

Train New Trainers

Primary Care -Training and Education in Addiction Medicine (PC-TEAM)

One-Year Fellowship Training

Innovative and Targeted Training to Optimize the Treatment of Substance Use Disorders

Who Benefits?

The program is designed for primary care providers working in Internal medicine, Family medicine, Emergency medicine, Pediatrics, or Neurology. Past fellows have included MD, DOs, NPs, and PAs.

Curriculum

The following is an outline of the curriculum, developed by the UCI School of Medicine Train New Trainers PC-TEAM faculty. The Fellowship includes more than 45 required hours of training and results in a certificate of completion from UCI School of Medicine:

- Two in-person teaching conferences (approximately 25 CME hours)
- Live, case-based discussions with a focus on primary care pain and addiction-related disorders and treatments twice a month (at least 20 CME hours)

- Monthly small group mentorship sessions with a PC-TEAM faculty mentor
- Complimentary lifelong learning for TNT PC-TEAM Alumni

Goals of PC-TEAM Fellowship

Trainees will learn:

- How to complete an evidence-based substance use screening in busy primary care or other general medical settings.
- How to effectively prevent, diagnose, and treat commonly encountered substance use and pain-related disorders (e.g., opioids, alcohol, stimulants, and benzodiazepines).
- How to teach these principles to their primary care colleagues

Tuition

\$15,500 per fellow OR applicant may be eligible for a full scholarship. Upon acceptance to the TNT PC-TEAM Program, a scholarship application will be sent with instructions for completion and submission for consideration by the Department of Health Care Access and Information (HCAI).

This is not a traditional or Accreditation Council for Graduate Medical Education (ACGME) approved fellowship.

Department of Health Care Access and Information (HCAI) Scholarship

You must meet the minimum requirements to be considered:

- Be currently employed or have accepted employment as a primary care provider (MD, DO, NP, PA) in the following specialties: family medicine, internal medicine, OB/GYN, or pediatrics
- Work at a qualifying practice site in a Federally Qualified Health Center/lookalike, Health Professional Shortage Area – Primary Care (HPSA-PC) or Primary Care Shortage Area (PCSA) in California
- Work at a practice site with at least 50 percent of patients from a medically underserved population (Medi-Cal, uninsured, or beneficiaries of another publicly funded program that serves patients who earn less than 250 percent of the federal poverty level)
- Currently, serve or plan on serving children and youth 25 years of age or younger
