7-125. Final review of construction documents.

(a) Final construction documents shall be submitted in accordance with Section 107, Part 2, Title 24. Final construction documents that are incomplete shall be returned to the applicant for completion prior to acceptance by the Office for plan review.

(b) Local government entity zoning approvals or clearances shall be furnished to the Office, when applicable, prior to approval of the final construction documents by the Office.

(c) When the Office finds items on the final construction documents that do not comply with these regulations and/or applicable sections of the *California Building Standards Code*, the noncomplying items shall be noted in writing with a proper code citation. The marked-up set of construction documents will be returned to the architect or engineer in responsible charge. A set of prints from corrected construction documents shall be filed for backcheck when the original check or subsequent backchecks(s) indicates that extensive changes are necessary. Where necessary corrections are of a minor nature, corrected original construction documents may be filed for backcheck. The architect or engineer in responsible charge must provide a written response to all comments made by the Office. The written response must include a description and a location of the corrections made to the construction documents. The written response may be provided as a letter, or may be provided as responses written directly on the marked-up set of drawings. Changes in construction documents, other than changes necessary for correction, made after submission for approval, shall be brought to the attention of the Office in writing or by submission of revised construction documents identifying those changes. Failure to give such notice voids any subsequent approval given to the construction documents.

(d) The Office's approval of the final construction documents shall be in accordance with Section 107.3.1, Part 2, Title 24.

(e) **Changes in scope.** Changes to the scope of the original project shall be required to be submitted as a separate project.

Exception: At the discretion of the Office, changes in scope may be allowed in the original project. The Office may require the documents to be reviewed as an examination subject to fees required by Section 7-133(q)(3).
