

## Integrating OSHPD's eServices Portal with ePlanCheck Webinar

*Learn how to submit construction plans online and speed your review and approval process*

**Thursday, June 23, 2016**  
**1:30 – 3:00 p.m., Pacific Time**

---

A good thing is about to get even better.

If you have already been working with the Office of Statewide Health Planning and Development's (OSHPD) eServices Portal (eSP), you will be pleased to learn about the upcoming launch of ePlanCheck (ePC) — a complementary software program designed to accelerate the review and approval process for hospital construction projects.

Scheduled to launch in late June, ePC will integrate with eSP to usher construction plan submission, review and approval process into the digital realm. Hospital construction project teams who use the powerful eSP and ePC software can expect to benefit from:

- Faster interaction and response from OSHPD review teams
- Concurrent plan review by multiple disciplines
- Customized comment reports tailored to specific task or team member focus
- Digital time stamping of construction plans
- Online archiving of plans allows for easy retrieval, review, copies
- Overall reduced cost and faster turnaround of plan review and approvals

Plan to participate and learn how to use ePlanCheck to speed the approval process for your hospital construction projects.
