# Data Quality Plan Reports and Engagement

*David Winston,  
Cost Transparency Section, HCAI*

# Data Quality Plan Reports and Engagement

- Initiated annual reports and engagement with plans in May 2024
- Opportunity for plans to validate data in HPD, Feedback loop with plans to share experiences and best practices
- Developed standard and tailored questions for each plan to gain further insight on data quality

# Data Quality Plan Reports (DQPR)

- Validating covered lives counts for 2017-2022.
- Assessing historical data completeness for 2020-2022.
- Data has a time lag to assess full years. Upon completion of historical analyses, the next engagement planned for 2023-2024 years.
- Questions designed to share the plan's data in HPD and gather more information on:
  - Data Completeness
  - Methods of data collection
  - Implementation of demographic data tracking
- Engaging with 18 commercial health plans
  - Higher level plans represent 49 registered health plans
  - E.g., Kaiser Permanente and Kaiser Foundation rolled up to Kaiser
- Reached out to 13 plans since May 2024, received 10 responses
  - 4 small (<100K covered lives), 4 medium (100k to <1M covered lives), 2 large (1M+ covered lives)

# Data Collection Method – Race, Ethnicity, and Language, 2020-2022

<u>Demographic Element</u>	<u>Collection Method</u>	<u>Plan Size</u>		
		Small	Medium	Large
Ethnicity	Self-Reported			1
	Combination	4	2	1
Language	Self-Reported	1		
	Combination	3	2	1
Race	Imputed			1
	Self-Reported			1
	Combination	4	2	1

- Most of the 8 plans responding, of all sizes, use a **combination of approaches** to obtain race, ethnicity, and language data
  - Self-report: information entered directly by patient
  - Imputation: information populated based on other sources, such as provider electronic medical records
  - Reported on someone's behalf: authorized representative of the patient provided the information
- Few plans rely solely on self-reported data

# Race and Ethnicity Data Separation, 2020-2022

- The APCD-CDL requires that race and ethnicity fields are reported separately.
- Most plans will have separate race and ethnicity reporting by the end of this year. Of the 10 plans responding:
  - Five plans are collecting race/ethnicity separately as of 2024 and one more is on track to separate the data this year
  - Two other plans have made progress but will not have separate data by year end
  - Two plans are not collecting race/ethnicity data

Responses from 10 Plans (multiple responses allowed)	Total	Small	Medium	Large
Collected separately	3	0	1	2
Combined for 2020-22, separate for 2024	2	1	1	0
Combined field with separate tracking	2	2	0	0
Data partially separated	1	1	0	0
Not collecting	2	0	2	0

# Reasons for Missing or Incomplete Data, 2020-2022

N=10 Plan Responses (multiple responses allowed)	Race	Ethnicity	Language
Not a required field	4	4	4
Data integration issue	3	3	2
Combined R/E fields	2	1	N/A
No race code for Hispanic / Latino / South American	1	N/A	N/A
Use Race data when Ethnicity data is missing	N/A	2	N/A
Ethnicity data does not include option for “Not Hispanic or Latino”	N/A	1	N/A
Did not collect	2	2	0
Average completion	46%	68%	89%

Among the 10 plans that responded with reasons that race, ethnicity, and/or language data is missing or incomplete, the main explanations were:

- Data is not available: the plan does not collect the data or the fields are optional for members
- Challenges with data integration: data comes from multiple systems that are complex to synchronize
- Challenges with data collection approach: race and ethnicity fields are combined, fields or relevant options are missing

# Plans' Preference for Completeness Data Aggregation

- Plans were asked about their preference of data aggregation for public reporting on data completeness.
- Aggregation method options were:
  - Plan
  - Submitters
  - Plan and Submitters
  - Other
- Most plans preferred showing completeness data at both plan and submitter level, regardless of plan size.
  - Second most popular choice was at plan level
  - One small plan recommended to share data at the submitter level.
  - One plan selected "other" to suggest rolling data up to higher plan level.

# Frequently Asked Questions

# “Can I submit NCP files to the HPD under my existing submitter code?”

**Yes.** HPD submitters can utilize their existing submitter codes to send NCP data.

- If an HPD submitter requires a new submitter code to send their NCP files, they will need to complete a new submitter registration form
- Please reach out to Onpoint with any questions related to submitter code assignment: [hpdc-support@onpointhealthdata.org](mailto:hpdc-support@onpointhealthdata.org)

# “In the Capitation File, how do I report adjustments to capitation payments?”

The table below is an example of a file reported with a header record Period Beginning/Ending Date (CDLHD006/CDLHD007) of ‘202101’ that includes all capitation payments administered or adjusted in January 2021:

CDLCF003	CDLCF004	CDLCF006	CDLCF007	CDLCF018	CDLCF019
Reporting Period Start Date	Reporting Period End Date	Member Last Name	Member First Name	Payment Subcategory	Total Paid Amount

# “In the Capitation File, how do I report adjustments to capitation payments?” (cont.)

- Adjustments to capitation payments may be submitted according to the following guidelines:
  - Adjustments must be reported within the Capitation File whose header record's Reporting Period (CDLHD006, CDLHD007) reflects the month during which the adjustment was processed
  - Adjustments must be submitted using the Aggregation method (see NCP Submission Scenarios document for more information)
  - Adjustments must report the month of enrollment for which the adjustment should apply to using the Capitation File's Reporting Period Start Date (CDLCF003) and Reporting Period End Date (CDLCF004)
