

HSDC

Hospital Supplier Diversity Commission

Voluntary Guidelines

- 10 key goals** hospitals can aim for to support a strong diversity program
- 23 Best Practices** steps hospitals may take to reach those goals
- Supplier Diversity Roadmap** to help hospitals grow and expand their supplier diversity work

Background:

HCAI worked with the HSDC to create these voluntary guidelines to assist hospitals in advancing their supplier diversity programs. These guidelines provide a maturity model, strategies, practices, metrics and more that can help hospitals with their procurement efforts, activities, or programs.

Impact:

By implementing these voluntary guidelines, hospitals can build more resilient supply chains, drive local economic growth, and foster innovation through diverse partnerships.
