

1/1/2024 Seismic Compliance Deadline

Ali Sumer

Supervisor, Seismic Compliance Unit

November 16, 2023

1

SUMMARY

Seismic compliance documents/applications required to be submitted to HCAI/OSHPD by 1/1/2024:

NPC Related

- NPC 3 compliance construction final document *[If GAC building is NPC 2 and located in SDC F site]*
- NPC 4D Evaluation report including Operational Plan *[If GAC building NPC target is not NPC 4]*
- NPC 4 Evaluation report *[If GAC building NPC target is not NPC 4D]*
- NPC 5 Evaluation report including 72hr fuel evaluation and Water Rationing Plan *[All GAC Buildings]*
- Letter of Intent stating GAC services in the building will be removed by 1/1/2030 *[For GAC buildings planned to be removed from GAC services by 1/1/2030]*

AB 1882 related

- Licensed GAC Services Reporting Application *[All buildings under HCAI jurisdiction]*
- Signage Application *[All GAC Buildings]*

Facility Seismic Design Parameters for Existing Buildings

ASCE 7-16 Tsunami Design not required

AB 2190 Quarterly Report

SPC = Structural Performance Category
NPC = Nonstructural Performance Category
SPC and NPC are applicable to Hospital Buildings only
Its 4s and 5s indicate SPC/NPC rating self-reported by the hospital and not verified by CDEHP

Risk Bld = Risk Based SB 90 extension
Fin Bldg = Financial Hardship based SB 90 extension
Com Acc = Community Access based SB 90 extension
GAC = General Acute Care
RAC = Removal Acute Care Services

Retrofit = Building will be retrofitted
Relocate = GAC services will be moved to new buildings
Replace = GAC services will be moved to existing SPC 2 or higher buildings
Remove = GAC services will be removed from building
COOP = Certificate of Occupancy/Certificate of Substantial Compliance
Construction Final: indicia terms of extension have been met.

1. See California Administrative Code, Chapter 1, Section 1.2.2.
2. By January 1, 2024, the hospital owner shall submit to the Office a complete nonstructural evaluation up to NPC 4 or 4D and NPC 5, for each building.
3. By January 1, 2025, the hospital owner shall submit to the Office construction documents for NPC 4 or 4D and NPC 5 compliance that are deemed ready for review by the Office, for each building that will continue to provide acute care services beyond January 1, 2025.
4. By January 1, 2025, the hospital owner shall obtain a building permit to begin construction, for NPC 4 or 4D and NPC 5 compliance of each building that the owner intends to use as a general acute care hospital building after January 1, 2025.

To download building data, select this page by clicking on the facility name at the top. Then use the "Download Data" option in the toolbar below.

The screenshot shows the HCAI website's navigation menu on the left, with 'Seismic Compliance and Safety' highlighted. The main content area features a 'Program Overview' section for Seismic Compliance and Safety, followed by a grid of nine informational cards. A large red arrow points to the 'Apply for Seismic Compliance Projects' card. The cards include: 'Apply for Seismic Compliance Projects', 'Apply for Seismic Compliance Extensions', 'FAQ's', 'Changes to Seismic Safety Law', 'Structural Performance Categories (SPC)', 'Non-Structural Performance Categories (NPC)', 'Emergency Response Operations', 'Contact Us', and 'Additional Resources'. The HCAI logo is visible in the bottom right corner.

15

This slide provides a detailed view of the 'Apply for Seismic Compliance Projects' card, which is highlighted with a red dashed border. The card contains the following text: 'Apply for Seismic Compliance Projects', 'Learn about the Seismic Compliance Unit (SCU) application process.', a 'LEARN MORE' button, and a link to 'SEISMIC COMPLIANCE FAQ'S'. Other cards visible include 'Apply for Seismic Compliance Extensions', 'FAQ's', 'Changes to Seismic Safety Law', 'Structural Performance Categories (SPC)', 'Non-Structural Performance Categories (NPC)', 'Emergency Response Operations', 'Contact Us', and 'Additional Resources'. The HCAI logo is in the bottom right corner.

16

Pre OSA, OSA*, OSHPD buildings

- Before 1973 Constructed under local jurisdiction, pre-OSA buildings
 [Non-conforming building]

- 1973 – ~1982 OSA permitted buildings (Hxxxx permit)
- ~1982 – 1996 OSHPD permitted (Fire sprinkler limited evaluation required)
 (April 30, 1996 project submittal date)
- 1996 – Today OSHPD permitted (SPC 5, NPC 4/5)

* Reviewed and approved by the Department of General Services, Office of Architecture and Construction, Structural Safety Section.

See 2022 California Administrative Code Chapter 6 Section 11.2

17

NPC Deadlines

18

NPC Compliance Timeframe

- For any general acute care hospital be use as a GAC hospital building after January 1, 2030:
 - **By January 1, 2024**, submit to the Office a complete nonstructural evaluation for each building up to NPC-4 / NPC-4D and NPC 5.
 - **By January 1, 2026**, submit to the Office construction documents ready for review by the Office.

19

NPC Compliance Timeframe

- For any general acute care hospital be use as a GAC hospital building after January 1, 2030:
 - **By January 1, 2028**, obtain a building permit to begin construction. Hospitals not meeting this deadline shall not be issued a building permit except for:
 - Seismic compliance
 - Maintenance
 - Emergency repairs
 See exceptions in 2022 CAC Chapter 6 Section 1.5.2.
 - **By January 1, 2030**, the GAC building shall achieve NPC-5 rating

20

NPC 3 Compliance Deadlines

Seismic Design Category D – January 1, 2030 (high seismic area)

Seismic Design Category F – January 1, 2024 (very high seismic area)

Out of 1808 NPC 2 buildings, there are 52 NPC 2 buildings with Seismic Design Category F deadline (as of 11/16/2023)

(See 2022 CAC Chapter 6 Table 11.1)

What about buildings that will no longer provide acute care services beyond 2030?

Removing GAC Post-2030

NPC permitted to remain at NPC-2 till 1/1/2030 if:

- By **January 1, 2024**, the hospital owner shall submit to the Office an updated [seismic compliance plan](#) for each building to be removed from acute care service beyond January 1, 2030

Submit an application to Seismic Compliance Unit with a Letter of Intent stating GAC services in the building will be removed by 1/1/2030.

By January 1, 2026, a RACS construction project submittal is expected.

- By **January 1, 2028**: Buildings have been removed from general acute care service, or have projects to remove the building from acute care services by 2030.

23

NPC 4D

24

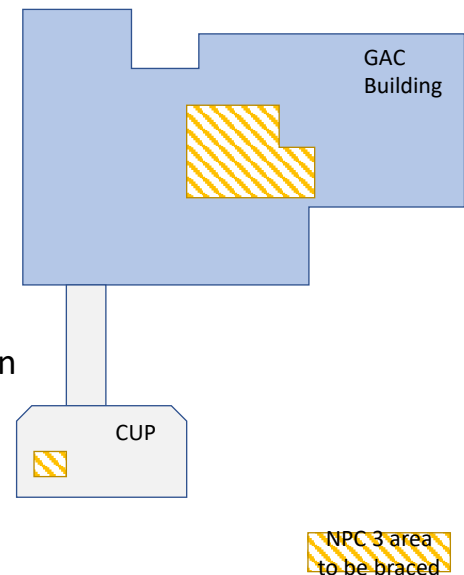

NPC 4D

- See 2022 California Administrative Code Chapter 6, Section 11.2.3
- The building meets the criteria for NPC “3” and for systems listed in Levels 1 to 3, meets the bracing and anchorage requirements of Part 2, Title 24
- There are three levels:
 - NPC 4D Level 1
 - NPC 4D Level 2
 - NPC 4D Level 3
- For Level 1, 2 or 3 : **Operational Plan is required by 1/1/2024.**

25

NPC 4D – Level 1

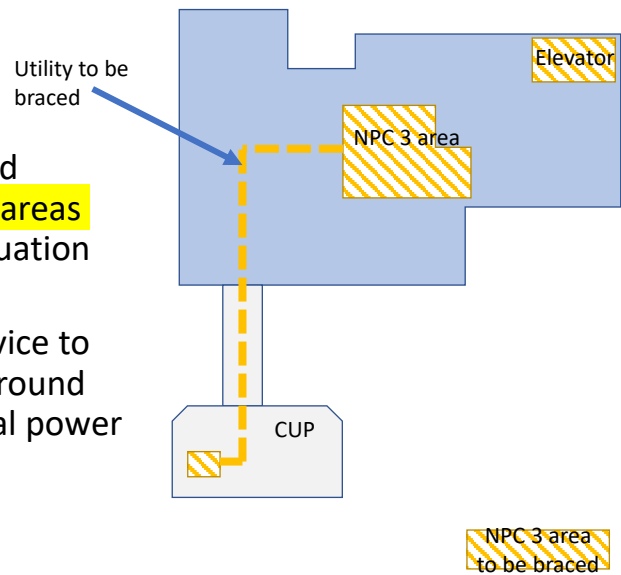

- Level 1 is the minimum requirement.
(Level 2 and 3 are optional)
- Level 1 is essentially NPC 3 + Operational Plan
- Equipment as listed in the 1995 CBC Table 16A-0, including equipment in the physical plant that service these areas.

26

NPC 4D – Level 2

- Includes Level 1 and all services and utilities **from the source to Level 1 areas** necessary to accommodate continuation of operations after an event.
- Elevator(s) selected to provide service to patient, surgical, obstetrical, and ground floors during interruption of normal power needed, to meet the structural requirements of Part 2, Title 24.
- Operational Plan

27

NPC 4D – Level 3

- Level 3 includes Level 2, and all systems and equipment are anchored and braced so that additional services, as determined by the hospital in its Operational Plan, are functional and available to the public after a seismic event.

28

NPC 4D Operational Plan

- The facility must prepare an **owner-approved** Operational Plan specifying how it will repair nonstructural damage and bring systems and services back online, or provide them in an **alternative manner** to accommodate continuation of critical care operations.
- This plan may include any other units or departments that hospitals may wish to keep operational for a minimum of 72 hours after a seismic event or other natural or human-made disaster.
- The Operational Plan shall be filed with the Office and shall include an executive summary, a detailed narrative of management of utilities, provisions, sustainability, and alternate means.
- Operational Plan document will be published on HCAI website

NPC 4D Operational Plan

Question: Does the NPC 4D evaluation have to include the operational plan by 1/1/2024? Can we submit it later?

Answer: Operational plan is critical part of NPC 4D evaluation, required by 2022 CAC Chapter 6 Section 11.2.3 item (f) by **1/1/2024**

31

NPC 4

- Submit NPC 4 application to Seismic Compliance Unit by 1/1/2024
- Brace/evaluate all architectural, equipment etc. per CAC Chapter 6 Table 11.1]
- NPC 3 areas - exceptions don't apply.
- If project already has OSHPD project # (closed in compliance), no re-evaluation of the OSHPD project scope components required.
- **No operational plan required**

32 HCAI
Department of Health Care
Access and Information

32

FAQ

Question: We submitted NPC 4 evaluation already. After the 1/1/2024 deadline, can we change it NPC 4D?

Answer: Yes. Please submit an NPC 4D evaluation. The scope of construction project will need to be revised once NPC 4D evaluation is approved (by 1/1/2026 construction document submittal).

Similarly, NPC 4D evaluation can be changed to NPC 4 after the deadline.

33

NPC 5

34

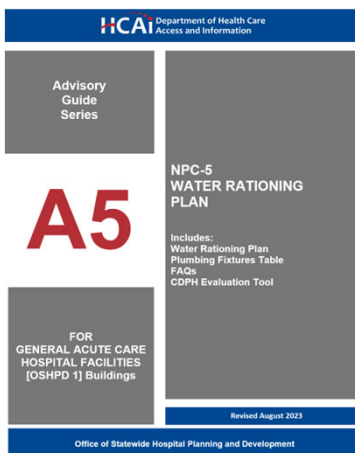

NPC 5 Compliance by 2030

- **An NPC-5-compliant Hospital Facility is capable to support 72 hours of emergency operations during widespread damage caused by a Major EQ.**
- What does being reasonably capable of providing services to the public after a disaster mean?
 - Water storage/water conservation plan
 - Waste water storage
 - Fuel storage for emergency generator(s)
 - Utilities and systems anchored and braced

35

NPC-5 Water Rationing Plan Guide - Update

- *Latest update: August 2023.*
 - *NO NEW REQUIREMENTS*
 - *FAQ is added*
 - *CDPH internal checklist is added*
 - *Industrial water for temperature control*
 - *Summary tables improved*
 - *Minor editorial*

36

FAQ

Question: We submitted NPC 5 evaluation already. After the 1/1/2024 deadline, can we reduce the water tank size with further analysis? For example reducing the water tank size from 20,000 gallon to 10,000 gallon?

Answer: Yes. Submit a revised NPC 5 evaluation. The scope of construction project needs to be revised to approved NPC 5 evaluation (by 1/1/2026 construction document submittal).

37

FAQ

Question: Is NPC 5 submittal facility wide? Or is it building by building?

Answer: NPC 5 is building by building rating, not facility wide. One NPC 5 application for each building is required. We recommend the following process to expedite document submittal and review:

- 1) Submit one facility wide NPC 5 report, clearly listing all GAC building numbers (including non-water buildings such as canopies etc.)
- 2) In the application email, please request to open a NPC 5 project number for each building (if there are 20 buildings, 20 applications will be created for you).
- 3) Same NPC 5 report will be copied under each building application.

The reason for one application for each building: Later in the review, few buildings may get comments, few other may get approved, few may have to wait construction etc.

38

39

What is AB 1882?

AB 1882 seeks to raise the awareness of a general acute care hospital's compliance with the seismic safety regulations or standards outlined in the Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1983 (HFSSA) through:

- 1) Seismic information on HCAI website (Effective 1/1/23)
- 2) Seismic information on project documentation (Effective 1/1/23)
- 3) Updating Emergency Training, Response, and Recovery Plans, Capital Outlay Plans (Effective 7/1/23)
- 4) Annual status updates, reporting services in each building (Deadline 1/1/24, then annual)
- 5) Facility wide signage/notice showing seismic rating (Deadline 1/1/24)

until seismic compliance is achieved

40 HCAI
Department of Health Care
Access and Information

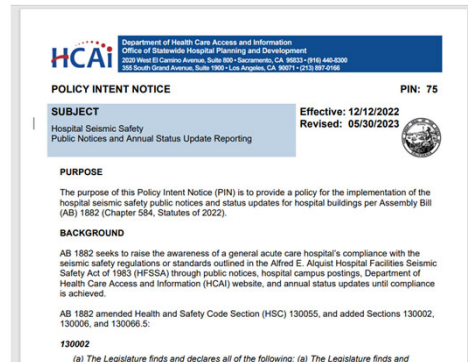

40

AB 1882 Implementation

PIN 75 Hospital Seismic Safety Public Notices and Annual Status Update Reporting:

- Provides the policy for the implementation of AB1882
- Published on HCAI website: [Codes and Regulations – HCAI](#)
- Published 12/12/2022
- Revised 5/30/2023

PIN 75 requirements are in 2022 California Administrative Code [intervening code cycle] (publication date 1/1/2024)

41

AB1882: Annual Status Reporting (Deadline 1/1/2024, then annual)

What is to be reported?

On or before January 1, 2024, and annually thereafter, the owner of an acute care inpatient hospital that includes a general acute care building that is not SPC-3/NPC-5, SPC-4D/NPC-5, SPC-4/NPC-5, or SPC-5/NPC-5 shall provide an annual status update on the **Structural Performance Category ratings** of the buildings and **the services** provided in each hospital building on the hospital campus

42

AB1882: Application Process

AB1882 Service Reporting – Follow the user guide

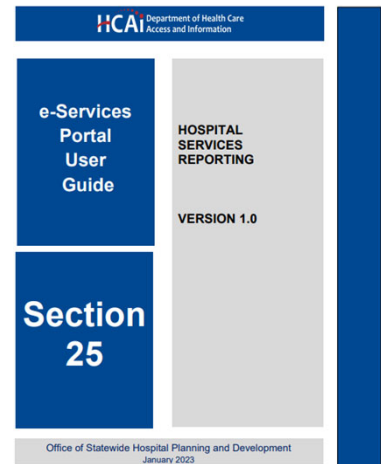

- One application per facility (no \$250 fee)
- Please follow eSP user guide 25 on the HCAI website
- [Hospital Services Reporting](#)
- Multiple buildings listed on the same application

Project number examples:

GACSERV-2023-00030

GACSERV-2023-00035

GACSERV-2023-00121

43

AB1882: Annual Status Reporting (By 1/1/2024)

Where else is it required to be reported?

Reporting to be submitted to all of the following entities (submitted by the facility):

- 1) The county board of supervisors in whose jurisdiction the hospital building is located.
- 2) The city council in whose jurisdiction the hospital building is located, if applicable.
- 3) Any labor union representing workers who work in a general acute care building that is not SPC-3/NPC-5, SPC-4D/NPC-5, SPC-4/NPC-5, or SPC-5/NPC-5.
- 4) The board of directors of the special district or joint powers agency that provides fire and emergency medical services in the jurisdiction in which the hospital building is located, if applicable.
- 5) The department. **[This is HCAI]**
- 6) The board of directors of the hospital.
- 7) The local office of emergency services or the equivalent agency.
- 8) The Office of Emergency Services.
- 9) The medical health operational area coordinator.

44

AB1882: Signage (Deadline 1/1/2024)

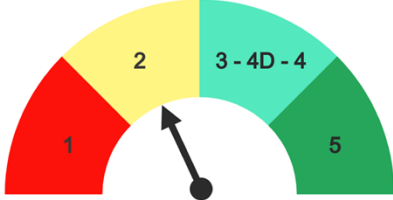

- Buildings compliant with HSC §130065 means buildings with SPC-3/NPC-5, SPC-4D/NPC-5, SPC-4/NPC-5, or SPC-5/NPC-5 ratings.
- Before January 1, 2024, the owner of an acute care inpatient hospital that includes a general acute care (GAC) building that is not SPC-3/NPC-5, SPC-4D/NPC-5, SPC-4/NPC-5, or SPC-5/NPC-5 shall post a notice in a public space, designated as **any lobby or waiting area.**

AB1882: Signage (Deadline 1/1/24)

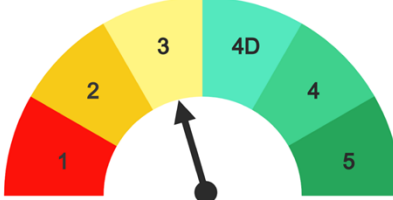

- The proposed location and the content of the notice are required to be accepted by the department through an application.
- If there is no lobby/waiting area, an appropriate posting location will be chosen.

This Building's Seismic Performance Rating

Structural Integrity

Equipment and Systems
Critical to Patient Care

The State of California has determined that this building does not significantly jeopardize life, but may not be repairable or functional following an earthquake.

More info:

Facility Number:

Building Number: BLD-

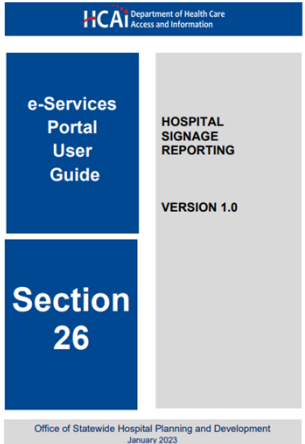

47

AB1882: Signage Application Process - STEPS

AB1882 Signage

- One application per building is required (no \$250 fee)
- Please follow eSP user guide 26 on the HCAI website:
[Hospital Signage Reporting User Guide](#)
- Once the documents are reviewed and accepted by HCAI, HCAI field staff will verify the signage on-site
- No permit is generated

Project number examples:
GACSIGN-2023-00019
GACSIGN-2023-00020
GACSIGN-2023-00021

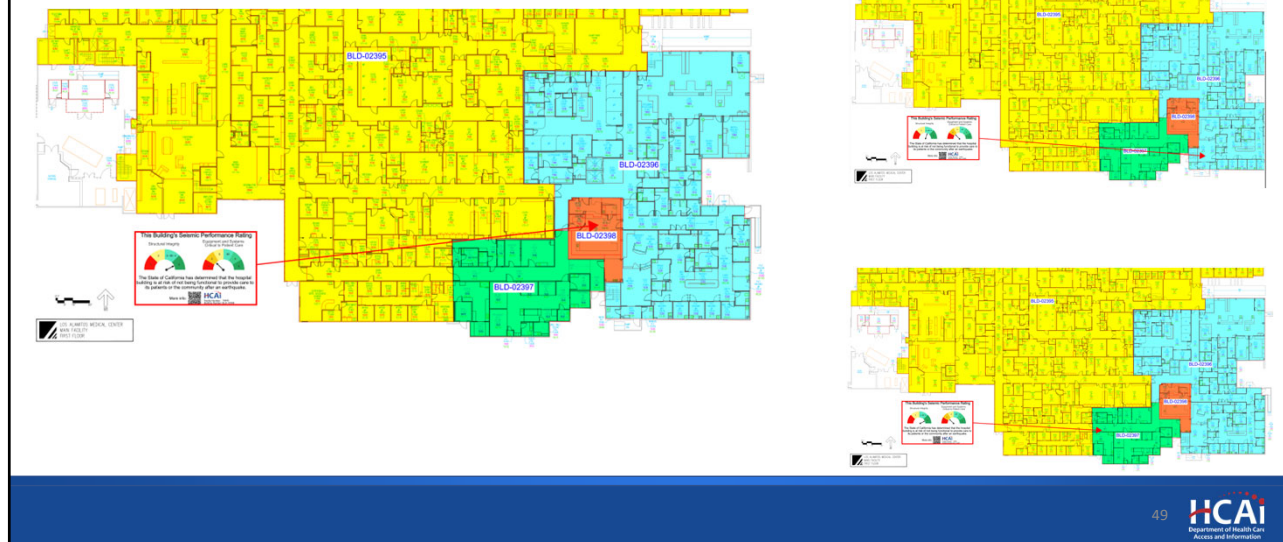

48

AB1882: Signage Application Process - STEPS

Floor plan indicating signage locations

49

FAQs - AB1882 Signage

Is only one notice needed for each non-compliant structure?

The law requires posting in any lobby or waiting area generally accessible to patients. The department may agree with a fewer number of posting locations depending on the floor(s) layout and use of space. Please submit an application with proposed posting locations for the department's review and approval.

Can this be done as part of another ongoing project on the site?

No. Please submit a new AB 1882 signage application using eSP.

There are general acute care buildings without lobby or waiting areas, would posting still be required?

If there is no lobby or waiting area, the department will review the location of the posting on a case-by-case basis. AB 1882 posting **is not required for equipment yards, tunnels, canopies, cooling towers, or emergency generator enclosures.**

50

FAQs - AB1882 Signage

Are these signs expected to be printed pieces of paper? What about signage to wall connection detail?

There is no required material type for the signage. The signage should be protected from damage and securely adhered or hung on the wall.

Is it sufficient to provide a general location, such as pointing to the approximate area on a floor plan, or does the exact location need to be specified?

Pointing to the approximate area on a floor plan is acceptable. The installed signage is required to be verified and accepted by HCAI field staff.

Will the HCAI regions be reviewing these AB 1882 projects, or will they go through the Seismic Compliance Unit?

Review and approval will be done by the corresponding region or field staff.

SUMMARY

Seismic compliance documents/applications required to be submitted to HCAI/OSHPD by 1/1/2024:

NPC Related

- NPC 3 compliance construction final document *[If GAC building is NPC 2 and located in SDC F site]*
- NPC 4D Evaluation report including Operational Plan *[If GAC building NPC target is not NPC 4]*
- NPC 4 Evaluation report *[If GAC building NPC target is not NPC 4D]*
- NPC 5 Evaluation report including 72hr fuel evaluation and Water Rationing Plan *[All GAC Buildings]*
- Letter of Intent stating GAC services in the building will be removed by 1/1/2030 *[For GAC buildings planned to be removed from GAC services by 1/1/2030]*

AB 1882 related

- Licensed GAC Services Reporting Application *[All buildings under HCAI jurisdiction]*
- Signage Application *[All GAC Buildings]*
