

HSDC

Hospital Supplier Diversity Commission

Commission's Key Recommendations

Recommendations for hospitals to strengthen supplier diversity and encourage inclusive purchasing.

Recommendations for HCAI to improve how the program runs, reports, and connects with diverse businesses.

Recommendations for partners like group purchasing organizations, manufacturers, distributors, and business groups - to work toward shared goals across the supply chain.

Impact:

These recommendations give hospitals and their partners clear steps to take - creating more opportunities for diverse businesses in healthcare.

Background:

The HSDC has met regularly since March 2021 to help hospitals work with more diverse businesses. The Commission has reviewed data, shared what works, and listened to public input to create 26 recommendations.
