_18_34	AHRQ pneumonia denominator where age is 18 to 34 years old	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the age is 18 to 34 years old	Yes	Numeric	9
AHRQ_Pneumonia_rate_Age_18_34	AHRQ pneumonia rate where age is 18 to 34 years old	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the age is 18 to 34 years old	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Age_35_49	AHRQ pneumonia numerator where age is 35 to 49 years old	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the age is 35 to 49 years old	Yes	Numeric	9
AHRQ_Pneumonia_denom_Age_35_49	AHRQ pneumonia denominator where age is 35 to 49 years old	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the age is 35 to 49 years old	Yes	Numeric	9
AHRQ_Pneumonia_rate_Age_35_49	AHRQ pneumonia rate where age is 35 to 49 years old	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the age is 35 to 49 years old	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Age_50_64	AHRQ pneumonia numerator where age is 50 to 64 years old	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the age is 50 to 64 years old	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_denom_Age_50_64	AHRQ pneumonia denominator where age is 50 to 64 years old	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the age is 50 to 64 years old	Yes	Numeric	9
AHRQ_Pneumonia_rate_Age_50_64	AHRQ pneumonia rate where age is 50 to 64 years old	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the age is 50 to 64 years old	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Age_>65	AHRQ pneumonia numerator where age is 65 years or older	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the age is 65 years or older	Yes	Numeric	9
AHRQ_Pneumonia_denom_Age_>65	AHRQ pneumonia denominator where age is 65 years or older	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the age is 65 years or older	Yes	Numeric	9
AHRQ_Pneumonia_rate_Age_>65	AHRQ pneumonia rate where age is 65 years or older	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the age is 65 years or older	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Sex_F	AHRQ pneumonia numerator where sex assigned at birth is Female	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sex assigned at birth is Female	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_denom_Sex_F	AHRQ pneumonia denominator where sex assigned at birth is Female	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sex assigned at birth is Female	Yes	Numeric	9
AHRQ_Pneumonia_rate_Sex_F	AHRQ pneumonia rate where sex assigned at birth is Female	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sex assigned at birth is Female	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Sex_M	AHRQ pneumonia numerator where sex assigned at birth is Male	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sex assigned at birth is Male	Yes	Numeric	9
AHRQ_Pneumonia_denom_Sex_M	AHRQ pneumonia denominator where sex assigned at birth is Male	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sex assigned at birth is Male	Yes	Numeric	9
AHRQ_Pneumonia_rate_Sex_M	AHRQ pneumonia rate where sex assigned at birth is Male	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sex assigned at birth is Male	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Sex_Oth	AHRQ pneumonia numerator where sex assigned at	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sex assigned at birth is Unknown	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	birth is Other/Unknown				
AHRQ_Pneumonia_denom_Sex_Oth	AHRQ pneumonia denominator where sex assigned at birth is Other/Unknown	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sex assigned at birth is Unknown	Yes	Numeric	9
AHRQ_Pneumonia_rate_Sex_Oth	AHRQ pneumonia rate where sex assigned at birth is Other/Unknown	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sex assigned at birth is Unknown	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Payer_Medicare	AHRQ pneumonia numerator where payer type is Medicare	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the payer type is Medicare	Yes	Numeric	9
AHRQ_Pneumonia_denom_Payer_Medicare	AHRQ pneumonia denominator where payer type is Medicare	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the payer type is Medicare	Yes	Numeric	9
AHRQ_Pneumonia_rate_Payer_Medicare	AHRQ pneumonia rate where payer type is Medicare	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the payer type is Medicare	Yes	Decimal	4,1

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_num_Payer_Medicaid	AHRQ pneumonia numerator where payer type is Medicaid	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the payer type is Medicaid	Yes	Numeric	9
AHRQ_Pneumonia_denom_Payer_Medicaid	AHRQ pneumonia denominator where payer type is Medicaid	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the payer type is Medicaid	Yes	Numeric	9
AHRQ_Pneumonia_rate_Payer_Medicaid	AHRQ pneumonia rate where payer type is Medicaid	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the payer type is Medicaid	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Payer_Private	AHRQ pneumonia numerator where payer type is Private	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the payer type is Private	Yes	Numeric	9
AHRQ_Pneumonia_denom_Payer_Private	AHRQ pneumonia denominator where payer type is Private	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the payer type is Private	Yes	Numeric	9
AHRQ_Pneumonia_rate_Payer_Private	AHRQ pneumonia rate where payer type is Private	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the payer type is Private	Yes	Decimal	4,1

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_num_Payer_Self	AHRQ pneumonia numerator where payer type is Self Pay/Uninsured	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the payer type is Self Pay/Uninsured	Yes	Numeric	9
AHRQ_Pneumonia_denom_Payer_Self	AHRQ pneumonia denominator where payer type is Self Pay/Uninsured	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the payer type is Self Pay/Uninsured	Yes	Numeric	9
AHRQ_Pneumonia_rate_Payer_Self	AHRQ pneumonia rate where payer type is Self Pay/Uninsured	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the payer type is Self Pay/Uninsured	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Payer_Oth	AHRQ pneumonia numerator where payer type is Other/Unknown	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the payer type is Other/Unknown	Yes	Numeric	9
AHRQ_Pneumonia_denom_Payer_Oth	AHRQ pneumonia denominator where payer type is Other/Unknown	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the payer type is Other/Unknown	Yes	Numeric	9
AHRQ_Pneumonia_rate_Payer_Oth	AHRQ pneumonia rate where payer type is Other/Unknown	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the payer type is Other/Unknown	Yes	Decimal	4,1

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_num_Lang_ASL	AHRQ pneumonia numerator where preferred language is American Sign Language	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the preferred language is American Sign Language	Yes	Numeric	9
AHRQ_Pneumonia_denom_Lang_ASL	AHRQ pneumonia denominator where preferred language is American Sign Language	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the preferred language is American Sign Language	Yes	Numeric	9
AHRQ_Pneumonia_rate_Lang_ASL	AHRQ pneumonia rate where preferred language is American Sign Language	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the preferred language is American Sign Language	Yes	Decimal	4,1
AHRQ_Pneumonia_num_Lang_Eng	AHRQ pneumonia numerator where preferred language is English	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the preferred language is English	Yes	Numeric	9

	lesbian, gay or homosexual				
AHRQ_Pneumonia_denom_SO_SameSex	AHRQ pneumonia denominator where sexual orientation is lesbian, gay or homosexual	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is lesbian, gay or homosexual	Yes	Numeric	9
AHRQ_Pneumonia_rate_SO_SameSex	AHRQ pneumonia rate where sexual orientation is lesbian, gay or homosexual	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is lesbian, gay or homosexual	Yes	Decimal	4,1
AHRQ_Pneumonia_num_SO_Hetero	AHRQ pneumonia numerator where sexual orientation is straight or heterosexual	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is straight or heterosexual	Yes	Numeric	9
AHRQ_Pneumonia_denom_SO_Hetero	AHRQ pneumonia denominator where sexual orientation is straight or heterosexual	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is straight or heterosexual	Yes	Numeric	9
AHRQ_Pneumonia_rate_SO_Hetero	AHRQ pneumonia rate where sexual	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of	Yes	Decimal	4,1

Label	Data Element	Data Description	Required	Format	Size
	orientation is straight or heterosexual	pneumonia present on admission where the sexual orientation is straight or heterosexual			
AHRQ_Pneumonia_num_SO_Bi	AHRQ pneumonia numerator where sexual orientation is bisexual	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is bisexual	Yes	Numeric	9
AHRQ_Pneumonia_denom_SO_Bi	AHRQ pneumonia denominator where sexual orientation is bisexual	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is bisexual	Yes	Numeric	9
AHRQ_Pneumonia_rate_SO_Bi	AHRQ pneumonia rate where sexual orientation is bisexual	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is bisexual	Yes	Decimal	4,1
AHRQ_Pneumonia_num_SO_Else	AHRQ pneumonia numerator where sexual orientation is something else	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is something else	Yes	Numeric	9
AHRQ_Pneumonia_denom_SO_Else	AHRQ pneumonia denominator where sexual orientation is something else	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is something else	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_rate_SO_Else	AHRQ pneumonia rate where sexual orientation is something else	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is something else	Yes	Decimal	4,1
AHRQ_Pneumonia_num_SO_DK	AHRQ pneumonia numerator where sexual orientation is don't know	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is don't know	Yes	Numeric	9
AHRQ_Pneumonia_denom_SO_DK	AHRQ pneumonia denominator where sexual orientation is don't know	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is don't know	Yes	Numeric	9
AHRQ_Pneumonia_rate_SO_DK	AHRQ pneumonia rate where sexual orientation is don't know	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is don't know	Yes	Decimal	4,1
AHRQ_Pneumonia_num_SO_NotDisc	AHRQ pneumonia numerator where sexual orientation is not disclosed	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is not disclosed	Yes	Numeric	9
AHRQ_Pneumonia_denom_SO_NotDisc	AHRQ pneumonia denominator where sexual	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	orientation is not disclosed	present on admission where the sexual orientation is not disclosed			
AHRQ_Pneumonia_rate_SO_NotDisc	AHRQ pneumonia rate where sexual orientation is not disclosed	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the sexual orientation is not disclosed	Yes	Decimal	4,1
AHRQ_Pneumonia_num_GI_F	AHRQ pneumonia numerator where gender identity is female	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is female	Yes	Numeric	9
AHRQ_Pneumonia_denom_GI_F	AHRQ pneumonia denominator where gender identity is female	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is female	Yes	Numeric	9
AHRQ_Pneumonia_rate_GI_F	AHRQ pneumonia rate where gender identity is female	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is female	Yes	Decimal	4,1
AHRQ_Pneumonia_num_GI_F2M	AHRQ pneumonia numerator where gender identity is female-to-male (FTM)/transgender male/trans man	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is female-to-male (FTM)/transgender male/trans man	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_denom_GI_F2M	AHRQ pneumonia denominator where gender identity is female-to-male (FTM)/transgender male/trans man	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is female-to-male (FTM)/transgender male/trans man	Yes	Numeric	9
AHRQ_Pneumonia_rate_GI_F2M	AHRQ pneumonia rate where gender identity is female-to-male (FTM)/transgender male/trans man	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is female-to-male (FTM)/transgender male/trans man	Yes	Decimal	4,1
AHRQ_Pneumonia_num_GI_M	AHRQ pneumonia numerator where gender identity is male	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is male	Yes	Numeric	9
AHRQ_Pneumonia_denom_GI_M	AHRQ pneumonia denominator where gender identity is male	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is male	Yes	Numeric	9
AHRQ_Pneumonia_rate_GI_M	AHRQ pneumonia rate where gender identity is male	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is male	Yes	Decimal	4,1

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_num_GI_M2F	AHRQ pneumonia numerator where gender identity is male-to-female (MTF)/transgender female/trans woman	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is male-to-female (MTF)/transgender female/trans woman	Yes	Numeric	9
AHRQ_Pneumonia_denom_GI_M2F	AHRQ pneumonia denominator where gender identity is male-to-female (MTF)/transgender female/trans woman	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is male-to-female (MTF)/transgender female/trans woman	Yes	Numeric	9
AHRQ_Pneumonia_rate_GI_M2F	AHRQ pneumonia rate where gender identity is male-to-female (MTF)/transgender female/trans woman	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is male-to-female (MTF)/transgender female/trans woman	Yes	Decimal	4,1
AHRQ_Pneumonia_num_GI_Nonconf	AHRQ pneumonia numerator where gender identity is identifies as non-conforming gender	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is identifies as non-conforming gender	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
AHRQ_Pneumonia_denom_GI_Nonconf	AHRQ pneumonia denominator where gender identity is identifies as non-conforming gender	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is identifies as non-conforming gender	Yes	Numeric	9
AHRQ_Pneumonia_rate_GI_Nonconf	AHRQ pneumonia rate where gender identity is identifies as non-conforming gender	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is identifies as non-conforming gender	Yes	Decimal	4,1
AHRQ_Pneumonia_num_GI_Oth	AHRQ pneumonia numerator where gender identity is additional gender category or other	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is additional gender category or other	Yes	Numeric	9
AHRQ_Pneumonia_denom_GI_Oth	AHRQ pneumonia denominator where gender identity is additional gender category or other	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is additional gender category or other	Yes	Numeric	9
AHRQ_Pneumonia_rate_GI_Oth	AHRQ pneumonia rate where gender identity is	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of	Yes	Decimal	4,1

Label	Data Element	Data Description	Required	Format	Size
	additional gender category or other	pneumonia present on admission where the gender identity is additional gender category or other			
AHRQ_Pneumonia_num_GI_NotDisc	AHRQ pneumonia numerator where gender identity is not disclosed	Number of in-hospital deaths with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is not disclosed	Yes	Numeric	9
AHRQ_Pneumonia_denom_GI_NotDisc	AHRQ pneumonia denominator where gender identity is not disclosed	Number of hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is not disclosed	Yes	Numeric	9
AHRQ_Pneumonia_rate_GI_NotDisc	AHRQ pneumonia rate where gender identity is not disclosed	In-hospital deaths per 1,000 hospital discharges with a principal diagnosis of pneumonia or a principal diagnosis of sepsis with a secondary diagnosis of pneumonia present on admission where the gender identity is not disclosed	Yes	Decimal	4,1
Readmission_IPF_num	Readmission in an Inpatient Psychiatric Facility (IPF) numerator	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission	Yes	Numeric	9
Readmission_IPF_den	Readmission in an IPF denominator	The total number of patients who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate	Readmission in an IPF rate	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
Readmission_IPF_num_Race_AIAN	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where race and/or ethnicity is American Indian or Alaskan Native	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the race and/or ethnicity of the patient is American Indian or Alaskan Native	Yes	Numeric	9
Readmission_IPF_den_Race_AIAN	Readmission in an IPF denominator where race and/or ethnicity is American Indian or Alaskan Native	The total number of patients whose race and/or ethnicity is American Indian or Alaskan Native and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Race_AIAN	Readmission in an IPF rate where race and/or ethnicity is American Indian or Alaskan Native	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose race and/or ethnicity is American Indian or Alaskan Native	Yes	Decimal	3,1
Readmission_IPF_num_Race_Asian	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where race and/or ethnicity is Asian	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the race and/or ethnicity of the patient is Asian	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Readmission_IPF_den_Race_Asian	Readmission in an IPF denominator where race and/or ethnicity is Asian	The total number of patients whose race and/or ethnicity is Asian and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Race_Asian	Readmission in an IPF rate where race and/or ethnicity is Asian	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose race and/or ethnicity is Asian	Yes	Decimal	3,1
Readmission_IPF_num_Race_Blk	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where race and/or ethnicity is Black or African American	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the race and/or ethnicity of the patient is Black or African American	Yes	Numeric	9
Readmission_IPF_den_Race_Blk	Readmission in an IPF denominator where race and/or ethnicity is Black or African American	The total number of patients whose race and/or ethnicity is Black or African American and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Race_Blk	Readmission in an IPF rate where race and/or ethnicity	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	is Black or African American	facility whose race and/or ethnicity is Black or African American			
Readmission_IPF_num_Race_Hisp	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where race and/or ethnicity is Hispanic or Latino	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the race and/or ethnicity of the patient is Hispanic or Latino	Yes	Numeric	9
Readmission_IPF_den_Race_Hisp	Readmission in an IPF denominator where race and/or ethnicity is Hispanic or Latino	The total number of patients whose race and/or ethnicity is Hispanic or Latino and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Race_Hisp	Readmission in an IPF rate where race and/or ethnicity is Hispanic or Latino	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose race and/or ethnicity is Hispanic or Latino	Yes	Decimal	3,1
Readmission_IPF_num_Race_MENA	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where race and/or ethnicity is	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the race and/or ethnicity of the patient is Middle Eastern or North African	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	Middle Eastern or North African				
Readmission_IPF_den_Race_MENA	Readmission in an IPF denominator where race and/or ethnicity is Middle Eastern or North African	The total number of patients whose race and/or ethnicity is Middle Eastern or North African and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Race_MENA	Readmission in an IPF rate where race and/or ethnicity is Middle Eastern or North African	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose race and/or ethnicity is Middle Eastern or North African	Yes	Decimal	3,1
Readmission_IPF_num_Race_NHPI	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where race and/or ethnicity is Native Hawaiian or Other Pacific Islander	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the race and/or ethnicity of the patient is Native Hawaiian or Other Pacific Islander	Yes	Numeric	9
Readmission_IPF_den_Race_NHPI	Readmission in an IPF denominator where race and/or ethnicity is Native	The total number of patients whose race and/or ethnicity is Native Hawaiian or Other Pacific Islander and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	Hawaiian or Other Pacific Islander				
Readmission_IPF_rate_Race_NHPI	Readmission in an IPF rate where race and/or ethnicity is Native Hawaiian or Other Pacific Islander	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose race and/or ethnicity is Native Hawaiian or Other Pacific Islander	Yes	Decimal	3,1
Readmission_IPF_num_Race_Multi	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where race and/or ethnicity is Multi-racial	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the race and/or ethnicity of the patient is Multi-racial	Yes	Numeric	9
Readmission_IPF_den_Race_Multi	Readmission in an IPF denominator where race and/or ethnicity is Multi-racial	The total number of patients whose race and/or ethnicity is Multi-racial and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Race_Multi	Readmission in an IPF rate where race and/or ethnicity is Multi-racial	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose race and/or ethnicity is Multi-racial	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
Readmission_IPF_num_Race_Wht	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where race and/or ethnicity is White	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the race and/or ethnicity of the patient is White	Yes	Numeric	9
Readmission_IPF_den_Race_Wht	Readmission in an IPF denominator where race and/or ethnicity is White	The total number of patients whose race and/or ethnicity is White and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Race_Wht	Readmission in an IPF rate where race and/or ethnicity is White	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose race and/or ethnicity is White	Yes	Decimal	3,1
Readmission_IPF_num_Age_18_34	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where age is 18 to 34 years old	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the age of the patient is 18 to 34 years old	Yes	Numeric	9
Readmission_IPF_den_Age_18_34	Readmission in an IPF denominator where age is 18 to 34 years old	The total number of patients whose age is 18 to 34 years old and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Readmission_IPF_rate_Age_18_34	Readmission in an IPF rate where age is 18 to 34 years old	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose age is 18 to 34 years old	Yes	Decimal	3,1
Readmission_IPF_num_Age_35_49	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where age is 35 to 49 years old	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the age of the patient is 35 to 49 years old	Yes	Numeric	9
Readmission_IPF_den_Age_35_49	Readmission in an IPF denominator where age is 35 to 49 years old	The total number of patients whose age is 35 to 49 years old and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Age_35_49	Readmission in an IPF rate where age is 35 to 49 years old	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose age is 35 to 49 years old	Yes	Decimal	3,1
Readmission_IPF_num_Age_50_64	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where age is 50 to 64 years old	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the age of the patient is 50 to 64 years old	Yes	Numeric	9
Readmission_IPF_den_Age_50_64	Readmission in an IPF denominator	The total number of patients whose age is 50 to 64 years old and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	where age is 50 to 64 years old				
Readmission_IPF_rate_Age_50_64	Readmission in an IPF rate where age is 50 to 64 years old	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose age is 50 to 64 years old	Yes	Decimal	3,1
Readmission_IPF_num_Age_>65	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where age is 65 years or older	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the age of the patient is 65 years or older	Yes	Numeric	9
Readmission_IPF_den_Age_>65	Readmission in an IPF denominator where age is 65 years or older	The total number of patients whose age is 65 years or older and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Age_>65	Readmission in an IPF rate where age is 65 years or older	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose age is 65 years or older	Yes	Decimal	3,1
Readmission_IPF_num_Sex_F	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where sex assigned at birth is Female	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the sex assigned at birth of the patient is Female	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Readmission_IPF_den_Sex_F	Readmission in an IPF denominator where sex assigned at birth is Female	The total number of patients whose sex assigned at birth is Female and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Sex_F	Readmission in an IPF rate where sex assigned at birth is Female	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose sex assigned at birth is Female	Yes	Decimal	3,1
Readmission_IPF_num_Sex_M	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where sex assigned at birth is Male	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the sex assigned at birth of the patient is Male	Yes	Numeric	9
Readmission_IPF_den_Sex_M	Readmission in an IPF denominator where sex assigned at birth is Male	The total number of patients whose sex assigned at birth is Male and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Sex_M	Readmission in an IPF rate where sex assigned at birth is Male	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose sex assigned at birth is Male	Yes	Decimal	3,1
Readmission_IPF_num_Sex_Unk	Readmission in an Inpatient Psychiatric	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	Facility (IPF) numerator where sex assigned at birth is Unknown	eligible index admission and where the sex assigned at birth of the patient is Unknown			
Readmission_IPF_den_Sex_Unk	Readmission in an IPF denominator where sex assigned at birth is Unknown	The total number of patients whose sex assigned at birth is Unknown and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Sex_Unk	Readmission in an IPF rate where sex assigned at birth is Unknown	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose sex assigned at birth is Unknown	Yes	Decimal	3,1
Readmission_IPF_num_Payer_Medicare	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where payer type is Medicare	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the payer type for the patient is Medicare	Yes	Numeric	9
Readmission_IPF_den_Payer_Medicare	Readmission in an IPF denominator where payer type is Medicare	The total number of patients whose payer type is Medicare and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Payer_Medicare	Readmission in an IPF rate where payer type is Medicare	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose payer type is Medicare	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
Readmission_IPF_num_Payer_Medicaid	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where payer type is Medicaid	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the payer type for the patient is Medicaid	Yes	Numeric	9
Readmission_IPF_den_Payer_Medicaid	Readmission in an IPF denominator where payer type is Medicaid	The total number of patients whose payer type is Medicaid and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Payer_Medicaid	Readmission in an IPF rate where payer type is Medicaid	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose payer type is Medicaid	Yes	Decimal	3,1
Readmission_IPF_num_Payer_Private	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where payer type is Private	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the payer type for the patient is Private	Yes	Numeric	9
Readmission_IPF_den_Payer_Private	Readmission in an IPF denominator where payer type is Private	The total number of patients whose payer type is Private and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Payer_Private	Readmission in an IPF rate	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	where payer type is Private	patients 18 years and older in an inpatient psychiatric facility whose payer type is Private			
Readmission_IPF_num_Payer_Self	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where payer type is Self Pay/Uninsured	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the payer type for the patient is Self Pay/Uninsured	Yes	Numeric	9
Readmission_IPF_den_Payer_Self	Readmission in an IPF denominator where payer type is Self Pay/Uninsured	The total number of patients whose payer type is Self Pay/Uninsured and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Payer_Self	Readmission in an IPF rate where payer type is Self Pay/Uninsured	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose payer type is Self Pay/Uninsured	Yes	Decimal	3,1
Readmission_IPF_num_Payer_Oth	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where payer type is Other/Unknown	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the payer type for the patient is Other/Unknown	Yes	Numeric	9
Readmission_IPF_den_Payer_Oth	Readmission in an IPF denominator where payer type	The total number of patients whose payer type is Other/Unknown and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	is Other/Unknown				
Readmission_IPF_rate_Payer_Oth	Readmission in an IPF rate where payer type is Other/Unknown	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose payer type is Other/Unknown	Yes	Decimal	3,1
Readmission_IPF_num_Lang_ASL	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where preferred language is American Sign Language	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the preferred language of the patient is American Sign Language	Yes	Numeric	9
Readmission_IPF_den_Lang_ASL	Readmission in an IPF denominator where preferred language is American Sign Language	The total number of patients whose preferred language is American Sign Language and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Lang_ASL	Readmission in an IPF rate where preferred language is American Sign Language	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose preferred language is American Sign Language	Yes	Decimal	3,1
Readmission_IPF_num_Lang_Eng	Readmission in an Inpatient Psychiatric	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	Facility (IPF) numerator where preferred language is English	eligible index admission and where the preferred language of the patient is English			
Readmission_IPF_den_Lang_Eng	Readmission in an IPF denominator where preferred language is English	The total number of patients whose preferred language is English and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Lang_Eng	Readmission in an IPF rate where preferred language is English	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose preferred language is English	Yes	Decimal	3,1
Readmission_IPF_num_Lang_API	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where preferred language is an Asian/Pacific Islander language	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the preferred language of the patient is an Asian/Pacific Islander language	Yes	Numeric	9
Readmission_IPF_den_Lang_API	Readmission in an IPF denominator where preferred language is an Asian/Pacific	The total number of patients whose preferred language is an Asian/Pacific Islander language and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	Islander language				
Readmission_IPF_rate_Lang_API	Readmission in an IPF rate where preferred language is an Asian/Pacific Islander language	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose preferred language is an Asian/Pacific Islander language	Yes	Decimal	3,1
Readmission_IPF_num_Lang_ME	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where preferred language is Middle Eastern languages	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the preferred language of the patient is Middle Eastern languages	Yes	Numeric	9
Readmission_IPF_den_Lang_ME	Readmission in an IPF denominator where preferred language is Middle Eastern languages	The total number of patients whose preferred language is Middle Eastern languages and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Lang_ME	Readmission in an IPF rate where preferred language is Middle Eastern languages	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose preferred language is Middle Eastern languages	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
Readmission_IPF_num_Lang_Span	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where preferred language is Spanish	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the preferred language of the patient is Spanish	Yes	Numeric	9
Readmission_IPF_den_Lang_Span	Readmission in an IPF denominator where preferred language is Spanish	The total number of patients whose preferred language is Spanish and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Lang_Span	Readmission in an IPF rate where preferred language is Spanish	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose preferred language is Spanish	Yes	Decimal	3,1
Readmission_IPF_num_Lang_Oth	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where preferred language is Other/Unknown	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the preferred language of the patient is Other/Unknown	Yes	Numeric	9
Readmission_IPF_den_Lang_Oth	Readmission in an IPF denominator where preferred	The total number of patients whose preferred language is Other/Unknown and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	language is Other/Unknown				
Readmission_IPF_rate_Lang_Oth	Readmission in an IPF rate where preferred language is Other/Unknown	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose preferred language is Other/Unknown	Yes	Decimal	3,1
Readmission_IPF_num_Disability_none	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where disability status is: does not have a disability	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the disability status of the patient is: does not have a disability	Yes	Numeric	9
Readmission_IPF_den_Disability_none	Readmission in an IPF denominator where disability status is: does not have a disability	The total number of patients whose disability status is: does not have a disability and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Disability_none	Readmission in an IPF rate where disability status is: does not have a disability	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose disability status is: does not have a disability	Yes	Decimal	3,1
Readmission_IPF_num_Disability_Mobile	Readmission in an Inpatient Psychiatric Facility (IPF)	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the disability status of the patient is: has a mobility disability	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	numerator where disability status is: has a mobility disability				
Readmission_IPF_den_Disability_Mobile	Readmission in an IPF denominator where disability status is: has a mobility disability	The total number of patients whose disability status is: has a mobility disability and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Disability_Mobile	Readmission in an IPF rate where disability status is: has a mobility disability	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose disability status is: has a mobility disability	Yes	Decimal	3,1
Readmission_IPF_num_Disability_Cog	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where disability status is: has a cognition disability	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the disability status of the patient is: has a cognition disability	Yes	Numeric	9
Readmission_IPF_den_Disability_Cog	Readmission in an IPF denominator where disability status is: has a	The total number of patients whose disability status is: has a cognition disability and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	Facility (IPF) numerator where disability status is: has a vision disability	eligible index admission and where the disability status of the patient is: has a vision disability			
Readmission_IPF_den_Disability_Vis	Readmission in an IPF denominator where disability status is: has a vision disability	The total number of patients whose disability status is: has a vision disability and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Disability_Vis	Readmission in an IPF rate where disability status is: has a vision disability	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose disability status is: has a vision disability	Yes	Decimal	3,1
Readmission_IPF_num_Disability_Self	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where disability status is: has a self-care disability	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the disability status of the patient is: has a self-care disability	Yes	Numeric	9
Readmission_IPF_den_Disability_Self	Readmission in an IPF denominator where disability status is: has a self-care disability	The total number of patients whose disability status is: has a self-care disability and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Readmission_IPF_rate_Disability_Self	Readmission in an IPF rate where disability status is: has a self-care disability	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose disability status is: has a self-care disability	Yes	Decimal	3,1
Readmission_IPF_num_Disability_Ind	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where disability status is: has an independent living disability	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the disability status of the patient is: has an independent living disability	Yes	Numeric	9
Readmission_IPF_den_Disability_Ind	Readmission in an IPF denominator where disability status is: has an independent living disability	The total number of patients whose disability status is: has an independent living disability and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_Disability_Ind	Readmission in an IPF rate where disability status is: has an independent living disability	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose disability status is: has an independent living disability	Yes	Decimal	3,1
Readmission_IPF_num_SO_SameSex	Readmission in an Inpatient Psychiatric Facility (IPF)	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the sexual	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	numerator where sexual orientation is lesbian, gay or homosexual	orientation of the patient is lesbian, gay or homosexual			
Readmission_IPF_den_SO_SameSex	Readmission in an IPF denominator where sexual orientation is lesbian, gay or homosexual	The total number of patients whose sexual orientation is lesbian, gay or homosexual and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_SO_SameSex	Readmission in an IPF rate where sexual orientation is lesbian, gay or homosexual	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose sexual orientation is lesbian, gay or homosexual	Yes	Decimal	3,1
Readmission_IPF_num_SO_Hetero	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where sexual orientation is straight or heterosexual	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the sexual orientation of the patient is straight or heterosexual	Yes	Numeric	9
Readmission_IPF_den_SO_Hetero	Readmission in an IPF denominator where sexual orientation is	The total number of patients whose sexual orientation is straight or heterosexual and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	straight or heterosexual				
Readmission_IPF_rate_SO_Hetero	Readmission in an IPF rate where sexual orientation is straight or heterosexual	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose sexual orientation is straight or heterosexual	Yes	Decimal	3,1
Readmission_IPF_num_SO_Bi	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where sexual orientation is bisexual	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the sexual orientation of the patient is bisexual	Yes	Numeric	9
Readmission_IPF_den_SO_Bi	Readmission in an IPF denominator where sexual orientation is bisexual	The total number of patients whose sexual orientation is bisexual and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_SO_Bi	Readmission in an IPF rate where sexual orientation is bisexual	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose sexual orientation is bisexual	Yes	Decimal	3,1
Readmission_IPF_num_SO_Else	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the sexual orientation of the patient is something else	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	sexual orientation is something else				
Readmission_IPF_den_SO_Else	Readmission in an IPF denominator where sexual orientation is something else	The total number of patients whose sexual orientation is something else and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_SO_Else	Readmission in an IPF rate where sexual orientation is something else	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose sexual orientation is something else	Yes	Decimal	3,1
Readmission_IPF_num_SO_DK	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where sexual orientation is don't know	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the sexual orientation of the patient is don't know	Yes	Numeric	9
Readmission_IPF_den_SO_DK	Readmission in an IPF denominator where sexual orientation is don't know	The total number of patients whose sexual orientation is don't know and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_SO_DK	Readmission in an IPF rate where sexual	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	orientation is don't know	patients 18 years and older in an inpatient psychiatric facility whose sexual orientation is don't know			
Readmission_IPF_num_SO_Not Disc	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where sexual orientation is not disclosed	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the sexual orientation of the patient is not disclosed	Yes	Numeric	9
Readmission_IPF_den_SO_Not Disc	Readmission in an IPF denominator where sexual orientation is not disclosed	The total number of patients whose sexual orientation is not disclosed and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_SO_Not Disc	Readmission in an IPF rate where sexual orientation is not disclosed	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose sexual orientation is not disclosed	Yes	Decimal	3,1
Readmission_IPF_num_GI_F	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where gender identity is female	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the gender identity of the patient is female	Yes	Numeric	9
Readmission_IPF_den_GI_F	Readmission in an IPF denominator where gender	The total number of patients whose gender identity is female and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	identity is female				
Readmission_IPF_rate_GI_F	Readmission in an IPF rate where gender identity is female	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose gender identity is female	Yes	Decimal	3,1
Readmission_IPF_num_GI_F2M	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where gender identity is female-to-male (FTM)/transgender male/trans man	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the gender identity of the patient is female-to-male (FTM)/transgender male/trans man	Yes	Numeric	9
Readmission_IPF_den_GI_F2M	Readmission in an IPF denominator where gender identity is female-to-male (FTM)/transgender male/trans man	The total number of patients whose gender identity is female-to-male (FTM)/transgender male/trans man and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_GI_F2M	Readmission in an IPF rate where gender identity is female-to-male (FTM)/transgend	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose gender identity is female-to-male (FTM)/transgender male/trans man	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	er male/trans man				
Readmission_IPF_num_GI_M	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where gender identity is male	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the gender identity of the patient is male	Yes	Numeric	9
Readmission_IPF_den_GI_M	Readmission in an IPF denominator where gender identity is male	The total number of patients whose gender identity is male and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_GI_M	Readmission in an IPF rate where gender identity is male	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose gender identity is male	Yes	Decimal	3,1
Readmission_IPF_num_GI_M2F	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where gender identity is male-to-female (MTF)/transgender female/trans woman	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the gender identity of the patient is male-to-female (MTF)/transgender female/trans woman	Yes	Numeric	9
Readmission_IPF_den_GI_M2F	Readmission in an IPF denominator	The total number of patients whose gender identity is male-to-female (MTF)/transgender female/trans woman	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	where gender identity is male-to-female (MTF)/transgender female/trans woman	and who were admitted to an IPF and were 18 years or older at time of admission			
Readmission_IPF_rate_GI_M2F	Readmission in an IPF rate where gender identity is male-to-female (MTF)/transgender female/trans woman	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose gender identity is male-to-female (MTF)/transgender female/trans woman	Yes	Decimal	3,1
Readmission_IPF_num_GI_Nonconf	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where gender identity is identifies as non-conforming gender	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the gender identity of the patient is identifies as non-conforming gender	Yes	Numeric	9
Readmission_IPF_den_GI_Nonconf	Readmission in an IPF denominator where gender identity is identifies as non-conforming gender	The total number of patients whose gender identity is identifies as non-conforming gender and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Readmission_IPF_rate_GI_Nonconf	Readmission in an IPF rate where gender identity is identifies as non-conforming gender	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose gender identity is identifies as non-conforming gender	Yes	Decimal	3,1
Readmission_IPF_num_GI_Oth	Readmission in an Inpatient Psychiatric Facility (IPF) numerator where gender identity is additional gender category or other	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the gender identity of the patient is additional gender category or other	Yes	Numeric	9
Readmission_IPF_den_GI_Oth	Readmission in an IPF denominator where gender identity is additional gender category or other	The total number of patients whose gender identity is additional gender category or other and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_GI_Oth	Readmission in an IPF rate where gender identity is additional gender category or other	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose gender identity is additional gender category or other	Yes	Decimal	3,1
Readmission_IPF_num_GI_NotDisc	Readmission in an Inpatient Psychiatric Facility (IPF)	The number of inpatient admissions to an IPF which occurs within 30 days of the discharge date of an eligible index admission and where the gender identity of the patient is not disclosed	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	numerator where gender identity is not disclosed				
Readmission_IPF_den_GI_NotDisc	Readmission in an IPF denominator where gender identity is not disclosed	The total number of patients whose gender identity is not disclosed and who were admitted to an IPF and were 18 years or older at time of admission	Yes	Numeric	9
Readmission_IPF_rate_GI_NotDisc	Readmission in an IPF rate where gender identity is not disclosed	The percent (rate per 100) of hospital-level, unplanned, all-cause readmissions after admission for any eligible condition within 30 days of hospital discharge for patients 18 years and older in an inpatient psychiatric facility whose gender identity is not disclosed	Yes	Decimal	3,1
MHD_Readmission_num	Mental Health Disorders readmission numerator	The total number of all-cause 30-day unplanned readmissions for mental health disorders	Yes	Numeric	9
MHD_Readmission_den	Mental Health Disorders readmission denominator	The total number of patients who were admitted to the hospital and were 18 years or older at time of admission	Yes	Numeric	9
MHD_Readmission_rate	Mental Health Disorders readmission rate	The percent (rate per 100) of the hospital-level, unplanned, readmissions for mental health disorder after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older	Yes	Decimal	3,1
MHD_Readmission_num_Race_AIAN	Mental Health Disorders readmission numerator where race and/or ethnicity is	The total number of all-cause 30-day unplanned readmissions for mental health disorders where the race and/or ethnicity of the patient is American Indian or Alaskan Native	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	American Indian or Alaskan Native				
MHD_Readmission_den_Race_AIAN	Mental Health Disorders readmission denominator where race and/or ethnicity is American Indian or Alaskan Native	The total number of patients whose race and/or ethnicity is American Indian or Alaskan Native and who were admitted to the hospital and were 18 years or older at time of admission	Yes	Numeric	9
MHD_Readmission_rate_Race_AIAN	Mental Health Disorders readmission rate where race and/or ethnicity is American Indian or Alaskan Native	The percent (rate per 100) of the hospital-level, unplanned, readmissions for mental health disorder after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older whose race and/or ethnicity is American Indian or Alaskan Native	Yes	Decimal	3,1
MHD_Readmission_num_Race_Asian	Mental Health Disorders readmission numerator where race and/or ethnicity is Asian	The total number of all-cause 30-day unplanned readmissions for mental health disorders where the race and/or ethnicity of the patient is Asian	Yes	Numeric	9
MHD_Readmission_den_Race_Asian	Mental Health Disorders readmission denominator where race	The total number of patients whose race and/or ethnicity is Asian and who were admitted to the hospital and were 18 years or older at time of admission	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	and/or ethnicity is Asian				
MHD_Readmission_rate_Race_Asian	Mental Health Disorders readmission rate where race and/or ethnicity is Asian	The percent (rate per 100) of the hospital-level, unplanned, readmissions for mental health disorder after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older whose race and/or ethnicity is Asian	Yes	Decimal	3,1
MHD_Readmission_num_Race_Blk	Mental Health Disorders readmission numerator where race and/or ethnicity is Black or African American	The total number of all-cause 30-day unplanned readmissions for mental health disorders where the race and/or ethnicity of the patient is Black or African American	Yes	Numeric	9
MHD_Readmission_den_Race_Blk	Mental Health Disorders readmission denominator where race and/or ethnicity is Black or African American	The total number of patients whose race and/or ethnicity is Black or African American and who were admitted to the hospital and were 18 years or older at time of admission	Yes	Numeric	9
MHD_Readmission_rate_Race_Blk	Mental Health Disorders readmission rate where race and/or ethnicity is Black or African American	The percent (rate per 100) of the hospital-level, unplanned, readmissions for mental health disorder after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older whose race and/or ethnicity is Black or African American	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size

CO_Remission_rate_GI_M	Co-occuring Disorders readmission rate	The percent (rate per 100) of the hospital-level, unplanned, readmissions for co-occurring disorders after admission for any eligible condition within 30 days	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	where gender identity is male	of hospital discharge for patients aged 18 and older whose gender identity is male			
CO_Readmission_num_GI_M2F	Co-occuring Disorders readmission numerator where gender identity is male-to-female (MTF)/transgender female/trans woman	The total number of all-cause 30-day unplanned readmissions for co-occurring disorderss where the gender identity of the patient is male-to-female (MTF)/transgender female/trans woman	Yes	Numeric	9
CO_Readmission_den_GI_M2F	Co-occuring Disorders readmission denominator where gender identity is male-to-female (MTF)/transgender female/trans woman	The total number of patients whose gender identity is male-to-female (MTF)/transgender female/trans woman and who were admitted to the hospital and were 18 years or older at time of admission	Yes	Numeric	9
CO_Readmission_rate_GI_M2F	Co-occuring Disorders readmission rate where gender identity is male-to-female (MTF)/transgender female/trans woman	The percent (rate per 100) of the hospital-level, unplanned, readmissions for co-occurring disorders after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older whose gender identity is male-to-female (MTF)/transgender female/trans woman	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
CO_Readmission_num_GI_Nonconf	Co-occuring Disorders readmission numerator where gender identity is identifies as non-conforming gender	The total number of all-cause 30-day unplanned readmissions for co-occurring disorderss where the gender identity of the patient is identifies as non-conforming gender	Yes	Numeric	9
CO_Readmission_den_GI_Nonconf	Co-occuring Disorders readmission denominator where gender identity is identifies as non-conforming gender	The total number of patients whose gender identity is identifies as non-conforming gender and who were admitted to the hospital and were 18 years or older at time of admission	Yes	Numeric	9
CO_Readmission_rate_GI_Nonconf	Co-occuring Disorders readmission rate where gender identity is identifies as non-conforming gender	The percent (rate per 100) of the hospital-level, unplanned, readmissions for co-occurring disorders after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older whose gender identity is identifies as non-conforming gender	Yes	Decimal	3,1
CO_Readmission_num_GI_Oth	Co-occuring Disorders readmission numerator where gender identity is additional gender category or other	The total number of all-cause 30-day unplanned readmissions for co-occurring disorderss where the gender identity of the patient is additional gender category or other	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
CO_Readmission_den_GI_Oth	Co-occuring Disorders readmission denominator where gender identity is additional gender category or other	The total number of patients whose gender identity is additional gender category or other and who were admitted to the hospital and were 18 years or older at time of admission	Yes	Numeric	9
CO_Readmission_rate_GI_Oth	Co-occuring Disorders readmission rate where gender identity is additional gender category or other	The percent (rate per 100) of the hospital-level, unplanned, readmissions for co-occurring disorders after admission for any eligible condition within 30 days of hospital discharge for patients aged 18 and older whose gender identity is additional gender category or other	Yes	Decimal	3,1
CO_Readmission_num_GI_NotDisc	Co-occuring Disorders readmission numerator where gender identity is not disclosed	The total number of all-cause 30-day unplanned readmissions for co-occurring disorderss where the gender identity of the patient is not disclosed	Yes	Numeric	9
CO_Readmission_den_GI_NotDisc	Co-occuring Disorders readmission denominator where gender identity is not disclosed	The total number of patients whose gender identity is not disclosed and who were admitted to the hospital and were 18 years or older at time of admission	Yes	Numeric	9
CO_Readmission_rate_GI_NotDisc	Co-occuring Disorders readmission rate where gender	The percent (rate per 100) of the hospital-level, unplanned, readmissions for co-occurring disorders after admission for any eligible condition within 30 days	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	identity is not disclosed	of hospital discharge for patients aged 18 and older whose gender identity is not disclosed			
Screen_metabolic_disorder_num	Screening for metabolic disorders numerator	The number of patients who received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom	Screening for metabolic disorders denominator	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications	Yes	Numeric	9
Screen_metabolic_disorder_rate	Screening for metabolic disorders rate	Percent (rate per 100) of patients who were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Race_AIAN	Screening for metabolic disorders numerator where race and/or ethnicity is American Indian or Alaskan Native	The number of patients whose race and/or ethnicity is American Indian or Alaskan Native and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Race_AIAN	Screening for metabolic disorders denominator where race and/or ethnicity is American	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the race and/or ethnicity of the patient is American Indian or Alaskan Native	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	Indian or Alaskan Native				
Screen_metabolic_disorder_rate_Race_AIAN	Screening for metabolic disorders rate where race and/or ethnicity is American Indian or Alaskan Native	Percent (rate per 100) of patients whose race and/or ethnicity is American Indian or Alaskan Native and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Race_Asian	Screening for metabolic disorders numerator where race and/or ethnicity is Asian	The number of patients whose race and/or ethnicity is Asian and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Race_Asian	Screening for metabolic disorders denominator where race and/or ethnicity is Asian	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the race and/or ethnicity of the patient is Asian	Yes	Numeric	9
Screen_metabolic_disorder_rate_Race_Asian	Screening for metabolic disorders rate where race and/or ethnicity is Asian	Percent (rate per 100) of patients whose race and/or ethnicity is Asian and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Race_Blk	Screening for metabolic disorders numer	The number of patients whose race and/or ethnicity is Black or African American and received a metabolic	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	ator where race and/or ethnicity is Black or African American	screening in the 12 months prior to discharge, either prior to or during the index IPF stay			
Screen_metabolic_disorder_denom_Race_Blk	Screening for metabolic disorders denominator where race and/or ethnicity is Black or African American	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the race and/or ethnicity of the patient is Black or African American	Yes	Numeric	9
Screen_metabolic_disorder_rate_Race_Blk	Screening for metabolic disorders rate where race and/or ethnicity is Black or African American	Percent (rate per 100) of patients whose race and/or ethnicity is Black or African American and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Race_Hisp	Screening for metabolic disorders numerator where race and/or ethnicity is Hispanic or Latino	The number of patients whose race and/or ethnicity is Hispanic or Latino and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Race_Hisp	Screening for metabolic disorders denominator where race and/or ethnicity	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the race and/or ethnicity of the patient is Hispanic or Latino	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	is Hispanic or Latino				
Screen_metabolic_disorder_rate_Race_Hisp	Screening for metabolic disorders rate where race and/or ethnicity is Hispanic or Latino	Percent (rate per 100) of patients whose race and/or ethnicity is Hispanic or Latino and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Race_MENA	Screening for metabolic disorders numerator where race and/or ethnicity is Middle Eastern or North African	The number of patients whose race and/or ethnicity is Middle Eastern or North African and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Race_MENA	Screening for metabolic disorders denominator where race and/or ethnicity is Middle Eastern or North African	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the race and/or ethnicity of the patient is Middle Eastern or North African	Yes	Numeric	9
Screen_metabolic_disorder_rate_Race_MENA	Screening for metabolic disorders rate where race and/or ethnicity is Middle Eastern or North African	Percent (rate per 100) of patients whose race and/or ethnicity is Middle Eastern or North African and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
Screen_metabolic_disorder_num_Race_NHPI	Screening for metabolic disorders numerator where race and/or ethnicity is Native Hawaiian or Other Pacific Islander	The number of patients whose race and/or ethnicity is Native Hawaiian or Other Pacific Islander and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Race_NHPI	Screening for metabolic disorders denominator where race and/or ethnicity is Native Hawaiian or Other Pacific Islander	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the race and/or ethnicity of the patient is Native Hawaiian or Other Pacific Islander	Yes	Numeric	9
Screen_metabolic_disorder_rate_Race_NHPI	Screening for metabolic disorders rate where race and/or ethnicity is Native Hawaiian or Other Pacific Islander	Percent (rate per 100) of patients whose race and/or ethnicity is Native Hawaiian or Other Pacific Islander and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Race_Multi	Screening for metabolic disorders numerator where race	The number of patients whose race and/or ethnicity is Multi-racial and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	and/or ethnicity is Multi-racial				
Screen_metabolic_disorder_denom_Race_Multi	Screening for metabolic disorders denominator where race and/or ethnicity is Multi-racial	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the race and/or ethnicity of the patient is Multi-racial	Yes	Numeric	9
Screen_metabolic_disorder_rate_Race_Multi	Screening for metabolic disorders rate where race and/or ethnicity is Multi-racial	Percent (rate per 100) of patients whose race and/or ethnicity is Multi-racial and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Race_Wht	Screening for metabolic disorders numerator where race and/or ethnicity is White	The number of patients whose race and/or ethnicity is White and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Race_Wht	Screening for metabolic disorders denominator where race and/or ethnicity is White	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the race and/or ethnicity of the patient is White	Yes	Numeric	9
Screen_metabolic_disorder_rate_Race_Wht	Screening for metabolic disorders rate where race	Percent (rate per 100) of patients whose race and/or ethnicity is White and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
	and/or ethnicity is White	was completed in the 12 months prior to discharge – either prior to or during the index IPF stay			
Screen_metabolic_disorder_num_Age_<18	Screening for metabolic disorders numerator where age is younger than 18 years	The number of patients whose age is younger than 18 years and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Age_<18	Screening for metabolic disorders denominator where age is younger than 18 years	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the age of the patient is younger than 18 years	Yes	Numeric	9
Screen_metabolic_disorder_rate_Age_<18	Screening for metabolic disorders rate where age is younger than 18 years	Percent (rate per 100) of patients whose age is younger than 18 years and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Age_18_34	Screening for metabolic disorders numerator where age is 18 to 34 years old	The number of patients whose age is 18 to 34 years old and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Age_18_34	Screening for metabolic disorders denominator where age	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the age of the patient is 18 to 34 years old	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	is 18 to 34 years old				
Screen_metabolic_disorder_rate_Age_18_34	Screening for metabolic disorders rate where age is 18 to 34 years old	Percent (rate per 100) of patients whose age is 18 to 34 years old and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Age_35_49	Screening for metabolic disorders numerator where age is 35 to 49 years old	The number of patients whose age is 35 to 49 years old and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Age_35_49	Screening for metabolic disorders denominator where age is 35 to 49 years old	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the age of the patient is 35 to 49 years old	Yes	Numeric	9
Screen_metabolic_disorder_rate_Age_35_49	Screening for metabolic disorders rate where age is 35 to 49 years old	Percent (rate per 100) of patients whose age is 35 to 49 years old and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Age_50_64	Screening for metabolic disorders numerator where age is	The number of patients whose age is 50 to 64 years old and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	50 to 64 years old				
Screen_metabolic_disorder_denom_Age_50_64	Screening for metabolic disorders denominator where age is 50 to 64 years old	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the age of the patient is 50 to 64 years old	Yes	Numeric	9
Screen_metabolic_disorder_rate_Age_50_64	Screening for metabolic disorders rate where age is 50 to 64 years old	Percent (rate per 100) of patients whose age is 50 to 64 years old and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Age_>65	Screening for metabolic disorders numerator where age is 65 years or older	The number of patients whose age is 65 years or older and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Age_>65	Screening for metabolic disorders denominator where age is 65 years or older	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the age of the patient is 65 years or older	Yes	Numeric	9
Screen_metabolic_disorder_rate_Age_>65	Screening for metabolic disorders rate where age is 65 years or older	Percent (rate per 100) of patients whose age is 65 years or older and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
		in the 12 months prior to discharge – either prior to or during the index IPF stay			
Screen_metabolic_disorder_num_Sex_F	Screening for metabolic disorders numerator where sex assigned at birth is Female	The number of patients whose sex assigned at birth is Female and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Sex_F	Screening for metabolic disorders denominator where sex assigned at birth is Female	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the sex assigned at birth of the patient is Female	Yes	Numeric	9
Screen_metabolic_disorder_rate_Sex_F	Screening for metabolic disorders rate where sex assigned at birth is Female	Percent (rate per 100) of patients whose sex assigned at birth is Female and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Sex_M	Screening for metabolic disorders numerator where sex assigned at birth is Male	The number of patients whose sex assigned at birth is Male and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Sex_M	Screening for metabolic disorders denominator where sex	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the sex assigned at birth of the patient is Male	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
		assigned at birth is Male			
Screen_metabolic_disorder_rate_Sex_M	Screening for metabolic disorders rate where sex assigned at birth is Male	Percent (rate per 100) of patients whose sex assigned at birth is Male and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Sex_Unk	Screening for metabolic disorders numerator where sex assigned at birth is Unknown	The number of patients whose sex assigned at birth is Unknown and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Sex_Unk	Screening for metabolic disorders denominator where sex assigned at birth is Unknown	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the sex assigned at birth of the patient is Unknown	Yes	Numeric	9
Screen_metabolic_disorder_rate_Sex_Unk	Screening for metabolic disorders rate where sex assigned at birth is Unknown	Percent (rate per 100) of patients whose sex assigned at birth is Unknown and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Payer_Medicare	Screening for metabolic disorders numer	The number of patients whose payer type is Medicare and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	ator where payer type is Medicare				
Screen_metabolic_disorder_denom_Payer_Medicare	Screening for metabolic disorders denominator where payer type is Medicare	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the payer type for the patient is Medicare	Yes	Numeric	9
Screen_metabolic_disorder_rate_Payer_Medicare	Screening for metabolic disorders rate where payer type is Medicare	Percent (rate per 100) of patients whose payer type is Medicare and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Payer_Medicaid	Screening for metabolic disorders numerator where payer type is Medicaid	The number of patients whose payer type is Medicaid and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Payer_Medicaid	Screening for metabolic disorders denominator where payer type is Medicaid	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the payer type for the patient is Medicaid	Yes	Numeric	9
Screen_metabolic_disorder_rate_Payer_Medicaid	Screening for metabolic disorders rate where payer type is Medicaid	Percent (rate per 100) of patients whose payer type is Medicaid and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed	Yes	Decimal	3,1

Label	Data Element	Data Description	Required	Format	Size
		in the 12 months prior to discharge – either prior to or during the index IPF stay			
Screen_metabolic_disorder_num_Payer_Private	Screening for metabolic disorders numerator where payer type is Private	The number of patients whose payer type is Private and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Payer_Private	Screening for metabolic disorders denominator where payer type is Private	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the payer type for the patient is Private	Yes	Numeric	9
Screen_metabolic_disorder_rate_Payer_Private	Screening for metabolic disorders rate where payer type is Private	Percent (rate per 100) of patients whose payer type is Private and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Payer_Self	Screening for metabolic disorders numerator where payer type is Self Pay/Uninsured	The number of patients whose payer type is Self Pay/Uninsured and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Payer_Self	Screening for metabolic disorders denominator where payer type is Self Pay/Uninsured	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the payer type for the patient is Self Pay/Uninsured	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Screen_metabolic_disorder_rate_Payer_Self	Screening for metabolic disorders rate where payer type is Self Pay/Uninsured	Percent (rate per 100) of patients whose payer type is Self Pay/Uninsured and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Payer_Oth	Screening for metabolic disorders numerator where payer type is Other/Unknown	The number of patients whose payer type is Other/Unknown and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Payer_Oth	Screening for metabolic disorders denominator where payer type is Other/Unknown	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the payer type for the patient is Other/Unknown	Yes	Numeric	9
Screen_metabolic_disorder_rate_Payer_Oth	Screening for metabolic disorders rate where payer type is Other/Unknown	Percent (rate per 100) of patients whose payer type is Other/Unknown and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Lang_ASL	Screening for metabolic disorders numerator where preferred language is	The number of patients whose preferred language is American Sign Language and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
	American Sign Language				
Screen_metabolic_disorder_denom_Lang_ASL	Screening for metabolic disorders denominator where preferred language is American Sign Language	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the preferred language of the patient is American Sign Language	Yes	Numeric	9
Screen_metabolic_disorder_rate_Lang_ASL	Screening for metabolic disorders rate where preferred language is American Sign Language	Percent (rate per 100) of patients whose preferred language is American Sign Language and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Lang_Eng	Screening for metabolic disorders numerator where preferred language is English	The number of patients whose preferred language is English and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Lang_Eng	Screening for metabolic disorders denominator where preferred language is English	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the preferred language of the patient is English	Yes	Numeric	9

Label	Data Element	Data Description	Required	Format	Size
Screen_metabolic_disorder_rate_Lang_Eng	Screening for metabolic disorders rate where preferred language is English	Percent (rate per 100) of patients whose preferred language is English and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the 12 months prior to discharge – either prior to or during the index IPF stay	Yes	Decimal	3,1
Screen_metabolic_disorder_num_Lang_API	Screening for metabolic disorders numerator where preferred language is an Asian/Pacific Islander language	The number of patients whose preferred language is an Asian/Pacific Islander language and received a metabolic screening in the 12 months prior to discharge, either prior to or during the index IPF stay	Yes	Numeric	9
Screen_metabolic_disorder_denom_Lang_API	Screening for metabolic disorders denominator where preferred language is an Asian/Pacific Islander language	The number of discharges from an IPF during the measurement period with a prescription for one or more routinely scheduled antipsychotic medications where the preferred language of the patient is an Asian/Pacific Islander language	Yes	Numeric	9
Screen_metabolic_disorder_rate_Lang_API	Screening for metabolic disorders rate where preferred language is an Asian/Pacific	Percent (rate per 100) of patients whose preferred language is an Asian/Pacific Islander language and were discharged from an Inpatient Psychiatric Facility (IPF) with a prescription for one or more routinely scheduled antipsychotic medications for which a structured metabolic screening was completed in the	Yes	Decimal	3,1
