<p>I understand that as an appointed CORC User Account Administrator on behalf of the hospital, I have the responsibility to:</p> <ol style="list-style-type: none"> 1. Create/add and inactivate user accounts for other CORC users within my hospital. Creating a user account includes granting access roles for an individual to read, submit and/or correct my hospital's confidential data. Removing granted access roles and/or inactivating user accounts revokes this access. 2. Modify the demographic information for my hospital's Primary, Secondary and Administrator Contacts. This notifies HCAI of any changes in name, mailing address, phone number, and email address for each contact. Modifying demographic information directly changes the information in the CORC database. 3. Change passwords for CORC users within my hospital. In the event that a user misplaces or forgets their password, they will be directed to contact their User Account Administrator to have it reset. The User Account Administrator should authenticate the user prior to resetting the password and issuing a new password. 4. Unlock CORC user accounts. CORC will lock user accounts after three (3) unsuccessful log on attempts. When the account is locked, users will be required to contact their User Account Administrator to unlock their account. 5. Reactivate inactive accounts. NOTE: After 270 consecutive days (9 months) of inactivity, CORC user accounts may be inactivated. <p>By signing this document I acknowledge reading, understanding, and agreeing to its contents.</p>
