Long Beach NSC, LLC (the “LLC”) is a wholly-owned subsidiary of AmSurg Holdings, LLC and an indirect subsidiary of Ambulatory TopCo, LLC (collectively, “AMSURG”). The LLC owns 53.59904% of the issued and outstanding partnership interests in Long Beach Surgery Center L.P. (the “LP”), including 100% of the general partnership interest in the LP and 44.19397% of the limited partnership interests in the LP. The other 46.40096% of the issued and outstanding partnership interests are held by several local individual physician limited partners. The LP owns and operates Surgery Center of Long Beach, an outpatient orthopedic, total joint replacement, ophthalmology, and ENT ambulatory surgery center located at 2880 Atlantic Avenue, Suite 160, Long Beach, California Long Beach, California (“SCLB”).

The LLC is governed pursuant to an Operating Agreement (see Confidential Folder, “Section 12_Folder 9_Long Beach NSC, LLC Amended and Restated Operating Agreement (CONFIDENTIAL)”). Management of the LLC is vested in its Board of Directors who have authority to control, manage, and exercise all powers of the LLC. The LLC maintains no financials and consolidated financials for Ambulatory Intermediate CO 2, LLC are provided. (See Confidential Folder, “Section 12_Folder 8_Ambulatory Intermediate Co 2 LLC_Consolidated Financial Statements FY23-24 (CONFIDENTIAL).” Ambulatory Intermediate CO 2, LLC was created in 2023 and these are all the financial statements for Ambulatory Intermediate Co 2, LLC.

AMSURG is a nationally recognized leader in the strategic and operational management of over 250 ambulatory surgery centers (“ASCs”) across 34 states (including 25 ASCs in California) that deliver high quality, high value, same-day surgical services with a superior patient experience. In 2024, AMSURG’s California ASCs collectively served approximately 125,298 patients and, in 2024, SCLB performed 1,654 outpatient cases.

AMSURG combines technology, data analytics, patient engagement, and quality reporting that results in optimal outcomes for patients. As a result, AMSURG provides health care value, improves patient experience, and saves lives.

AMSURG ASCs offer gastroenterology, ophthalmology, orthopedics, urology, and other multi-specialty surgical services. AMSURG partners with physicians and hospitals/health systems to manage ASCs that perform to the highest standards of patient care and quality. Under AMSURG’s traditional physician partnership model, the ASC is co-owned with local surgeons and is operated by consensus between the surgeons and AMSURG. AMSURG also partners with hospitals and health systems, creating a mutually beneficial

three-way joint venture partnership between health systems/hospitals, physicians, and AMSURG.

Section 9(a)(iii)_2025 Summary of Number & Types of Patients Served at Surgery Center of Long Beach

The below is summary data for Surgery Center of Long Beach (“SCLB”) for the period from January 1, 2025 through December 31, 2025 (the “Period”). As noted in folder/document “Section 9(a)_ Services Provided Currently and Post Transaction” submitted with the Material Change Notice (“MCN”), post-transaction there will be no change to the number and type of patients served at SCLB.

Total Number of Patients

For the Period, 1,148 patients received outpatient ambulatory surgery center services at SCLB.

Age Range

For the Period, the SCLB’s patients’ ages ranged from 14 years to 98 years, with an average age of approximately 64 years. A further breakdown of the patient’s age range is as follows:

Age Group	Patient Count	Percentage
0–17	5	0.4%
18–29	21	1.8%
30–39	32	2.8%
40–49	71	6.2%
50–59	137	11.9%
60–69	320	27.9%
70–79	332	28.9%
80–89	186	16.2%
90+	44	3.8%

Gender

For the Period, of the 1,148 patients, 631 were female and 517 were male.

Race/Ethnicity

As discussed in folder/document “Section 9(a)_ Services Provided Currently and Post Transaction” submitted with the MCN, many patients do not provide information regarding their race/ethnicity and for the Period there is no data available for SCLB. As a general matter, the majority of patients providing such information identify as either non-Hispanic or

Hispanic/Latino, and the ASCs also serve patients identifying as American Indian or Alaska Native, Asian, Black or African American, and Native Hawaiian or other Pacific Islander.

Languages Spoken

For the Period, English is the dominant language with a several patients reporting other languages including Spanish, Cambodian, Chinese, Korean, and Vietnamese as follows:

Language	Patient Count	Percentage
English	1,114	97.0%
Spanish	24	2.1%
Cambodian	2	0.2%
Chinese	1	0.1%
Korean	1	0.1%
Vietnamese	1	0.1%
None Reported	~5	0.4%

Payor Mix

For the Period, the payor mix includes primarily Medicare/Medicare Advantage Plans and commercial insurance, along with some Medicaid and managed Medicaid programs, TRICARE and self-pay arrangements.

Section 9(a)(iii)_2025 Summary of Number & Types of Patients Served at Surgery Center of Long Beach

The below is summary data for Surgery Center of Long Beach (“SCLB”) for the period from January 1, 2025 through December 31, 2025 (the “Period”). As noted in folder/document “Section 9(a)_ Services Provided Currently and Post Transaction” submitted with the Material Change Notice (“MCN”), post-transaction there will be no change to the number and type of patients served at SCLB.

Total Number of Patients

For the Period, 1,148 patients received outpatient ambulatory surgery center services at SCLB.

Age Range

For the Period, the SCLB’s patients’ ages ranged from 14 years to 98 years, with an average age of approximately 64 years. A further breakdown of the patient’s age range is as follows:

Age Group	Patient Count	Percentage
0–17	5	0.4%
18–29	21	1.8%
30–39	32	2.8%
40–49	71	6.2%
50–59	137	11.9%
60–69	320	27.9%
70–79	332	28.9%
80–89	186	16.2%
90+	44	3.8%

Gender

For the Period, of the 1,148 patients, 631 were female and 517 were male.

Race/Ethnicity

As discussed in folder/document “Section 9(a)_ Services Provided Currently and Post Transaction” submitted with the MCN, many patients do not provide information regarding their race/ethnicity and for the Period there is no data available for SCLB. As a general matter, the majority of patients providing such information identify as either non-Hispanic or

Hispanic/Latino, and the ASCs also serve patients identifying as American Indian or Alaska Native, Asian, Black or African American, and Native Hawaiian or other Pacific Islander.

Languages Spoken

For the Period, English is the dominant language with a several patients reporting other languages including Spanish, Cambodian, Chinese, Korean, and Vietnamese as follows:

Language	Patient Count	Percentage
English	1,114	97.0%
Spanish	24	2.1%
Cambodian	2	0.2%
Chinese	1	0.1%
Korean	1	0.1%
Vietnamese	1	0.1%
None Reported	~5	0.4%

Payor Mix

For the Period, the payor mix includes primarily Medicare/Medicare Advantage Plans and commercial insurance, along with some Medicaid and managed Medicaid programs, TRICARE and self-pay arrangements.

Section 6: Description of the Transaction

Commons Clinic MSO CA, LLC, a California limited liability company (“Commons MSO”) and Commons Clinic Medical Network, P.C., a California physician-owned professional corporation, (“CCMN,” and together with Commons MSO, “Buyer”) will acquire from Long Beach NSC, LLC, a Tennessee limited liability company and an affiliate of AmSurg Holdings, LLC (“Seller”), 100% of Seller’s partnership interests in Long Beach Surgery Center, L.P., a California limited partnership that owns and operates Long Beach Surgery Center, an ambulatory surgery center (“ASC”) located at 2880 Atlantic Avenue, Suite 160, Long Beach, California (“SCLB”).

. The physician transactions are ancillary to Buyer’s acquisition of the Purchased Interests and are expected to close contemporaneously or in close proximity to the closing of Buyer’s acquisition, subject to customary conditions.

The proposed transaction is necessary to prevent the imminent closure of SCLB resulting from SCLB’s financial instability and an expiring facility lease in April, which would otherwise reduce access for community members and potentially increase cost of care by pushing ambulatory surgical cases to higher-cost hospital settings. By preserving and stabilizing SCLB, the transaction is expected to maintain and expand access to outpatient surgical care for commercially insured, Medicare, and Medi-Cal beneficiaries in the Long Beach and surrounding South Bay communities (including Lakewood, Seal Beach, Cerritos, and Garden Grove) and increase affordability by keeping appropriate procedures in a lower-cost ASC setting, with no negative impact upon the availability/accessibility or quality of health care services. Buyer intends to re-establish consistent

operating room block schedules, restore five-day-per-week operations as volumes return, and continue acceptance of Medi-Cal and Medicare beneficiaries with no planned restrictions.

Post-transaction, Buyer will maintain existing service lines at SCLB—including orthopedics, total joint replacement, ophthalmology, and ENT—and focus on restoring utilization and access within SCLB’s existing licensed and regulatory scope. There are no anticipated changes to services provided, leadership, or clinical or administrative staffing as a result of the transaction; and any enhancements will occur within current licensure and are intended to increase access and utilization without altering SCLB’s scope of services.

The acquisition will not negatively affect patient choice or competition in the local market but, rather, it is expected to preserve and expand lower-cost ambulatory capacity in Los Angeles County. Buyer currently operates outpatient clinics and holds a majority interest in Marina Orthopedic & Spine Institute (“MOSI”), and has no existing ASC in Long Beach. Commons MSO’s entry as a new ASC operator in Long Beach is expected to increase competition and patient choice locally. At the California market level, the transaction has no impact on business line concentration or competition; and it will not lessen competition, create a monopoly, or entrench or extend the dominant market position of any health care entity.

Governance and operational control of SCLB will transition from Seller to Buyer upon closing in accordance with the Purchase Agreement, with Buyer becoming the sole general partner. Commons MSO will enter into a management services agreement with SCLB at closing, and Seller will provide limited transition services under a transition services agreement to ensure continuity of operations. No adverse workforce impacts are anticipated; existing employees are expected to maintain their roles and employee protections, with incremental hiring anticipated as volumes stabilize and expand. No changes are contemplated to physician clinical autonomy, medical decision-making, or professional governance at the facility level; and no city or county contracts for health services are implicated by the transaction.

There are no anticipated changes in SCLB’s ASC licensure other than ownership changes contemplated by the proposed transaction; SCLB’s existing licenses, certifications, and payor enrollments will continue without interruption; and no changes are required to the licensed services or scope of practice. As a condition to closing, the Purchase Agreement provides for customary regulatory approvals, renewals, and confirmations, and for the renewal of the facility lease for the SCLB premises.

As noted above, Commons MSO has previously expanded ambulatory surgical capacity in the Los Angeles region through its March 25, 2024 acquisition of majority interests in MOSI in Marina del Rey, which increased regional access to ambulatory orthopedic, joint replacement, and spine procedures. The SCLB acquisition is a continuation of this outpatient expansion strategy, oriented toward preserving access, improving quality, and lowering total cost of care by shifting appropriate procedures into high-quality, community-based ASC settings.
