## CHART OF ACCOUNTS

## PURPOSE

The purpose of a Chart of Accounts is to provide for a systematic accumulation of financial data in groupings that will be meaningful to the users of that data. An outline of the required Chart of Accounts for long-term care facilities is presented in this chapter, along with an explanation of the numerical coding system used. Detailed descriptions of the nature and content of each account are presented in Chapter 3000, Account Descriptions.

It is recognized that it is impossible to develop a chart of accounts that will fulfill, in all respects, the requirements of all facilities. Many facilities will not require the detailed information provided for in the chart; others may require even more detailed classification. The Chart presented has, therefore, been designed to permit expansion or contraction to meet the specific requirements of each facility while maintaining uniformity for accounting and reporting financial information.

## NUMERICAL CODING SYSTEM

The Numerical coding system in the Chart of Accounts provides for six digits: four primary digits and two secondary digits (e.g., XXXX.XX). However, additional digits may be used as necessary by individual facilities.

The required accounting and reporting levels are indicated by a fourth primary digit of zero (e.g., XXX0.XX). These accounts (i.e., the account numbers, titles and descriptions) must be used on a day-to-day basis in the accounting records of the facility. In addition, each of the six digits has a specific meaning as explained in the following discussion.

NOTE: Facilities may request modifications to the Office's uniform accounting systems, including modifications to the account coding structure, as specified in the California Code of Regulations, Title 22, Division 7, Section 97050. This section is reproduced in Appendix F of this Manual.

## CHART OF ACCOUNTS

The first digit of an account number designates the financial statement classification of that account as follows:

0 - Not Used
Balance Sheet
1 - Assets
2 - Liability or Equity

## Statement of Income

3 - Routine Services Revenues
4 - Ancillary Services Revenues
5 - Deductions from Revenues and Other Operating Revenues
6 - Routine Services and Support Services Expenses
7 - Property and Other Expenses
8 - Ancillary Services Expenses
9 - Nonhealth Care Revenues and Expenses, Provision for Income Taxes, and Extraordinary Items

## BALANCE SHEET ACCOUNT NUMBERS

All long-term care facilities are required to maintain all balance sheet accounts indicated in the Chart of Accounts, when such assets and liabilities exist.

First digit - As indicated, the first digit of a balance sheet account must be either "1" (asset account) or "2" (liability or equity account).

## CHART OF ACCOUNTS

Second digit - The second digit of a balance sheet account indicates whether the item is unrestricted (appears in the general fund balance sheet) or restricted (appears in a restricted fund balance sheet); and, if restricted, the type of restriction.

| $\left\{\begin{array}{l} \mathrm{X} \underline{0} \mathrm{XX} \\ \mathrm{X} \underline{\mathrm{XX}} \\ \mathrm{X} \underline{2} \mathrm{XX} \\ \mathrm{X} \underline{3} \mathrm{XX} \\ \mathrm{X} \underline{4} \mathrm{XX} \end{array}\right.$ | \} - General fund |
| :---: | :---: |
| $\binom{\mathrm{X} 5 \mathrm{XX}}{\mathrm{X} \underline{6} \mathrm{XX}}$ | - Not used |
| XIXX | - Restricted fund - Plant Replacement and Expansion |
| X 8XX $^{\text {d }}$ | - Restricted fund - Specific Purpose |
| X 9 XX | - Restricted fund - Endowment |

Third and - The combination of digits with a fourth digit of zero (XXX0) indicates the Fourth digits

Fifth and - These secondary numbers are available to provide additional Sixth digits required accounting and reporting level. All other combinations of the third and fourth digits for balance sheet accounts indicate primary subclassifications of the reporting levels which are optional.

## STATEMENT OF INCOME ACCOUNT NUMBERS

This section of the Chart of Accounts has been developed according to functional reporting concepts. That is to say, all revenues and expenses will be accounted for and reported according to type of activity.

Office of Statewide Health Planning and Development ACCOUNTING AND REPORTING MANUAL FOR CALIFORNIA LONG-TERM CARE FACILITIES

## CHART OF ACCOUNTS

First digit - As explained in Section 2010, the first digit of a revenue or expense account will be either "3", "4", "5", "6", "7", "8", or "9" which indicates the financial statement classification of that account.

Second and - The second and third digits represent classifications of revenues and Third digits expenses by type of service.

Fourth digit - As described for the balance sheet account numbers, the combinations of primary revenue and expense account numbers which end in zero (XXX0.XX) indicate required accounting and reporting level accounts. All other numbers in the fourth digit indicate subclassifications of the reporting levels which are optional.

Fifth and - Revenue accounts - The fifth and sixth digits are used to indicate Sixth digit subclassifications of patient service revenue and deductions from revenue. The fifth digit represents patient classification. The sixth digit represents category of payor.

Expense accounts - The fifth and sixth digits are used to indicate the natural classification of expense. Since the four primary digits indicate the activity, these natural classifications are intended to specify the type of expense within each activity.

A list of the classifications, including those that are required are listed in Sections 2230 and 2240.

The following is an example of revenue and expense account numbers for the charge and purchase of a prescription drug.

## CHARGE

4300.00-4XXX.XX - Ancillary Services Revenue

X30X.XX - Pharmacy
XXXㅇ..XX - Accounting and Reporting Level
XXXX.ㅇX - Inpatient Fee-for-Service
XXXX.X́ - Classification of Payor - Self-Pay

## CHART OF ACCOUNTS

If the purchaser of the prescription drug was an inpatient covered by Medi-Cal Managed Care then the charge would be as follows:

$$
\begin{gathered}
4300.05-4 X X X . X X ~-~ A n c i l l a r y ~ S e r v i c e s ~ R e v e n u e ~ \\
\text { X30XX.XX - Pharmacy } \\
\text { XXX́.XX - Accounting and Reporting Level } \\
\text { XXXX.1X - Inpatient - Managed Care } \\
\text { XXXX.Xㄷ - Classification of Payor - Medi-Cal }
\end{gathered}
$$

All other classifications of payor not listed at 2230 should be classified as .X9 - Other.

## PURCHASE

8300.53-8XXX.XX - Ancillary Services Expense<br>X30X.XX - Pharmacy<br>XXX́.XX - Accounting and Reporting Level<br>XXXX. 5 X - Supplies<br>XXXX.X르-Pharmaceuticals

See Section 2013.1, 2013.2 and 2230 for summary tables provided for easy account number reference.

Office of Statewide Health Planning and Development ACCOUNTING AND REPORTING MANUAL FOR CALIFORNIA LONG-TERM CARE FACILITIES
