- 1. In order to be considered complete, the report must be correctly filled out in accordance with the instructions herein and in conformance with the definitions of the account descriptions contained in this Manual.
- 2. All amounts shall be reported to the nearest dollar. Rounding amounts to the nearest ten, hundred, or thousand is not acceptable.
- 3. A hospital that receives the preponderance of its revenue from associated comprehensive group practice prepayment health care service plans and that is operated as a unit of a coordinated group of health facilities under common management may provide financial data for lines 1000 through 1170 on a group basis.

#### DETAILED INSTRUCTIONS FOR COMPLETING QUARTERLY REPORT

8200

(Rev. 12/31/20237/15/20249/2/2025)

- 1. SIERA will enter the name of the person completing the report, that person's phone number, fax number and e-mail address in items 6 and 7 based on the information submitted to the Office in SIERA. This person will be contacted by the Office if there are any questions about the report. If data in items 6, or 7 are incorrect, enter the correct information.
- 2. SIERA will enter the name of the chief executive officer (administrator) and the hospital's main business phone number in items 8 and 9. If the data in these items are incorrect, enter the correct information.
- 3. SIERA will enter the complete phone number of the hospital's disaster coordinator in item 10. If the data in item 10 is incorrect, enter the correct phone number. This individual is responsible for coordinating the hospital's disaster preparedness programs.
- 4. For lines 25 through 9001170, enter the appropriate financial and utilization data pertaining to the quarter being reported.

#### ACCOUNTING AND REPORTING MANUAL FOR CALIFORNIA HOSPITALS

#### **QUARTERLY REPORTING REQUIREMENTS**

NOTE: If you have been granted permission to file a quarterly report based on your 13-period accounting cycle, be sure that utilization data are also provided for the same reporting period.

- 5. Enter on line 25 the number of licensed beds (excluding bassinets) stated on the facility license as of the last day of the reporting period. Do not include licensed beds placed in suspense.
- 6. Enter on line 30 the average number of available beds (excluding bassinets) during the reporting period. Available beds are defined as the daily average complement of beds physically existing and actually available for overnight use, regardless of staffing levels. Do <u>not</u> include beds placed in suspense or in nursing units converted to uses other than inpatient overnight accommodations which cannot be placed back into service within 24 hours.

The number of available beds may be and often is less than the number licensed. On occasion, such as pending license application for a new inpatient service or when placing licensed beds into suspense, the average number of available beds for the reporting period may exceed the number of licensed beds at the end of the reporting period.

- 7. Enter on line 35 the daily average complement of beds fully staffed (excluding bassinets) during the quarter. Staffed beds are those beds set up, staffed, equipped and in all respects ready for use by patients remaining in the hospital overnight. The number of staffed beds is usually less than the number of available beds, since hospitals typically staff for those beds currently occupied by inpatients, plus an increment for unanticipated admissions.
- 8. Enter on lines 50 through 95 by payor (Medicare Traditional, Medicare Managed Care, Medi-Cal Traditional, Medi-Cal Managed Care, County Indigent Programs Traditional, County Indigent Programs Managed Care, Other Third Parties Traditional, Other Third Parties Managed Care, Other Indigent, and Other Payors) the number of hospital discharges from all Daily Hospital Services cost centers, including Long-Term Care (LTC) patients discharged during the reporting period. SIERA will enter on line 100 the sum of lines 50 through 95. These are the total number of discharges as defined in Section 4120 of the Manual. Do not include nursery patients discharged from the nursery.

Discharges are to be reported by primary payor, or that payor who is responsible for the predominant portion of the patient's bill. The primary payor may be different than the expected source of

### **QUARTERLY REPORTING REQUIREMENTS**

payment at the time of discharge. Do not allocate discharges by payor based on the ratio of patient (census) days or gross inpatient revenue.

See Section 4120 of the Manual for more information on the definition of a hospital discharge.

NOTE: Managed care patients are patients enrolled in a managed care plan to receive health care from providers on a pre-negotiated or per diem basis, usually involving utilization review (includes Health Maintenance Organizations, Health Maintenance Organizations with Point-of-Service option (POS), Preferred Provider Organizations, Exclusive Provider Organizations, Exclusive Provider Organizations with Point-of-Service option, etc.).

The <u>Medicare - Traditional</u> category includes patients covered under the Social Security Amendments of 1965. These patients are primarily the aged and needy.

The <u>Medicare - Managed Care</u> category includes patients covered by a managed care plan funded by Medicare.

The <u>Medi-Cal - Traditional</u> category includes patients who are qualified as needy under state laws.

The <u>Medi-Cal - Managed Care</u> category includes patients covered by a managed care plan funded by Medi-Cal.

The County Indigent Programs - Traditional category includes indigent patients covered under Welfare and Institution Code Section 17000. Also included are patients paid for in whole or in part by the County Medical Services Program (CMSP), California Health Care for Indigent Program (CHIP or tobacco tax funds), and other funding sources whether or not a bill is rendered. This category also includes indigent patients who are provided care in county hospitals, or in certain non-county hospitals where no county-operated hospital exists, whether or not a bill is rendered.

The <u>County Indigent Programs - Managed Care</u> category includes indigent patients covered under Welfare and Institution Code Section 17000 and are covered by a managed care plan funded by a county.

The Other Third Parties - Traditional category includes all other forms of health coverage excluding managed care plans. Examples include Short-Doyle, Tricare (CHAMPUS), IRCA/SLIAG, Children's Medical Services, indemnity plans, fee-for-service

#### **QUARTERLY REPORTING REQUIREMENTS**

plans, and Workers' Compensation. Children's Medical Services includes the following state programs: California Children's Services (CCS), Child Health Disability Prevention (CHDP), Genetically Handicapped Persons Program (GHPP), Newborn Hearing Screening Program, and Medically Vulnerable Infant Program (MVIP).

The Other Third Parties - Managed Care category includes patients covered by managed care plans other than those funded by Medicare, Medi-Cal, or a county. Include patients covered by the Healthy Families Program.

The Other Indigent category includes indigent patients, excluding those who are recorded in the County Indigent Programs category and including those who are being provided charity care by the hospital and U.C. teaching hospital patients who are provided care with Support for Clinical Teaching funds.

The <u>Other Payors</u> category includes all patients who do not belong in the categories listed above, such as those designated as self-pay.

- 9. Enter LTC Discharges for the reporting period on line 105. This is an optional item. Hospitals which provide skilled nursing care, intermediate care, transitional inpatient care (SNF Beds), sub-acute care, and other long-term care services are encouraged to report LTC Discharges so that comparable average lengths of stay can be calculated. LTC also includes skilled nursing care provided in swing beds.
- 10. Enter on lines 150 through 195 the number of census patient days by payor for all Daily Hospital Services cost centers, including LTC patient (census) days, for the reporting period. Count the day of formal admission, but not the day of discharge as a patient (census) day. Count as one day, each patient formally admitted and discharged on the same day. Do not include nursery days or purchased inpatient days. Do not allocate patient (census) days by payor based on the ratio of discharges or gross inpatient revenue. On line 200, SIERA will enter the sum of lines 150 through 195.
- 11. Enter LTC Patient (Census) Days for the reporting period on line 205. This is an optional item. Hospitals which provide long-term care services, as defined in step 13, and reported LTC Discharges on line 105, are encouraged to report this item.
- 12. Enter on lines 250 through 295 the number of outpatient visits by payor for the reporting period. Section 4130 of the Manual provides detailed definitions for all outpatient visits. Do not

#### ACCOUNTING AND REPORTING MANUAL FOR CALIFORNIA HOSPITALS

#### **QUARTERLY REPORTING REQUIREMENTS**

include purchased outpatient visits. Please refer to Section 4130 to assure that all outpatient visit information is being properly recorded and reported.

- 13. Enter Gross Inpatient Revenue by payor on lines 350 through 395. These amounts are the total inpatient charges, including PPC charges, at the hospital's full established rates for services rendered and goods sold to inpatients during the reporting period. It includes daily hospital services, inpatient ambulatory services, and inpatient ancillary services. The amounts reported by payor are to be from either the general ledger or payor logs, whichever provides the most accurate data related to the primary payor. SIERA will enter the sum of lines 350 through 395 on line 400.
- 14. Enter Gross Outpatient Revenue by payor on lines 450 through 495. These amounts are the total outpatient charges, including PPC charges, at the hospital's full established rates for services rendered and goods sold to outpatients during the reporting period. It includes outpatient ambulatory services and outpatient ancillary services. The amounts reported by payor are to be from either the general ledger or payor logs, whichever provides the most accurate data related to the primary payor. On line 500, SIERA will enter the sum of lines 450 through 495.
- 15. Enter the various component amounts of the hospital's Deductions from Revenue for the reporting period on lines 545 through 615. Enter components of deductions from revenue with credit balances as negative amounts. Briefly explain in the Comments feature provided by SIERA why a credit balance appears. Complete lines 545 through 615 as follows:
  - a. Enter Provision for Bad Debts, net of bad debt recoveries, on line 545.
  - b. Enter Medicare Traditional contractual adjustments on line 550
  - c. Enter Medicare Managed Care contractual adjustments on line 555.
  - d. Enter Medi-Cal Traditional contractual adjustments on line 560.
  - e. Enter Medi-Cal Managed Care contractual adjustments on line 565.
  - f. Enter Disproportionate Share payment adjustments related to Medi-Cal inpatients on line 566. Retroactive Disproportionate Share payments related to prior payment years are to be reported on line 840 as non-operating revenue.
  - g. Enter County Indigent Programs Traditional contractual adjustments on line 570.

#### ACCOUNTING AND REPORTING MANUAL FOR CALIFORNIA HOSPITALS

### **QUARTERLY REPORTING REQUIREMENTS**

- h. Enter County Indigent Programs Managed Care contractual adjustments on line 575.
- i. Enter Other Third Parties Traditional contractual adjustments on line 580.
- j. Enter Other Third Parties Managed Care contractual adjustments on line 585. Report capitation premium revenue separately on lines 650 through 680.
- k. Enter Charity Hill-Burton amounts on line 590.
- 1. Enter Charity Other amounts on line 595.
- m. Enter Restricted Donations and Subsidies for Indigent Care on line 600.

County hospitals are to report Realignment Funds that do not relate directly to patient care on line 840, Non-Operating Revenue Net of Non-Operating Expenses. Realignment Funds used for specific patients are to be credited against their accounts receivable. Realignment Funds that are used for direct patient care, but not for specific patients, are to be reported on line 570, County Indigent Programs - Traditional contractual adjustments. In essence, these last two entries reduce the County Indigent Programs - Traditional contractual adjustments account.

- n. U.C. teaching hospitals are to enter Teaching Allowances and Support for Clinical Teaching on lines 605 and 610.
- o. Enter on line 615 policy discounts, administrative adjustments, and other adjustments and allowances, not specified above.

SIERA will enter the sum of lines 545 through 615 on line 620. This is the sum of all deductions from revenue, net of Disproportionate Share Payments, line 566; Restricted Donations and Subsidies for Indigent Care, line 600; and Support for Clinical Teaching, line 610.

Deductions from revenue must be matched against related gross patient revenue within each quarterly reporting period. Most contractual arrangements with purchasers of health care services allow for the reasonable estimation and recording of deductions from revenue when the contractual purchaser is billed. To record deductions from revenue when claims are paid results in a mismatching of deductions from revenue and gross patient revenue, unless payments for such claims are received within the same reporting period. Prior period cost settlements are to be recorded and reported in the reporting period in which they are paid or received.

#### ACCOUNTING AND REPORTING MANUAL FOR CALIFORNIA HOSPITALS

#### **QUARTERLY REPORTING REQUIREMENTS**

Refer to Sections 1400 and 2410.5 of the Manual for more information regarding Charity Care and definitions of the components of deductions from revenue.

- 16. Enter Capitation Premium Revenue by payor on lines 650 through 680. SIERA will enter the sum of lines 650 through 680 on line 700.
- 17. Enter Net Patient Revenue by payor on lines 750 through 795. Net patient revenue by payor is defined as gross inpatient revenue plus gross outpatient revenue plus capitation premium revenue minus related deductions from revenue. When entering Net Patient Revenue by payor, be sure to apply related bad debts and charity care to that payor category. SIERA will enter on line 800 the sum of lines 750 through 795. Total Net Patient Revenue on line 800 must also equal line 400 plus line 500 plus line 700 minus line 620.
- 18. Enter Other Operating Revenue on line 810. This amount represents revenue related to health care operations, but not from patient care services. Examples include non-patient food sales, rebates and refunds, purchase discounts, supplies and drugs sold to non-patients, Medical Records abstract sales, and Reinsurance Recoveries. Section 2410.4 of the Manual provides a detailed list and descriptions of Other Operating Revenue accounts.
- 19. Enter Total Operating Expenses on line 830. This amount consists of all operating expenses incurred by the hospital for the reporting period accrued to the end of the reporting period. This includes daily hospital services, ambulatory services, ancillary services, purchased inpatient services, purchased outpatient services, research, education, general services, fiscal services, administrative service, and other unassigned costs. If the physicians' professional component (all amounts paid to hospital-based physicians and residents for patient care) is recorded as an expense, it must be included in this amount. Non-operating expenses and provisions for income taxes are excluded. Do not reduce operating expenses by Other Operating Revenue.
- 20. Enter Depreciation and Amortization Expense from Operations on line 833. This should be the total for subclassifications .71, .72, .73, and .74 for Operating Expense Accounts.
  - See Section 2420.4 through 2420.9 of the Manual for a detailed description of Operating Expense Accounts, and Section 2440.6 for a list of Depreciation and Amortization Expense Classifications.

#### **QUARTERLY REPORTING REQUIREMENTS**

- 2021. Line 835, Physicians' Professional Component Expenses, is an optional reporting item. However, hospitals are encouraged to report this amount as it will allow a better indication of the change in Total Operating Expenses. Enter on line 835 the physicians' professional component (PPC) expenses included in the physicians' total compensation. This includes all amounts paid or to be paid to hospital-based physicians and residents for patient care and recorded as an expense of the hospital for the reporting period.
- 2122. Enter Non-operating Revenue Net of Non-operating Expenses on line 840. If non-operating expenses are greater than non-operating revenue, enter the amount as a negative number (with brackets). Non-operating items are those revenue and expenses that do not relate directly to the provision of health care services. Examples include gains and losses on the disposal of assets; income, gains and losses from unrestricted investments; revenue and expenses associated with Medical Office Buildings; and various governmental assessments, taxes (excluding income taxes), and appropriations.
  - See Section 2420.10 of the Manual for a detailed list and descriptions of Non-Operating Revenue and Expense accounts.
- 2223. On lines 850 through 860, enter the discharges, patient (census) days, and expenses associated with Purchased Inpatient Services. These are optional data items. Purchased Inpatient Services expenses are incurred by the purchasing hospital when inpatient services, including ancillary services, are provided by another hospital for patients who are the responsibility of the purchasing hospital. The patients are <u>not</u> formally admitted as inpatients to the purchasing hospital, but are admitted to the hospital providing the inpatient services. This situation may arise due to managed care contract requirements or the lack of appropriate medical technology at the facility purchasing the services. See Section 1250 of the Manual for additional information.
- 23.24. On line 870, enter the outpatient expenses associated with Purchased Outpatient Services. This is an optional item. Purchased Outpatient Services expenses are incurred by the purchasing hospital when outpatient services are provided by another hospital for patients who are the responsibility of the purchasing hospital. The patients are not registered as outpatients of the purchasing hospital, but are registered outpatients of the hospital providing the outpatient services. This situation may arise due to managed care contract requirements or the lack of appropriate medical technology at the facility purchasing the
