

Health Plan not seeing Reductions in Drug Pricing

- In 2012, Sanofi's patent on Eloxatin expired resulting in a 99% decrease in the amount Medicare reimburses for it
- In 2023, UHH paid for 12 infusions of Eloxatin for a patient at Salinas Valley Health
 - **Medicare would've paid \$185 – UHH paid \$89,317**
 - On average UHH paid 180 times the Medicare rate
